Alliance provides Partnered Time and Attendance Solutions

With Labor being your Number One Expense, Hosted Solutions help you to Improve Labor Productivity and Reduce Costs. Partnered with Kronos, Alliance Delivers Cost-Effective and Easy-to-Use Payroll, Human Resources, and Time & Attendance Solutions

Kronos Experience and Support

Alliance has years of experience providing hosting, programming, and technical support for both the time clock and various versions of Kronos' time and attendance and HR/PR applications across multiple industries.

We have the equipment and expertise to host Kronos along with the ability to provide optional Level 1 and 2 support for Kronos hardware and software. We are also capable of developing and modifying various payroll interfaces to work with Kronos.

Expert Hosting and Support Services

Alliance's hosting services include Ping, Power, and Pipe. In other words, we provide the infrastructure and hardware to host the applications you use, reliable power to maintain constant uptime, and the bandwidth to access our facilities using your ISP.

As part of our managed hosting services, Alliance proactively monitors and manages the information systems infrastructure at Alliance Technology Group's data center.

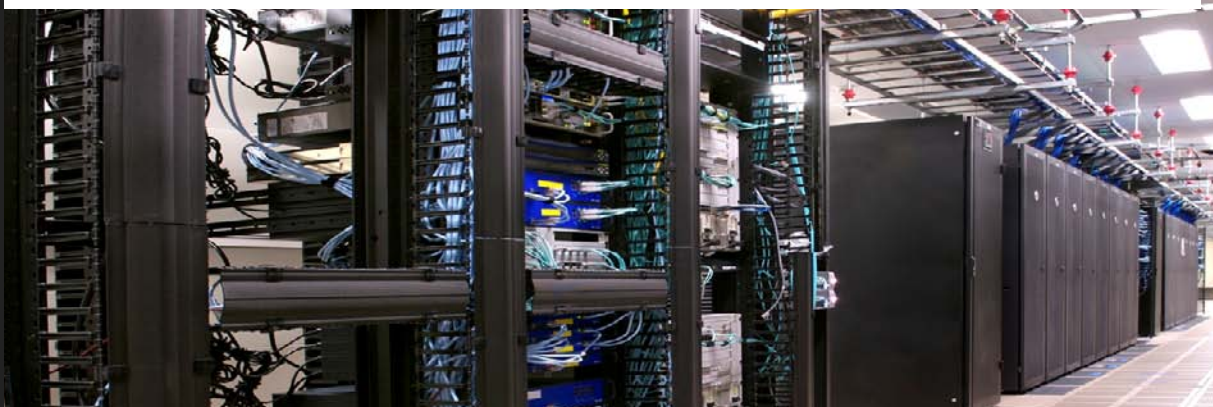

Alliance is a partnered Time and Attendance application services and managed hosting solutions provider that helps organizations ease the burden on your in-house IT departments.

This Provides Organizations All the Benefits of a Workforce Management Solution without the Challenges of Planning and Implementing New Technology
