Alliance Corporate Overview

Alliance Technology Group is a North American Systems Integrator & IT Solutions/Services company. Alliance specializes in IT Infrastructure; Storage, Systems, Networking, Physical & Cyber Security. Our Team deploys these solutions in Traditional IT Enterprises; Private, Public & Hybrid Clouds; Hyperscale Data Centers; IoT & Edge Environments.

Our Consulting & Professional Services Group provides expert support for all of the solutions we offer including design, implementation and managed services.

Alliance serves customers in the Private & Public sectors and has become a trusted partner to increase the effectiveness of how IT positively impacts business.

Our team of highly trained and certified experts have been delivering complex IT Solutions since 1997. While the technology industry continues to rapidly change, Alliance's goals have remained consistent; listen to our customers, understand their needs and deliver solutions that provide real business value.

To solve some of the most demanding IT challenges Alliance has developed Purpose Built Solutions centered around Big Data, Cyber Security, First Responder & Public Safety & Cloud markets. Alliance's Purpose Built Solution Divisions include PliantCloud, Vigilant Platforms, CyberAlliance, & SentryWire.

Enterprise IT Solutions

IT Transformation plays a critical role in creating better customer experiences and new revenue streams. Alliance works with our customers to help them understand whether their existing Storage, Systems, Networking, Mobile or Collaboration Infrastructures can support emerging applications.

This foundation allows your organization to understand how to take advantage of new capabilities in Hyper-Converged, Cloud, Virtualization, Containers & Micro-Services, Edge Computing, IoT, Mobile, Physical & Cyber Security. IT Transformation helps make existing infrastructures more agile and efficient. Learn how Alliance can help transform your enterprise.
