Pricing Terms and Conditions

Prices are in U.S. dollars and include all charges such as packaging, packing, and all taxes except sales, use, and other such taxes or customs duties imposed upon the sale or transfer of Product for which the Buyer is solely responsible under applicable law and for which Buyer is properly invoiced by Quantum. Product prices are freight on board (FOB) Quantum and do not include freight, duty, tariffs, taxes, installation, maintenance or other services unless specifically indicated.

Maintenance services may be purchased subject to regional availability and subject to a price uplift for some remote locations, which may not be reflected in this price book. Availability and pricing details are available through a Quantum sales representative

Select the appropriate service zone and currency conversion factor by using the Main Menu worksheet tab. The currently selected service zone will appear in the upper left corner of the Price Book. Service zones by country are listed in the following "Service Zones" section.

Software licenses that are electronically delivered show zero as the weight. Dimensions, if present, are the certificate envelope size.

Prices for installation, warranty uplifts and post-warranty service renewals are listed at the end of each product section. Installation/integration prices are for installations performed during normal business hours, local time, Monday-Friday, except Quantum or local holidays. Installations/integrations scheduled in advance for times other than normal business hours, local time, Monday-Friday, excluding Quantum or local holidays will be charged at a rate 1.5 times the standard price. Installations/integrations scheduled in advance to occur during Quantum or local holidays will be charged at a rate 2.0 times the standard price.

Installation prices do not include site/configuration surveys that will incur an additional charge if performed by Quantum. Standard system installation may include Fibre Channel router installation into the system (if the router was ordered with the base system). Customer is responsible for ISV application installation, setup, configuration and testing. Refer to the 'Warranty and Service Information' section for additional details.

Warranty uplifts, extensions or renewals sold for Quantum products installed in the United Kingdom will be billed with a Value-Added Tax of 20.0% (or then current rate). Taxes may be applicable in other areas as well. Please consult with your Quantum representative regarding tax charges and include taxes in all quotes where applicable.

All disk-based backup systems and automation systems include power cords for use in North America. Some products only sold in EMEA (designated "(EMEA)" at the end of the product description) may include one or two types of power cords for use in Europe. For most other products, Quantum does not offer regional power cords. In these cases, the end user or reseller is responsible for obtaining third-party power cords appropriate to local requirements.

Bronze, Next Business Day Gold and/or Gold Level services may not be available in all areas. Contact your Quantum sales support representative for details.

Product and service prices, descriptions and/or products offered are subject to change by Quantum at any time without prior written notice. Technical specifications and configuration guidelines are provided for convenience, are subject to change without prior written notice and are not intended as a replacement for product specifications and associated technical documentation.

On the Data worksheet, where County of Origin (COO) is "SYS" it means "For installation into a TAA-compliant library only." If COO is "DRV" it means Country of Origin is Japan for products shipped to NAM/LAM and Country of Origin is China for product shipped to APAC/EMEA.

VAR prices shown herein apply when purchasing applicable products directly from Quantum, which is subject to credit worthiness and purchase terms approval from Quantum. Prices may vary when products are purchased from a Quantum-authorized Distributor.

* The warranty period shown for field add-on/upgrade items applies unless the system is under warranty or service agreement, in which case, the terms and coverage provided by the system warranty or service agreement apply to the field add-on/upgrade item as well. All add-on/upgrade items within the system must be covered at the same service level as the system they are installed in. If the standard warranty for the add-on/upgrade item is at a lower service level than the system, a warranty uplift must be purchased for the add-on/upgrade item to cover it at the same service level as the system.

DLT, DLTSage, DLTtape, FastStor, Lattus, Scalar, Super DLTtape, SuperLoader, CrossLink, StackLink, and StorageCare are trademarks of Quantum Corporation. All other trademarks are the property of their respective owners.

Price Book Revision 94 Summary of Changes

Change column key CD = Changed Description, CI = Changed Item note, CM= Changed Model number, CN = Changed part Number (Quantum manufacturing part numbers are only listed in Price Books for internal use only), CP = Changed Price, CW = Changed Warranty, D = Deleted item, N = New item. Items marked with a Deleted (D) code in the Change column. (also with strikethrough text) will be completely deleted in the following Price Book revision.

UNLESS STATED OTHERWISE, NEW ITEMS ARE ADDED AND ORDERABLE, AND PRICE CHANGES ARE EFFECTIVE AS OF THE PRICE BOOK EFFECTIVE DATE SHOWN ON THE FIRST PAGE AND PAGE FOOTERS.

THERE IS ONLY ONE "CP" INDICATOR FOR EACH ITEM AND IT IS SET WHEN THERE IS A CHANGE TO ONE OR MORE PRICES ASSOCIATED WITH THE ITEM. ITEMS MARKED WITH A "CP" (Changed Price) CODE MAY HAVE HAD PRICE CHANGES IN SOME REGIONS AND/OR CHANNELS BUT NOT OTHERS. THEREFORE, YOUR PRICE MAY NOT HAVE CHANGED.

General

Removed US as country of origin for support services that are delivered locally.

Tape Drives

Price increases for LTO-5, LTO-6, LTO-7 and LTO-8.

Discontinued selected LTO-4 tape drives.

DXi4800

Added new DXi4800 products and services.

DXi6900

Discontinued DXi6900 (but not DXi-6900-S) base systems.

DXi9000

Added new DXi9000 products and services.

SuperLoader 3

Price increases for SuperLoader 3 LTO-6, LTO-7 and LTO-8.

Discontinued SuperLoader 3 LTO-5.

Scalar i3

Scalar i3 price changes.

Scalar i3 NAM disti non-registered discount change from 45% to 20%.

Discontinued Veeam tape appliance and iBlade Gold support (select Bronze or NBD Gold instead).

Scalar i6

Scalar i6 NAM disti non-registered discount change from 45% to 20%.

Discontinued iBlade Gold support (select Bronze or NBD Gold instead).

Scalar i500

Scalar i500 NAM disti non-registered discount change from 45% to 20%.

QXS-3/4/6 Series

Added new 1.8TB, 2.4TB and 12TB hard disk drives (HDD).

Price corrections for QXS-648 48-slot RAID chassis support.

Discontinued Legacy QXS-3/QXS-4/QXS-6 DMS and QXS-4 Software, Q-Tier 2.0 Tiering software.

Ruggedized Storage

Added new Ruggedized Storage products and services.

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas. Contact your Quantum sales support representative for details.

Change	Model Number	Description	COO	Package Dimensions	Package Weight	UPC	MSRP/ List Price	Sug Gold/ Silver VAR Price	Sug Gold/ Silver VAR QDR Price	Gold/ Silver VAR Price	Gold/ Silver VAR QDR Price	War-ranty*
N	DDY90-ACE5-001A	**Quantum DXi9000 Capacity Expansion, 51TB Usable Capacity** *Provides an additional 51TB of usable capacity. Use for both standard density and high density systems. Maximum 19 capacity expansions for standard density systems and 16 capacity expansions for high density systems to result in 1020TB of usable capacity. Standard density: When expanding from odd number to even number capacity points, the customer will receive a customer-installable license certificate. When expanding from even number capacity points to odd number capacity points, the customer will receive one or more 2U expansion modules. High Density: When expanding from odd number to even number capacity points the customer will receive a customer-installable license certificate. When expanding from even number to even number capacity points the customer will receive twelve 12TB. For expansions that increase capacity from 510TB or below to above 510TB the customer will also receive a 4U expansion shelf with twenty four 12TB HDDs. Onsite installation and configuration services (SDY90-NCE5-100x) will be required for the first expansion module and (SDY90-NCE5-A00x) will be required for each additional expansion module for each order. Each standard density expansion module is 2U and the high density expansion is 4U. Each physical expansion includes rails, redundant power supplies, SAS data cables, two 6ft (1.8m) NEMA 5-15P-to-IEC C13 power cords, and two 6ft (1.8m) IEC C13-to-C14 power cords based on existing configuration.*	US	31.5x27.1x46.3 (80x68.8x117.6)	80 (36.29)		280800	224640	154440			30d RE

Supports up to a maximum of 50 slots and three tape drives. Scalar i3 tape drives require a mini-SAS-HD 8644 connector on the SAS cable. Does not include an expansion module, SAS or Ethernet cables. Other types of power cords should be locally sourced. Media labels are not included. Maximum three expansion modules, 12 tape drives and 200 licensed slots per i3 library. Requires standard 19in (48.2cm) four-post rack that supports a minimum product depth of 36.4in (925mm) or has an external rack depth at least 42.13in (107.0cm) deep, such as APC AR3100. Customer installable, but phone-based installation (LSC33-NSYN-PB00) or onsite installation (LSC33-NSYS-000) is recommended.*	US	32x20.5x47 (81.3x52.1x119.4)	80 (36.29)	7-68268-80453-4	11700					1yr NBD
CP	LSC33-CSF1-L8NA	**Quantum Veeam Tape Appliance, Scalar i3, 25 licensed slots, one IBM LTO-8 6Gb SAS Tape Drive, equipment rack must support product depth of 36.4in (92.5cm)** *Product bundle with one Scalar i3 library, 25 licensed slots, one IBM LTO-8 SAS tape drive and one SAS Veeam iBlade. Includes 3U library control module with embedded Ethernet, partitioning capability, 25-slot capacity-on-demand license, 3U rackmount kit, one IBM LTO-8 HH SAS drive, one power supply, one 3ft (0.9m) C13-C14 and one 3ft (0.9m) L-5-15 power cords. Supports up to a maximum of 50 slots and three tape drives. Scalar i3 tape drives require a mini-SAS-HD 8644 connector on the SAS cable. Does not include an expansion module, SAS or Ethernet cables. Other types of power cords should be locally sourced. Media labels are not included. If initial configuration is larger than a single Control Module (more than 50 slots and more than three tape drives) is needed or customer wants a base system with a pre-installed expansion module to accommodate easier future expansion, order LSC33-BSJ0-001A plus the iBlade and drives. Future upgrades (after initial installation) support a maximum three expansion modules, 12 tape drives and 200 licensed slots per i3 library. Requires standard 19in (48.2cm) four-post rack that supports a minimum product depth of 36.4in (925mm) or has an external rack depth at least 42.13in (107.0cm) deep, such as APC AR3100. The iBlade runs Windows Server 2016. The Veeam Tape Server software must be provided by the customer. Two 10GbE copper ports with RJ-45 connections are provided for network connectivity, and one 12Gb SAS port supporting four tape drive links. Mini-SAS-HD 2.1 8644 connections are used for connecting up to four SAS LTO-6 and later drives. SAS and Ethernet cables are not included. Only one SAS cable can be used with the iBlade, choose the cable that supports the number of drives used (for one drive use 9-05359-01, for two drives use 9-05577-01, for three and four drives use 9-05567-01). Not compatible with WORM media. For use only with Veeam Tape Server software; no other software or applications are supported. Customer installable, but phone-based installation (LSC33-NSYN-PB00) or onsite installation (LSC33-NSYS-000) is recommended. For service uplifts use SSC33-RSFZ-Cxxx.*	US	32x20.5x47 (81.3x52.1x119.4)	80 (36.29)	7-68268-04555-2	17700					1yr NBD

	LSC33-ALAR-001A	**Quantum Scalar i3 Advanced Reporting Option License** *Enables additional reporting in the library, including Drive Resource Utilization, Drive and Media Tape Alerts, Media Usage, and Media Security Notifications. This is a library-based license that cannot be transferred to another library. Maximum one license per library.*	US	9x1.5x13.25 (22.9x3.8x33.7)	1 (0.45)	7-68268-04369-5	3039					
	LSC33-ALPF-001A	**Quantum Scalar i3 Advanced Path Failover License, Control Path only, Single Drive, for use with IBM LTO-6 FC and later** *The Compatibility Guide on Quantum.com must be consulted prior to quoting this feature. Library license key that enables Advanced Path Failover for the control path (data path is not supported) on one IBM LTO-6 FC and later drive (SAS is not supported). A driver is required to be loaded on each host that communicates with the library. This is a library-based license that cannot be transferred to another library. Order a minimum quantity of two licenses per library partition for control path failover.*	US	9x1.5x13.25 (22.9x3.8x33.7)	1 (0.45)	7-68268-04374-9	2000					
	LSC33-ALAP-001A	**Quantum Scalar i3 Multi-Path Failover License, Control Path Only, Single Drive, for use with IBM LTO-6 FC drives and later** *The Compatibility Guide on Quantum.com must be consulted prior to quoting this feature. This feature is similar to the Basic Path Failover licenses sold with other libraries. Library license key that enables Multi-Path Failover for the control path (data path is not supported) on one IBM LTO-6 FC and later drive (SAS is not supported). This feature can only be used with applications that can manage the multiple paths, currently restricted to NetBackup and Commvault. See the compatibility guide on Quantum.com for complete information. This is a library-based license that cannot be transferred to another library. Order a minimum quantity of two licenses per library partition for control path failover.*	US	9x1.5x13.25 (22.9x3.8x33.7)	1 (0.45)	7-68268-04384-8	2000					
	Encryption License Keys											
	LSC33-ALM1-SKMA	**Quantum Scalar i3 Library-Managed Encryption License, Scalar Key Manager, single drive** *License is for use only with Scalar Key Manager, do not use with other key managers or mix with other encryption licensing. Requires SKM version 2.4 software or higher. If the Scalar i3 will be used in an existing SKM environment that is using SKM software 2.2 or lower, then the SKM 2.4 software upgrade requires Quantum installation. This installation is free if done remotely via WebEx (no extra parts quoted). If onsite installation is required for the SKM 2.4 software upgrade, include SKM installation on the quote based on the library installation quoted. If the quote contains Quantum onsite installation for the Scalar i3, quote SLBBB-NEK2-000x for SKM 2.4 installation. If the quote contains Quantum remote phone-WebEx installation for the Scalar i3 or the customer will install the Scalar i3, then quote SLBBB-NEK1-000x for SKM 2.4 installation. Enables communication with Scalar Key Manager for one tape drive. Supported tape drives include IBM LTO-6 or later. Not needed if application-managed encryption is used, e.g., NetBackup key management. The number of encryption licenses should equal the number of drives installed in encryption-enabled partitions. Mixing with non-encrypted drives is allowed, but only in separate partitions (partitioning is included in the base library). Requires drive encryption support (SSC33-RLM1-xL10) for each tape drive license used. Warranty/service level of key-enabled drives must match the service length and level of the system. This is a library-based license that cannot be transferred to another library.*	US	9x1.5x13.25 (22.9x3.8x33.7)	1 (0.45)	7-68268-04370-1	1600					

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.

		iBlade Interface Cards										
CP	LSC33-ABLA-04SA	**Quantum Scalar i3 iBlade Scalar LTFS interface, 1/10GbE-SAS, up to four drives, field upgrade** *For use with Scalar i3 libraries using SAS drives. Maximum one iBlade per library. Library may be configured with more drives than iBlade ports as long as the additional drives are assigned to a non-iBlade partition. Includes one iBlade that runs Scalar LTFS/NAS presentation layer software (CIFS for Windows and Mac, and NFS for Linux). Two 1/1/10GbE copper ports with RJ-45 connections are provided for network connectivity, and one 12Gb SAS port supporting four tape drive links. Mini-SAS-HD 2.1 8644 connections are used for connecting up to four SAS LTO-6 and later drives. Tape drives, cartridge slot licensing, and media are not included. Cables are not included. Only one SAS cable can be used with the iBlade, choose the cable that supports the number of drives used (for one drive use 9-05359-01, for two drives use 9-05577-01, for three and four drives use 9-05567-01). Not compatible with WORM media. For use only with the LTFS/NAS software; no other software or applications are supported. iBlade must be installed in a separate partition from Storage Manager. Customer installable, but phone-based installation (LSC33-NSYN-PB00) or onsite installation (SSC3A-NBLD-000x) is recommended. A Bronze, NBD Gold or Gold Support Plan (SSC3x-SBLx-Cxxx) must also be added at the same service level as the system.*	US	7x4.5x12 (17.8x11.4x30.5)	5 (2.27)	7-68268-04433-3	9400					30d LW
CP	LSC3A-ABLA-02FA	**Quantum Scalar i3, Scalar i6 and AEL6 iBlade Scalar LTFS interface, 1/10GbE-Dual FC, up to two drives, field upgrade** *For use with Scalar i3, Scalar i6 and AEL6 libraries using Fibre Channel drives. Maximum one iBlade per library. Library may be configured with more drives than iBlade ports as long as the additional drives are assigned to a non-iBlade partition. Includes one iBlade that runs Scalar LTFS/NAS presentation layer software (CIFS for Windows and Mac, and NFS for Linux). Two 1/10GbE copper ports with RJ-45 connections are provided for network connectivity, and two LC Fibre Channel connections for connecting up to two LTO-6 FC and later drives. Tape drives, cartridge slot licensing, and media are not included. Cables are not included. Use LC-to-LC cables to connect the tape drives. Not compatible with WORM media. For use only with the LTFS/NAS software; no other software or applications are supported. iBlade must be installed in a separate partition from Storage Manager. Customer installable, but phone-based installation (LSC33-NSYN-PB00) or onsite installation (SSC3A-NBLD-000x) is recommended. Quantum

Service Zone: 1   Currency: US Dollars

Change	Model Number	Description	COO	Package Dimensions WxHxD, in (cm)	Package Weight, lbs (kg)	UPC	MSRP/ List Price	Sug Gold/ Silver VAR Price	Sug Gold/ Silver VAR QDR Price	Gold/ Silver VAR Price	Gold/Silver VAR QDR Price	War-ranty*
	SSC33-NUPN-0001	**Quantum Scalar i3 Library Upgrades, Onsite Installation and Configuration, zone 1** *Required for all upgrade orders with onsite installation. Order one for each location where an upgrade is to be performed. Covers upgrades to up to five libraries at the same site. Onsite installation for all upgrade hardware components (expansion modules, drives, 6U+ library expansion kit and blades) must be added to the order in addition to this base upgrade installation. Do not use with Scalar i3 Initial Library Installation and Configuration (LSC33-NSYS-000x). An out-of-area travel charge may apply.*					1250	1000	1000			
	SSC33-NEXM-0001	**Quantum Scalar i3 Library, 3U Expansion Module, Single Location, Onsite Installation, zone 1** *The Scalar i3 libraries are customer installable and customer configurable. However, library installation and configuration service is available if the customer prefers Quantum professional installation and configuration. The Library Expansion Module Installation charge includes installation of one EM only and does not include tape drives. Order one for each expansion module included in the initial installation or each upgrade of a Scalar i3 Library. Model SSC33-NUPN-000x must be ordered every time this model number is ordered if the EM is ordered as an upgrade, installed subsequent to the initial installation.*					625	500	500			
	SSC33-NTD1-0001	**Quantum Scalar i3 Library, Tape Drive, Single Drive, Single Location, Onsite Installation, zone 1** *The Scalar i3 libraries are customer installable and customer configurable. However, library installation and configuration service is available if the customer prefers Quantum professional installation and configuration. Tape drive installation charge includes installation of one tape drive only and does not cover installation of any other components. Order one for each tape drive included in the initial installation or each upgrade of a Scalar i3 Library. Model SSC33-NUPN-000x must be ordered every time this model number is ordered if the tape drive is ordered as an upgrade, installed subsequent to the initial installation.*					225	180	180			
	SSC33-NLEK-0001	**Quantum Scalar i3 Library, 6U+ Library Expansion Kit for Field Upgrade, Single Location, Onsite Installation, zone 1** *The Scalar i3 libraries are customer installable and customer configurable. However, library installation and configuration service is available if the customer prefers Quantum professional installation and configuration. A Library Kit for Field Upgrade is required for the installation of the first Expansion Module. It is required once per Library. The Expansion Kit for Field Upgrade installation charge includes installation of one Expansion Kit into a Scalar i3 only and does not cover installation of any other components. Model SSC33-NUPN-000x must be ordered every time this model number is ordered if the Expansion Kit is ordered as an upgrade, installed subsequent to the initial installation. This Expansion Kit is not required if Model Number LSC33-CLBA-050A is installed.*					1100	880	880			
	SSC33-NLSD-PB00	**Quantum Scalar i3 Library, Phone-Based/WebEx-Based Installation for Slot COD and/or Encryption License Reduction; Miscellaneous Support, Fee; all zones** *Customers may decrement their slot license count at the end of a service contract term with 90-days prior written notice. Order one of these services for professional phone-based assistance for the decrement of COD Slot Licenses or Tape Drive Encryption Licenses. This service applies to an individual library at a single site. The service provided is to adjust the slot count on the library or the number of encrypted tape drives as required to accommodate the modified contracted slot license count.*					500	400	400			
	SSC33-NLSD-0001	**Quantum Scalar i3, Onsite Slot and/or Encryption License Reduction Service; Miscellaneous Support, Fee; zone 1** *Customers may decrement their slot license count and/or the number of tape drives supported by encryption at the end of a service contract term with 90-days prior written notice. Order one of these services for onsite license adjustment of an individual library at a single site. The onsite service provided is to adjust the slot count on the library and/or to reduce the number of tape drives supported by encryption. Price is per visit. Both slot and encryption licenses may be changed on the same visit. Scalar i3 Library Upgrade Onsite Installation and Configuration (SSC33-NUPN-000x) must be ordered every time this model number is ordered.*					500	400	400			
	SSC3A-NBLD-0001	**Quantum Scalar i3, Scalar i6 and AEL6 iBlade, Single Location, Onsite Installation, zone 1** *The Scalar i3 and Scalar i6 libraries are customer installable and customer configurable. However, library installation and configuration service is available if the customer prefers Quantum professional installation and configuration. AEL6 Archives require Quantum Professional Services Installation. The Blade installation charge includes installation of one Blade only into a Scalar i3, Scalar i6 or AEL6 and does not cover installation of any other components. This part number covers installation for all versions of the iBlade. Model Number SSC3A-NBLD-000x or SSC36-NUPN-000x must be ordered every time this model number is ordered if the Blade is ordered as an upgrade, installed subsequent to the initial installation. All replaced iBlades must be returned to Quantum unless Model Number (SSC3A-RCSA-NR10) is ordered and included in the service agreement.*					350	280	280			
		Other Services										
N	SSCBB-NDMA-001A	**Quantum Library Drive and Media Audit, one-time event, for all tape libraries** *Full remote media log analysis including usage, identifying problematic media, and status of cleaning cartridges. Detailed report provided upon completion.*					497	447	447			
	SSC33-RTSA-NR10	**Quantum Scalar i3 Library, per drive, Non-Returnable Tape Drive; Support Plan, Fee; annual, all zones** *Add this surcharge as another line item per tape drive installed in a Scalar i3 at a secure site. This line item should be added whether under warranty or uplift/renewal contract. This item is applicable only as an addition to an existing customer service contract. This item may not be a single item on a customer service contract.*					800	640	640			
	SSC3A-RCSA-NR10	**Quantum Scalar i3, Scalar i6 and AEL6, per library, Non-Returnable Library Components; Support Plan, Fee; annual, all zones** *Add this surcharge as another line item per a Scalar i3 or Scalar i6 Library or AEL6 Archive at a secure site and applies to all library components, including iBlades. This line item should be added whether under warranty or uplift/renewal contract.*					2000	1600	1600			
	SLBBB-ADSS-0001	**Quantum Dark Site Support Charge; Miscellaneous Support, Fee; annual, zone 1** *Add this surcharge as another line item for customers who have unattended "dark" sites that require additional non-mission critical support visits. Service Contracts is required to add this item.*					5000	4500	4500

		Encryption License Keys										
CP	LSC36-ALM1-SKMA	**Quantum Scalar i6 and AEL6 Library-Managed Encryption License, Single Drive, for Scalar Key Manager** *License is for use only with Scalar Key Manager, do not use with other key managers or mix with other encryption licensing. Requires SKM version 2.4 software or higher. If the Scalar i6 will be used in an existing SKM environment that is using SKM software 2.2 or lower, then the SKM 2.4 software upgrade requires Quantum installation. This installation is free if done remotely via WebEx (no extra parts quoted). If onsite installation is required for the SKM 2.4 software upgrade, include SKM installation on the quote based on the library installation quoted. If the quote contains Quantum onsite installation for the Scalar i6, quote SLBBB-NEK2-000x for SKM 2.4 installation. If the quote contains Quantum remote phone-WebEx installation for the Scalar i6 or the customer will install the Scalar i6, then quote SLBBB-NEK1-000x for SKM 2.4 installation. Enables communication with Scalar Key Manager for one tape drive. Supported tape drives include IBM LTO-6 or later. Not needed if application-managed encryption is used, e.g., NetBackup key management. The number of encryption licenses should equal the number of drives installed in encryption-enabled partitions. Mixing with non-encrypted drives is allowed, but only in separate partitions (partitioning is included in the base library). Requires drive encryption support (SSC36-RLM1-xL10) for each tape drive license used. Warranty/service level of key-enabled drives must match the service length and level of the system. This is a library-based license that cannot be transferred to another library.*	US	9x1.5x13.25 (22.9x3.8x33.7)	1 (0.45)	7-68268-04404-3	1600	1280	880			1yr NBD

		EDLM Scanning Tape Drives and EDLM License										
CP	LSC36-ALED-001A	**Quantum Scalar i6 iLayer EDLM License, Scanning Drives Not Included** *License key to enable EDLM functionality within the Scalar i6 iLayer software. Provides the ability to create and configure an EDLM library-managed partition. Maximum one EDLM license per system. EDLM scanning drives are sold separately. A minimum of one EDLM scanning tape drive is required to use this feature, but a minimum of two drives is recommended. A mix of EDLM LTO-6 and LTO-7 scanning drives can be used with this feature. If at least one non-EDLM drive is enabled for encryption, the EDLM drives do not need encryption license keys. Installation and service is not required for the EDLM license. Not for use with the AEL6 as all AELs already have an EDLM license included in the base library.*	US	9x1.5x13.25 (22.9x3.8x33.7)	1 (0.45)	7-68268-04396-1	10300	8240	5665			1yr NBD

Change	Model Number	Description	COO	Package Dimensions WxHxD, in (cm)	Package Weight, lbs (kg)	UPC	MSRP/ List Price	Sug Gold/ Silver VAR Price	Sug Gold/ Silver VAR QDR Price	Gold/ Silver VAR Price	Gold/Silver VAR QDR Price	War-ranty*
	SSC36-NSYS-0001	**Quantum Scalar i6 Library, up to 50 licensed slots, no tape drives, no library expansion modules, Initial Onsite Installation and Configuration, zone 1** *The Scalar i6 libraries are customer installable and customer configurable. However, library installation and configuration service is available if the customer prefers Quantum professional installation and configuration. This optional item is for the initial installation and configuration of new base libraries or when an existing Control Module is being moved and installed at a new location. Quantity must match the number of libraries being installed. Includes configuration, testing of components and system as required and handoff to customer. Installation for expansion modules and all other library components must be ordered separately as needed. An out-of-area travel charge may apply. If onsite installation is selected, all components require onsite installation.*					2200	1760	1760			
		Encryption Installation										
	SLBBB-NEK1-PB00	**Quantum Scalar Key Management Solution (SKM only), Phone-Based Installation and Configuration, Single Server, Software and SKM Hardware, all zones** *Quantum Scalar Key Management Solutions are customer installable. Order this item for professional phone-based installation and configuration assistance. Order one per server. Includes software and, if SKM server, hardware installation.*					1000	800	800			
	SLBBB-NEK1-0001	**Quantum Scalar Key Manager (SKM), Single Server/Site System Installation and Configuration, zone 1** *Includes installation and configuration of SKM on a single server at a single site. If this item is ordered, the installation and configuration of the secondary server is also required and must be ordered separately. This service is optional for the SKM Appliance. Also includes library configuration steps necessary to connect to the primary SKM. If the key management installation and configuration service is related to a new system installation, system installation service must also be ordered. For configurations outside this scope, refer to the Customized System Integration Service.*					2500	2000	2000			
	SLBBB-NEK2-0001	**Quantum Scalar Key Manager (SKM), Additional Server/Same Site/Same Trip System Installation and Configuration, zone 1** *Includes installation and configuration of SKM on an additional server at the same site during the same trip. This service is optional for the SKM Appliance. Also includes library configuration steps necessary to connect to SKM or Q-EKM. Must purchase Key Management Single Server/Site Integration Service (SLBBB-NEK1-000x) as a prerequisite.*					1500	1200	1200			
	SLBBB-NEK3-0001	**Quantum Scalar Key Manager (SKM), Additional Server/Different Site System Installation and Configuration, zone 1** *Includes installation and configuration of SKM on an additional server at a different site. This service is optional for the SKM Appliance. Also includes library configuration steps necessary to connect to SKM or Q-EKM. Must purchase Key Management Single Server/Site Integration Service (SLBBB-NEK1-000x) as a prerequisite.*					2500	2000	2000			
		Upgrade Installation										
	SSC36-NUPN-0001	**Quantum Scalar i6 and AEL6 Upgrades, Onsite Installation and Configuration, zone 1** *Required for all upgrade orders involving onsite installation. Quantity must equal the number of locations where upgrades are needed, not the number of libraries. This item covers one visit per location. Add one of this item for each additional onsite visit. Installation for all hardware components (expansion modules, drives, and blades) must be added to the order in addition to this Base Upgrade Installation. Do not use with Scalar i6 Library Installation and Configuration (SSC36-NSYS-000x) or AEL6 Archive Installation and Configuration (SSNDC-NSYS-000x). An out of area travel charge may apply.*					1250	1000	1000			
	SSC36-NEXM-0001	**Quantum Scalar i6 and AEL6 Expansion Module, Single Location, Onsite Installation, zone 1** *Scalar i6 and AEL6 upgrade components are customer installable and customer configurable. However, upgrade installation and configuration service is available if the customer prefers Quantum professional installation and configuration. The Library Expansion Module Installation charge includes installation of one EM only and does not include tape drives. Quantity must match the quantity of expansion modules. Order one for each expansion module included in the initial installation or each upgrade of a Scalar i6 Library. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC36-NUPN-000x).*					625	500	500			
	SSC36-NTD1-0001	**Quantum Scalar i6 and AEL6 Tape Drive, Single Drive, Single Location, Onsite Installation, zone 1** *Scalar i6 and AEL6 upgrade components are customer installable and customer configurable. However, upgrade installation and configuration service is available if the customer prefers Quantum professional installation and configuration. The Library Tape Drive Installation charge includes installation of one tape drive only and does not include expansion modules. Quantity must match the quantity of all Tape Drives. Order one for each tape drive included in the initial installation or each upgrade of a Scalar i6 Library. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC36-NUPN-000x).*					225	180	180			
	SSC36-NLSD-PB00	**Quantum Scalar i6 Library, Phone-Based/WebEx-Based Installation for Slot COD and/or Encryption License Reduction; Miscellaneous Support, Fee; all zones** *Customers may decrement their slot license count at the end of a service contract term with 90-days prior written notice. Order one of these services for professional phone-based assistance for the decrement of COD Slot Licenses or Tape Drive Encryption Licenses. This service applies to an individual library at a single site. The service provided is to adjust the slot count on the library or the number of encrypted tape drives as required to accommodate the modified contracted slot license count.*					500	400	400			
	SSC36-NLSD-0001	**Quantum Scalar i6 and AEL6, Onsite Slot and/or Encryption License Reduction Service; Miscellaneous Support, Fee; zone 1** *Customers may decrement their slot license count and/or the number of tape drives supported by encryption at the end of a service contract term with 90-days prior written notice. Order one of these services for onsite license adjustment of an individual library at a single site. The onsite service provided is to adjust the slot count on the library and/or to reduce the number of tape drives supported by encryption. Price is per visit. Both slot and encryption licenses may be changed on the same visit. Base Upgrade Installation and Configuration (SSC36-NUPN-000x) must be ordered every time this model number is ordered.*					225	180	180			
	SSC3A-NBLD-0001	**Quantum Scalar i3, Scalar i6 and AEL6 iBlade, Single Location, Onsite Installation, zone 1** *The Scalar i3 and Scalar i6 libraries are customer installable and customer configurable. However, library installation and configuration service is available if the customer prefers Quantum professional installation and configuration. AEL6 Archives require Quantum Professional Services Installation. The Blade installation charge includes installation of one Blade only into a Scalar i3, Scalar i6 or AEL6 and does not cover installation of any other components. This part number covers installation for all versions of the iBlade. Model Number SSC33-NBLD-000x or SSC36-NUPN-000x must be ordered every time this model number is ordered if the Blade is ordered as an upgrade, installed subsequent to the initial installation. All replaced iBlades must be returned to Quantum unless Model Number (SSC3A-RCSA-NR10) is ordered and included in the service agreement.*					350	280	280			
		Other Services										
N	SSCBB-NDMA-001A	**Quantum Library Drive and Media Audit, one-time event, for all tape libraries** *Full remote media log analysis including usage, identifying problematic media, and status of cleaning cartridges. Detailed report provided upon completion.*					497	447	447			
	SSC36-RTSA-NR10	**Quantum Scalar i6 and AEL6, per drive, Non-Returnable Tape Drive; Support Plan, Fee; annual, all zones** *Add this surcharge as another line item per tape drive installed in a Scalar i6 at a secure site. This line item should be added whether under warranty or uplift/renewal contract. This item is applicable only as an addition to an existing customer service contract. This item may not be a single item on a customer service contract.*					800	640	640			
	SSC3A-RCSA-NR10	**Quantum Scalar i3, Scalar i6 and AEL6, per library, Non-Returnable Library Components; Support Plan, Fee; annual, all zones** *Add this surcharge as another line item per a Scalar i3 or Scalar i6 Library or AEL6 Archive at a secure site and applies to all library components, including iBlades. This line item should be added whether under warranty or uplift/renewal contract.*					2000	1600	1600			
	SLBBB-ADSS-0001	**Quantum Dark Site Support Charge; Miscellaneous Support, Fee; annual, zone 1** *Add this surcharge as another line item for customers who have unattended "dark" sites that require additional non-mission critical support visits. Service Contracts is required to add this item.*					5000	4500	4500			
	Quantum Scalar i6 Service Uplifts											
		Base Library Uplifts										
	SSC36-RSJ0-CB11	**Quantum Scalar i6 Library, 6U Control Module, 50 licensed slots, no tape drives; Support Plan, Bronze (5x9xNBD CRU); Uplift/Renewal, annual, zone 1** *Order one per control module, regardless of the number of expansion modules (expansion module support is covered by the slot license support). Bronze support requires self installation of Customer Replaceable Units (CRUs). If customer would like Quantum to provide installation of CRUs, order Onsite Installation of CRUs service option (SSC36-VS06-CB1x).*					621			590	559	
	SSC36-LSJ0-CB31	**Quantum Scalar i6 Library, 6U Control Module, 50 licensed slots, no tape drives; Support Plan, Bronze (5x9xNBD CRU); Uplift, three years, zone 1** *Order one per control module, regardless of the number of expansion modules (expansion module support is covered by the slot license support). Bronze support requires self installation of Customer Replaceable Units (CRUs). If customer would like Quantum to provide installation of CRUs, order Onsite Installation of CRUs service option (SSC36-VS06-CB1x).*					1584	1426	1426			

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.

Quantum Scalar i500 Libraries

Quantum Scalar i500 Base Libraries

The Scalar i500 5U, 14U and 23U Base Libraries include two, six or 10 empty tape drive bays, respectively., and must order at least one field-installed tape drive. Each Base Library includes 41 activated slots.

All systems Include rackmount kit, Quick Start Guide, User and Customer Training Guides on CD, two module-to-module terminators, one North American power cord (with NEMA 5-15P plug), one European power cord (with V11G, CEE 7/7 plug), and one SCSI terminator for each tape drive. Requires appropriate media, library-to-host cables and software. All systems are fully configured with all components integrated and tested.

The 14U Base Library ships as a 5U Base Library and one 9U Expansion Module. Slots can be added in 46-slot increments to a maximum of 133 slots in the 14U Base Library.

The 23U Base Library ships as a 5U Base Library and two 9U Expansion Modules. Slots can be added in 46-slot increments to a maximum of 225 slots in the 23U Base Library. Scalar i500 libraries 23U or taller must be installed in a rack.

Expansion Modules, 9U in height with up to four tape drives and 46 or 92 slots, can be added to build an extended library of up to 18 tape drives and up to 402 slots (systems that started out with 36 slots) or 409 slots (systems that started out with 41 slots). Scalar i500 libraries 23U or taller must be installed in a rack.

The Scalar i500 5U and 14U libraries are customer installable. However, library installation service is recommended for all configurations and system configuration services are recommended for all Fibre Channel installations. Installation and Configuration are required for Scalar i500 23U and larger libraries and add-on 9U expansion modules.

Installation is also required if ordering Quantum Encryption Key Manager at initial purchase. The Library Installation charge includes installation of the library and all optional items initially ordered with the library. Installation service is required if a system configuration package is ordered in conjunction with a new system installation.

		EDLM Scanning Tape Drives and EDLM License										
CP	LSC5H-AEDL-000A	**Quantum Scalar i500 iLayer EDLM License, Scanning Drives Not Included** *License key to enable EDLM functionality within the Scalar i500 iLayer software, version i7.3 and later. Only one EDLM license is required per system. EDLM slots can be assigned from either licensed storage slots or unlicensed physically available slots. EDLM scanning drives are sold separately, a minimum of one EDLM scanning tape drive is required to use this feature. A mix of EDLM LTO-4, LTO-5 and LTO-6 scanning drives can be used with this feature. If at least one non-EDLM drive is enabled for encryption, the EDLM drives do not need encryption license keys. Installation and Service is not required for the EDLM license. This is a library-based license, not a drive license and cannot be transferred to another library. LTO-7 Scanning drives are currently not available but will be added in a future release.*	US	14x2x9 (35.6x5.1x22.9)	2 (0.91)	7-68268-03536-2	10300	8240	5665			
CP	LSC5H-AEDL-B8AA	**Quantum Scalar i500 and AEL500 IBM LTO-8 EDLM Scanning Tape Drive, field upgrade** *Includes one IBM LTO-8 EDLM scanning tape drive for use with the Scalar i500 and AEL500 EDLM iLayer feature. Required EDLM license sold separately for Scalar i500, but is included with AEL500. This drive supports EDLM scanning of LTO-8 and LTO-7 media. Required EEB blades and Ethernet cables automatically ship with this drive as needed. The EDLM license is sold separately and is required (one per library) to use this drive. This drive can be mixed with other EDLM scanning tape drives. Tape drive installation and configuration (SSCBB-NTDx-xxxx) must be ordered for each drive. A Bronze, NBD Gold or Gold Support Plan (SSC51-LS00-xxxx) must also be added at the same service level as the system for each EDLM drive.*	US	9x9x16 (22.9x22.9x40.6)	13 (5.9)	7-68268-80445-5	9990	7992	5495			30d RE
CP	LSC5H-AEDL-B7AA	**Quantum Scalar i500 and AEL500 IBM LTO-7 EDLM Scanning Tape Drive** *Includes one LTO-7 EDLM scanning tape drive for use with the Scalar i500 and AEL500 EDLM iLayer feature. Required EDLM license (LSC5H-AEDL-000A) sold separately for Scalar i500, but is included with AEL500. This drive supports EDLM scanning of LTO-5, LTO-6 and LTO-7 media. Required EEBs and cables automatically ship with this drive as needed. This drive can be mixed with scanning tape drive generations. Must order Tape Drive Installation and Configuration (SSCBB-NTDF-012x), covering up to 12 drives, to install EDLM drives after initial system installation. A Bronze, NBD Gold or Gold Tape Drive Module Support Plan (SLBBM-LTDX-xxxx) must also be added at the same service level as the library for each EDLM drive.*	US	9x9x16 (22.9x22.9x40.6)	13.9 (6.3)	7-68268-04299-5	8600	6880	4730			30d RE

Quantum Scalar i6000 Libraries

The Scalar i6000 supports a capacity-on-demand model. Physical slot capacity is sold separately from licensed slot capacity. Customers must purchase expansion modules, tape drives, slot licenses, and other options as required. The library can support up to 16 modules (Control Module plus 15 expansion modules), 12,006 cartridge slots, 96 tape drives, 16 I/E Stations and two robots.

The Scalar i6000 Control Module (CM) with a 24-slot I/E Station is standard with each system and accommodates 100 to 300 slots (in 100-slot increments) and up to 12 tape drives (18 drives in CM3). Up to 15 expansion modules (EMs) can be ordered; there are three types of expansion modules. The Drive Ready Expansion Module (DREM) accommodates up to 456 LTO slots, up to 12 additional tape drives (24 drives in DREM3) and one additional I/E Station. The Storage Expansion Module (SEM) accommodates up to 456 LTO slots, no tape drives (unless converted to a DREM) and one I/E Station. The High-Density Expansion Module (HDEM) accommodates up to 780 LTO slots, no tape drives and one I/E Station. All expansion modules must be ordered; they are not automatically shipped.

An I/E Station can be added to each expansion module but cannot be added to a parking module. There are two I/E Station options: a 24-slot and a 72 slot. The 24-slot I/E Station can be added to any EM and reduces physical slot capacity in the EM by 60 slots, the 72-slot reduces EM physical capacity by 168 slots.

Libraries with Dual Robots require a minimum of three modules: the Control Module, a Left Parking Module (ships with the Dual Robot feature and does not need to be ordered), and a DREM or SEM (the DREM/SEM is converted to a Right Parking Module). The Left Parking Module does not count against the 16 module limit. A 72-slot I/E Station cannot be installed in the Right Parking Module.

Library installation and configuration service is required with the Scalar i6000. For new libraries add installation and configuration for the base library (Control Module) and all options with the exception of I/E Stations. I/E Stations that are ordered with an expansion module (DREM, SEM or HDEM) are factory installed and do not require installation. See the item note for I/E Stations for specific rules. For upgrading installed libraries add installation and configuration for all hardware components ordered. Installation and configuration quantities must match the hardware quantities.

Use of online QuoteMachine configurator is strongly recommended to ensure 100% accurate ordering.

Quantum Scalar i6000 Control Modules

Control Modules include activation of the indicated number of licensed slots, a 24-slot Import/Export (I/E) Station (do not count as licensed slots) and documentation CD. Requires appropriate backup software with library functionality, compatible tapes, and appropriate Fibre Channel and Ethernet library-to-host cables. Must order at least one tape drive. Does not include any barcode labels.

Quantum Scalar i6000 Tape Drive Modules

The first 12 tape drives must be placed in the Control Module. All additional tape drives must be installed in Drive Ready Expansion Modules (DREM). Each DREM can support up to 12 tape drives and each DREM must be filled with drives before they are placed in the next DREM.

Any Storage Expansion Module (SEM) can be converted to a DREM in order to support tape drives. In a library with the Dual Robot feature the Right Parking Module can be a DREM and so it can support up to 12 tape drives.

Installation and Configuration must be ordered for all tape drives with the installation quantity matching the number of tape drives ordered.

		LTO-8: Native Fibre Channel Tape Drive Modules										
	LSC6K-ATDJ-L8BD	**Quantum Scalar i6000 and AEL6000 IBM LTO-8 Tape Drive Module, Full Height, 8Gb Native Fibre Channel, Dual Port** *LTO-8 tape drive capable of reading and writing to LTO-8 and LTO-7 media; no LTO-6 media support. This tape drive is compatible with Scalar Key Manager and supported third-party library encryption key managers. Includes Ethernet Expansion Blade when required (every sixth tape drive added) and required Ethernet cables. Does not include path failover license, encryption key license or a 4Gb Fibre Channel I/O Blade. To upgrade this drive for path failover order LSC6K-ALAP-B05A or LSC6K-ALBP-A05A. To add an encryption key enabled license order LSC6K-AQK1-L4HA for Scalar Key Manager, LSC6K-AEK1-L4BA or LSC6K-AKM1-L4HA for supported third-party key managers. Tape drive installation and configuration (SSC6K-NTDX-000x) must be ordered.*	US	9x9x16 (22.9x22.9x40.6)	13 (5.9)	7-68268-80445-2	31010	24808	17056			30d RE
		LTO-7: Native Fibre Channel Tape Drive Modules										
	LSC6K-ATDJ-L7BD	**Quantum Scalar i6000 and AEL6000 IBM LTO-7 Tape Drive Module, Full Height, 8Gb Native Fibre Channel, Dual Port** *This tape drive is compatible with Scalar Key Manager and supported Third Party library encryption license keys, not supported with Q-EKM. Library must have Gen 2 robot and electronics in order to add LTO-7 drives. Includes Ethernet Expansion Blade when required (every sixth tape drive added) and required Ethernet cables. Does not include path failover, encryption key license or a 4Gb Fibre Channel I/O Blade. To upgrade this drive for path failover order LSC6K-ALAP-B05A or LSC6K-ALBP-A05A. To add an encryption key enabled license order LSC6K-AQK1-L4HA for Scalar Key Manager, LSC6K-AEK1-L4BA for Q-EKM and LSC6K-AKM1-L4HA for supported third-party key managers. Tape drive installation and configuration (SSC6K-NTDX-000x) must be ordered.*	US	9x9x16 (22.9x22.9x40.6)	13 (5.9)	7-68268-04198-1	26700	21360	14685			30d RE
		LTO-6: Native Fibre Channel Tape Drive Modules										
	LSC6K-ATDJ-L6BD	**Quantum Scalar i6000 and AEL6000 IBM LTO-6 Tape Drive Module, Full Height, 8Gb Native Fibre Channel, Dual Port** *This tape drive is compatible with Scalar Key Manager, Q-EKM and Third Party library encryption license keys. Includes Ethernet Expansion Blade when required (every sixth tape drive added) and required internal cables. Does not include path failover, encryption key license or a 4Gb Fibre Channel I/O Blade. To upgrade this drive for path failover order LSC6K-ALAP-B05A or LSC6K-ALBP-A05A. To add an encryption key enabled license order LSC6K-AQK1-L4HA for Scalar Key Manager, LSC6K-AEK1-L4BA for Q-EKM and LSC6K-AKM1-L4HA for supported third-party key managers. Quantum Scalar i6000 Upgrade Options

		Capacity										
	LSC2K-AIES-001A	**Quantum Scalar i6000 and AEL6000 24-Slot Import/Export (I/E) Station for Expansion Module** *One I/E Station can be added to each Expansion Module (Storage Expansion, Drive Ready Expansion or High-Density Expansion). Cannot be installed in a Left Parking Module. Includes 24 LTO import/export license keys. Reduces EM capacity by 60 LTO slots. The I/E Station is factory installed if ordered with an expansion module. If not ordered with an expansion module, requires Import/Export (I/E) Station Installation and Configuration (SSC6K-NIES-024x). Shipping weights and dimensions vary with configuration.*	US				4246	3397	2335			30d RE

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.

	LSC6K-AIES-072A	**Quantum Scalar i6000 and AEL6000 72-Slot LTO Import/Export (I/E) Station for Expansion Module** *One I/E Station can be added to each Expansion Module (Storage Expansion, Drive Ready Expansion or High-Density Expansion). Cannot be installed in a Control Module or Parking Module. Includes 72 LTO import/export slots. Reduces EM capacity by 168 LTO slots. The I/E Station is factory installed if ordered with an expansion module. If not ordered with an expansion module, requires Import/Export (I/E) Station Installation and Configuration (SSC6K-NIES-024x).*	US	30x29x82 (76.2x73.7x208.3)	275 (124.74)		8240	6592	4532			30d RE
	LSC6K-ALSL-100B	**Quantum Scalar i6000 100-slot License Key, no modules included** *Includes key to increment licensed cartridge slot capacity by 100 slots. Does not include any expansion modules. All expansion models (SEM, DREM and/or HDEM) needed to provide additional physical slot/drive capacity must be ordered separately. The license key does not require installation, but any associated expansion modules do require installation. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		10300	8240	5665			
	LSC6K-ALAV-000A	**Quantum Scalar i6000 and AEL6000 Active Vault License** *Enables Active Vault functionality in the system. Provides the ability to create Active Vault system-managed partitions. This feature can use unlicensed slots, but Expansion Modules must be ordered to provide the necessary physical slot capacity. Support will be provided by the existing system warranty/service contract. Active Vault does not require Partitioning and a Partitioning license is not included. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		10300	8240	5665			
	LSC2K-APAR-001A	**Quantum Scalar i6000 Partitioning Option License Key** *Enables partitioning functionality, up to 16 host-managed partitions. Required to share the library with multiple backup or archive applications. Also required if key encrypted drives and non-key encrypted drives will be mixed in the library. This license is not required for Extended Data Life Management (EDLM) or Active Vault. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		8240	6592	4532			
		Expansion Modules										
	LSC6K-AEMC-001A	**Quantum Scalar i6000 and AEL6000 Storage Expansion Module (SEM2), no tape drive support** *Adds 456 unlicensed cartridge slots to the system. Licenses to activate cartridge slots must be ordered separately. Does not support tape drives unless converted. Order a Drive Ready Expansion Module if tape drive support is needed. Configured with gen1 or gen2 robotic rails as needed. Adding an Import/Export Station reduces the available cartridge slots in the module: 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Power is not required. Requires installation (SSC6K-NEXM-000x) for each module.*	US	42.5x87x48 (108x221x121.9)	722 (327.49)		14935	11948	8214			
	LSC6K-AEMC-001C	**Quantum Scalar i6000 and AEL6000 Storage Expansion Module (SEM3), no tape drive support** *Adds 456 unlicensed cartridge slots to the system. Licenses to activate cartridge slots must be ordered separately. Does not support tape drives unless converted (LSC6K-UC2D-001C). Order a Drive Ready Expansion Module if tape drive support is needed. Configured with gen1 or gen2 robotic rails as needed. Adding an Import/Export Station reduces the available cartridge slots in the module: 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Power is not required. Requires installation (SSC6K-NEXM-000x) for each module.*	US	42.5x87x48 (108x221x121.9)	640 (290.3)	7-68268-04183-7	14935	11948	8214			30d RE
	LSC6K-AEMD-001A	**Quantum Scalar i6000 and AEL6000 Drive Ready Expansion Module (DREM2), no tape drives** *Expansion module configured to support tape drives. Also adds unlicensed slots to the system. The number of unlicensed slots varies depending on the number of drives added: 444 slots with one drive to 348 slots with 12 drives. Licenses to activate cartridge slots must be ordered separately. Configured with gen1 or gen2 robotic rails as needed. Adding an Import/Export Station reduces the available cartridge slots in the module: 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Power is included with this module, but redundant power must be ordered separately. Ships with one power cord, L6-30 for North American orders and IEC 60309 for international orders. Requires installation (SSC6K-NEXM-000x) for each module.*	US	42.5x87x48 (108x221x121.9)	722 (327.49)		17510	14008	9631			
	LSC6K-AEMD-001C	**Quantum Scalar i6000 and AEL6000 Drive Ready Expansion Module (DREM3), no tape drives** *Expansion module configured to support up to 24 tape drives with gen2 libraries (robot and electronics) or 12 tape drives for gen1 libraries. Also adds unlicensed slots to the system. The number of unlicensed slots varies depending on the number of drives added: 444 slots with one drive, 348 slots with 12 drives and. 264 slots with 24 drives. Licenses to activate cartridge slots must be ordered separately. Configured with gen1 or gen2 robotic rails as needed. Adding an Import/Export Station reduces the available cartridge slots in the module: 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Power is included with this module, but redundant power must be ordered separately. Ships with L6-20/C19 and IEC 309/C19 power cords. Requires installation (SSC6K-NEXM-000x) for each module.*	US	42.5x87x48 (108x221x121.9)	700 (317.51)	7-68268-04184-4	17510	14008	9631			30d RE
	LSC6K-AEMH-001A	**Quantum Scalar i6000 and AEL6000 High-Density Expansion Module (HDEM), no tape drive support** *Adds 780 physical slots to the system. Licenses to activate cartridge slots must be ordered separately. This module cannot support tape drives or be used as a parking module with Dual Robots. Adding an Import/Export Station reduces the available cartridge slots in the module: 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Includes power. Ships with L6-20/C19 and IEC 309/C19 power cords. Order redundant power (LSC6K-ARPH-001A) separately. The HDEM is a gen2 module requiring gen2 robots and gen2 electronics in the system. HDEM Scanner is sold separately (LSC6K-ACSH-001A). Requires Module Installation and Configuration (SSC6K-NEXM-000x). Service maintenance must match service level of the system.*	US	42.5x87x48 (108x221x121.9)	627 (284.4)		29870	23896	16429			30d RE
		Power, Blades and Magazines

These modules ship standard with the NEMA L6-20 power cord (250VAC, 20 Amp, twist lock) for North America and IEC60309 cord (230-250VAC, 16 Amp) for International orders. Order one cord for the base module power and an additional cord if redundant power is ordered.*	US	9.5x6.5x4.5 (24.1x16.5x11.4)	2.5 (1.13)		119	95	65			30d RE
	LSC6K-ACBP-H06A	**Quantum Scalar i6000 and AEL6000 Power Cord for Series 3 Modules (CM3 and DREM3) and High-Density Expansion Modules, International, CEE 7/7 European SHUKO, 230-250VAC, 30 Amp** *Optional power cord for Series 3 Modules (CM3 and DREM3) and High-Density Module. These modules ship standard with the NEMA L6-20 power cord (250VAC, 20 Amp, twist lock) for North America and IEC60309 cord (230-250VAC, 16 Amp) for International orders. Order one cord for the base module power and an additional cord if redundant power is ordered.*	US	9.5x6.5x4.5 (24.1x16.5x11.4)	1.5 (0.68)		119	95	65			30d RE
	LSC6K-AEEB-001A	**Quantum Scalar i6000 and AEL6000 Ethernet Expansion Blade (EEB)** *Order as a spare or replacement. Includes one EEB and internal cables needed for drive connectivity to the system. Blade used with HP or IBM LTO-5 or LTO-6 native Fibre Channel drives (nFC) and HP LTO-5 or LTO-6 Native Storage Networking drives (nSNW). Each blade supports up to six tape drives. Not compatible with drives using an I/O Blade, but the I/O Blade can be used for control path connectivity. Requires installation (SSC6K-NBLN-000x) if ordered as a field upgrade.*	US	4x4x16 (10.2x10.2x40.6)	6 (2.72)		1700	1360	935			30d RE
CP	LSC2K-AMAG-L06A	**Quantum Scalar i500/i6000 and AEL500/6000 Six-slot LTO Magazine** *Available for use with Scalar i500/i6000 and AEL500/6000. Includes dust cover.*	US	13x13x6 (33x33x15.2)	4 (1.81)		72	58	40			
		Advance Reporting and Path Failover										
	LSC2K-AADR-001A	**Quantum Scalar i6000 and AEL6000 Advanced Reporting Option License Key** *Provides access to additional reporting capabilities. Additional reports include Drive Resource Utilization, Media Integrity Analysis, Media Usage, and Media Removal Security. Also includes a scheduling utility that automates report creation and distribution. One license is needed per Scalar i6000. Only one license required per library; not transferrable to other libraries.*	US	0x0x0 (0x0x0)	0 (0)		3039	2431	1671			
	LSC6K-ALBP-A05A	**Quantum Scalar i6000 and AEL6000 Basic Path Failover license, for use with HP or IBM LTO-5 and later, Enables One-Drive** *The Software Compatibility Guide on www.quantum.com must be consulted to ensure the customer application and OS are supported. Library license key that enables use of Basic (single-fabric) Path Failover for both control and data paths on one HP or IBM LTO-5 or later drives. Path failover with HP LTO-5 and LTO-6 drives can be configured using NPIV or Application Managed path failover. IBM LTO-5 and higher drives can be configured using Application Managed path failover (NPIV not supported). No host drivers are provided or required. While enabled per drive, this license is library-based and cannot be transferred to other libraries. Order a minimum quantity of two licenses per library partition for control path failover and one license for every drive using data path failover. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		2500	2000	1375			
	LSC6K-ALAP-B05A	**Quantum Scalar i6000 and AEL6000 Advanced Path Failover license, for use with IBM LTO-5 and later, Enables One-Drive** *The Software Compatibility Guide on www.quantum.com must be consulted prior to quoting this feature. Library license key that enables use of Advanced (multi-fabric) Path Failover for both control and data paths on one IBM LTO-5 and later drive. A driver is required to be loaded on each host that communicates with the library or drives. While enabled per drive, this license is library-based and cannot be transferred to other libraries. Order a minimum quantity of two licenses per library partition for control path failover and one license for every drive using data path failover. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		3500	2800	1925			
	LSC6K-ALAP-H05A	**Quantum Scalar i6000 and AEL6000 Advanced Path Failover license, for use with HP LTO-6, Enables One-Drive** *The Compatibility Guide must be consulted prior to quoting this feature. Library license key that enables use of Advanced (multi-fabric) Path Failover for both control and data paths on one HP LTO-6 drive. A driver is required to be loaded on each host that communicates with the library or drives. While enabled per drive, this license is library-based and cannot be transferred to other libraries. Order a minimum quantity of two licenses per library partition for control path failover and one license for every drive using data path failover. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		3500	2800	1925			
		Encryption Licence Keys										
	LSC6K-AKM1-L4HA	**Quantum Scalar i6000 and AEL6000, Library Managed Encryption License Key for Third-Party Key Managers, One-Drive** *Includes license key to enable library managed encryption for one (1) drive for use with third-party key management products. The Compatibility Guide on Quantum.com should be checked for specific drive manufacturer, LTO generation, and encryption key manager support. At the time of this publication SafeNet (KMIP) and Thales (KMIP) are supported with HP LTO-4 or later drives and IBM LTO-5 or later drives. TKLM (non-KMIP) is supported with IBM LTO-4 or later drives. Not for use with Scalar Key Manager or Q-EKM. This license is not needed if the backup application manages the encryption keys. Warranty/service level of key-enabled drives must match the service level and level of the library. Third-party key-enabled drives must be in a separate partition from other key-enabled or non key-enabled drives. Only one encryption key manager can be used in a library. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		2060	1648	1133			
	LSC6K-AQK1-L4HA	**Quantum Scalar i6000 and AEL6000, Library Managed Encryption License Key for Scalar Key Manager (SKM), One-Drive** *Enables system encryption key communication with one tape drive. For use only with Scalar Key Manager. Supported tape drives include HP LTO-4 or later or IBM LTO-5 or later. Not for use with libraries using Q-EKM or Third-Party license keys. Not needed if the backup application manages encryption keys. Warranty/service level of key-enabled drives must match the service length and level of the system. System managed encryption is enabled by partition but a Partition license is not required. Include enough licenses to enable the system to communicate with all drives in encryption partitions. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		2060	1648	1133			
	LSC6K-UQ2S-001A	**Quantum Scalar i6000 and AEL6000, Library Managed Encryption License Key for migration from Quantum Encryption Key Manager (Q-EKM) to Scalar Key Manager (SKM), One Drive, field upgrade** *Field upgrade only; not for use with new system purchases. Requires a Gen2 library (robot and electronics). Use only for replacing Q-EKM library licensing with Scalar Key Manager licensing for one HP LTO-4 or later drive or one IBM LTO-5 or later drive. Scalar Key Manager must be ordered separately. Not for use with IBM LTO-4. Warranty/service level of key-enabled drives must match the service length and level of the library. Q-EKM Encryption Key Migration service is mandatory. Library managed encryption is enabled by partition but a Partition license is not required. Include enough licenses to enable the system to communicate with all drives in encryption partitions. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		2060	1648	1133			
		Encryption Key Managers										
CN	LSCBB-AKMA-001B	**Quantum Scalar Key Manager Appliance, mandatory quantity two** *For use with HP LTO-4, IBM LTO-5 and later drives in Scalar i3/i6/i40/i80/i500/i2000/i6000 and StorNext AEL6/500/6000. Includes one Scalar Key Manager Appliance. Mandatory quantity of two (one primary, one secondary) to create a high availability appliance pair. One appliance pair is required per customer environment. Scalar Key Manager drive licenses must be ordered separately. Key-enabled drives must be in a separate partition from non-key-enabled drives. Scalar i2000/i6000 require Partitioning Option (LSC2K-APAR-001A). Not for use with Q-EKM license keys. Encryption Key Management Solution Installation and Configuration services are optional.*	US	30.13x23x6.5 (76.5x58.4x16.5)	60 (27.22)		7500	6000	4125			3yr RE
CN	LSCBB-AKMV-001B	**Quantum Scalar Key Manager Virtual Machine for VMware, mandatory quantity two** *For use with HP LTO-4, IBM LTO-5 and later drives in Scalar i3/i6/i40/i80/i500/i2000/i6000 and StorNext AEL6/500/6000. Includes one Scalar Key Manager Virtual Machine (VM) for use with VMware. Mandatory quantity of two (one primary, one secondary) to create a high availability VM pair. One VM pair is required per customer environment. Scalar Key Manager drive licenses must be ordered separately. Key-enabled drives must be in a separate partition from non-key-enabled drives. Scalar i2000/i6000 require Partitioning Option (LSC2K-APAR-001A). Not for use with Q-EKM license keys. Encryption Key Management Solution Installation and Configuration services are optional.*	US	10x10x4 (25.4x25.4x10.2)	1 (0.45)		2000	1600	1100			3yr TS
CN	LSCBB-AKMK-001B	**Quantum Scalar Key Manager Virtual Machine for KVM, mandatory quantity two** *For use with KVM and HP LTO-4, IBM LTO-5 and later drives in Scalar i3/i6/i40/i80/i500/i2000/i6000 and StorNext AEL6/500/6000. Includes one Scalar Key Manager Virtual Machine (KVM only). Mandatory quantity of two (one primary, one secondary) to create a high availability VM pair. One VM pair is required per customer environment. Scalar Key Manager drive licenses must be ordered separately. Key-enabled drives must be in a separate partition from non-key-enabled drives. Scalar i2000/i6000 require Partitioning Option (LSC2K-APAR-001A). Not for use with Q-EKM license keys. Encryption Key Management Solution Installation and Configuration services are optional.*	US	10x10x4 (25.4x25.4x10.2)	1 (0.45)		2000	1600	1100			3yr TS
		EDLM Scanning Tape Drives and EDLM Licenses										

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.
Contact your Quantum sales support representative for details.

	LSC6K-AEDL-000A	**Quantum Scalar i6000 iLayer EDLM License, Scanning Drives Not Included** *License key to enable EDLM functionality within the Scalar i6000 iLayer software, version i8.2.1 and later. Provides the ability to create and configure an EDLM library-managed partition. Maximum one EDLM license per system. EDLM scanning drives are sold separately, a minimum of one EDLM scanning tape drive is required to use this feature. A mix of EDLM LTO-4, LTO-5, LTO-6 and LTO-7 scanning drives can be used with this feature. If at least one non-EDLM drive is enabled for encryption, the EDLM drives do not need encryption license keys. Installation and Service is not required for the EDLM license. EDLM does not require Partitioning and a Partitioning license is not included.*	US	0x0x0 (0x0x0)	0 (0)		10300	8240	5665			
	LSC6K-AEDL-B8AA	**Quantum Scalar i6000 and AEL6000 IBM LTO-8 EDLM Scanning Tape Drive** *Includes one IBM LTO-8 EDLM scanning tape drive for use with the Scalar i6000 and AEL6000 EDLM iLayer feature. Required EDLM license sold separately for Scalar i6000, but is included with AEL6000. This drive supports EDLM scanning of LTO-8 and LTO-7 media. Required EEB blades and Ethernet cables automatically ship with this drive as needed. The EDLM license is sold separately and is required (one license per library) to use this drive. This drive can be mixed with other EDLM scanning tape drives. Tape drive installation and configuration (SSC6K-NTDX-000x) must be ordered for each drive. A Bronze, NBD Gold or Gold Support Plan (SLBBN-xTDX-xx1x) must also be added at the same service level as the system for each EDLM drive.*	US	9x9x16 (22.9x22.9x40.6)	13 (5.9)	7-68268-80445-9	9990	7992	5495			30d RE

	LSC6K-AALK-0001	**Quantum Scalar i6000 and AEL6000 Aisle Light Kit, Per Module** *Supported in systems with a Control Module Serial number starting with 263 or be at least 203102253. Includes all necessary hardware to install an internal blue aisle light at the top of any Scalar i6000 or AEL6000 control or expansion module. Order quantity one per module. Cannot be installed in a Left Parking Module or in the same module as a web camera. Aisle lights will be installed in the module(s) at no charge for new system orders. Requires installation (SSC6K-NALK-000x) for each aisle light ordered for upgrade orders.*	US	7x5x1.5 (17.8x12.7x3.8)	3 (1.36)		773	618	425			30d RE
	LSC6K-ACAM-001A	**Quantum Scalar i6000 and AEL6000 Web Camera** *Requires a gen2 robot. Includes all necessary hardware to install an internal web camera at the top of a module. Web camera can pan and zoom so a web camera is not needed in every module. Maximum quantity equals number of Expansion Modules (Storage Expansion, Drive Ready Expansion or High-Density Expansion) in system. Can only be installed in the Control Module if Dual Robots are installed. Cannot be installed in a Parking Module. Requires one or more Expansion Modules and Aisle Lights (LSC6K-AALK-0001) in all modules. If system is currently Gen1, order the Gen1 to Gen2 Robot Hardware Upgrade (LSC6K-URHU-012A). Requires installation (SSC6K-NALK-000) for each web camera ordered for both new system and upgrade orders.*	US	9.25x8.5x6.5 (23.5x21.6x16.5)			3090	2472	1700			30d RE
	LSC6K-ADRU-000A	**Quantum Scalar i6000 and AEL6000 Dual Robot and Left Parking Module Upgrade** *Includes a secondary, redundant gen2 robot within a Parking Module that is installed to the left of the Control Module. Requires a Control Module and at least one Storage Expansion Module or Drive Ready Expansion Module in the configuration. Upgrades of existing Scalar i6000 libraries with a gen1 robot also require the Gen 1 to Gen 2 Robot Hardware upgrade (LSC6K-URHU-012A). Active/active capability requires gen2 electronics (order LSC6K-UELU-002A if needed). Installation and configuration service (SSC6K-NDRU-000x) is required. Service level of the Dual Robot must match the service length and level of the system.*	US	85x85x81 (215.9x215.9x205.7)	722 (327.495)		51500	41200	28325			30d RE
	LSC6K-URHU-012A	**Quantum Scalar i6000 Gen1 to Gen2 Robot Hardware Upgrade and Scalar i2000 to Scalar i6000 Upgrade, field upgrade** *Upgrades the library from first generation robot hardware to second generation robot hardware (gen1 to gen2). Includes a gen2 robot assembly and new robot rails. Existing systems with gen1 robots require this upgrade to support the Dual Robot feature (LSC6K-ADRU-000A). The generation of the existing robot is listed on the main screen of the library GUI. The robot generation is displayed on the main page of the library management interface under the Configuration information. If "Robot 2" is listed this upgrade is not needed, otherwise it is required. Installation and configuration service (SSC6K-NRHU-012x) is required. Includes the i2000 to i6000 upgrade if needed, but gen2 electronics is also required. The gen1 to gen2 electronics upgrade (LSC6K-UELU-002A) is required for all upgrades. Service will be covered by the existing library warranty/service contract.*	US	79x18.5x13.75 (200.7x47x34.9)	40.8 (18.51)		30900	24720	16995			30d RE
	LSC2K-USNC-001A	**Quantum Scalar i6000 and AEL6000 Control Module and Drive Ready Expansion Module Upgrade, Native Fibre Channel to Storage Networking Conversion Kit, field upgrade** *Used with modules that only have native Fibre Channel drives installed where those drives will be upgraded to Storage Networking using I/O Blades. Includes network chassis fan and Control Management Blade (CMB). Maximum one kit per CM or DREM being converted to Storage Networking for the first time. Requires Native Fibre Channel to Storage Networking Conversion Kit Installation and Configuration (SSC6K-NNTS-000x). At least one I/O blade must be present in the library to support this upgrade.*	US	16.5x13x9 (41.9x33x22.9)	8 (3.63)		9962	7970	5479			30d RE
	LSC6K-UC2D-001A	**Quantum Scalar i6000 Storage Expansion Module (SEM2) to Drive Ready Expansion Module (DREM2) Conversion, field upgrade** *Converts a Storage Expansion Module (no drive support) to a Drive Ready Expansion Module. Adding drives reduces the slot capacity of the module, 444 slots with one drive to 348 slots with 12 drives. Does not convert the module from gen1 to gen2. Adding an Import/Export Station reduces the available cartridge slots in the module, the 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Power is included; tape drives and redundant power are not included. Ships with one power cord, L6-30 for North American orders and IEC 60309 for international orders. Requires installation (SSC6K-NSDN-000x) for each module converted.*	US	38x26x25 (96.5x66x63.5)	95 (43.09)		3090	2472	1700			30d RE
	LSC6K-UC2D-001C	**Quantum Scalar i6000 and AEL6000 Storage Expansion Module (SEM3) to Drive Ready Expansion Module (DREM3) Conversion, field upgrade** *Converts a Storage Expansion Module (SEM3 with no drive support) to a Drive Ready Expansion Module (DREM3). Adding drives reduces the slot capacity of the module, 444 slots with one drive to 348 slots with 12 drives. Adding an Import/Export Station reduces the available cartridge slots in the module, the 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Power is included; tape drives and redundant power are not included. Ships with L6-20/C19 and IEC 309/C19 power cords. Requires installation (SSC6K-NSDN-000x) for each module converted.*	US	36x21x14 (91.4x53.3x35.6)	73 (33.11)	7-68268-04190-5	3090	2472	1700			30d RE
	LSC6K-UELU-002A	**Quantum Scalar i6000 and AEL6000 Electronics Upgrade, Gen2, field upgrade** *Upgrades all the electronics cards in a Scalar i6000 library to gen2, including the MCB2. Order one upgrade for each library being upgraded. Requires gen2 robotics. The upgrade is required for use of HDEMs, Active-Active robotics, and Advanced Path Failover features. New libraries ship with gen2 electronics. Also used to upgrade an i2000 to an i6000, but still requires gen2 robotics. If the library will only have LTO-4 or lower tape drives installed, please refer to Marketing Announcement MA02175A for upgrade details. Requires installation (SSC6K-NELN-000x). Shipping dimensions and weight depend on what is currently installed. For Control Module: 16x11.25x9 in (40.6x28.6x22.9 cm) and 0.02 lbs (0.1 kg). For each of the 1st-7th SEM/DREM: 4.25x6.3x4.5 in (10.8x16x11.4 cm) and 0.2 lbs (0.1 kg). For each of the 8th-16th SEM/DREM: 4.25x6.3x4.5 in (10.8x16x11.4 cm) plus 4x6.5x30 in (10.2x16.5x76.2 cm) and 0.2 lbs (0.1 kg) plus 2.3 lbs (1.0 kg).*	US				8230	6584	4527			30d RE

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.

	LSC6K-ACVN-HPEE	**Quantum Library Conversion from HPE ESLG3 to Scalar i6000, field upgrade** *Sales must get approval from the Win Room and Product Management prior to quoting this part. This part is used to convert an HPE ESL G3 library to a Quantum Scalar i6000 library. This item field converts the physical library components and library code, including the library serial number, agency labels, module labels and badging. Also includes the conversion of the MCB to a Quantum version of the MCB. Tape drives cannot be converted to Quantum tape drives so the customer must purchase all new tape drives (LTO-5 and higher, no LTO-4 or lower). Only Gen2 libraries can be converted, so existing Gen1 libraries must order Gen2 upgrades. The Gen2 robot upgrade (LSC6K-URHU-012A) may not be required if the library already has a Gen2 robot, but the Gen2 electronics upgrade (LSC6K-UELU-002A) will always be required if the ESL G3 is a Gen1 library. Any slot, module, license or other upgrade must be ordered in addition to this conversion. Installation (SSC6K-NCNV-HPEx) for this conversion is required. Installation is also required for all other upgrade items on the quote per the normal i6000 upgrade installation rules, including tape drives (SSC6K-NTDX-000x). First shipment 01JUN17.*	US	10x6x12 (25.4x15.2x30.5)	3 (1.36)		10000	8000	5500			
		Spare Parts										
	LSC6K-ACSP-HMBA	**Quantum Scalar i6000 High-Density Expansion Module, Motor and Belt Cold Spare** *Optional motor and belt cold spare for the HDEM. Includes all parts and installation instructions needed to swap the motor and belt for one HDEM. The cold spare can be used as an onsite spare that gives customers the option to immediately replace the motor and belt themselves, but customer replacement is not required. Cold spares are covered under the library warranty and are replaced as they are used. Customer is required to open a service request before replacement and to send the replaced parts to Quantum. Lost cold spares are not replaced by Quantum.*	US	16x10x6 (40.6x25.4x15.2)	13 (5.9)		5150	4120	2833			30d RE
	LSC6K-ACSP-EMPA	**Quantum Scalar i6000 Series 2 Control Module and Drive Ready Expansion Module, Power Supply Cold Spare** *Optional power supply cold spare for the CM2 and DREM2. Includes all parts and installation instructions needed to swap one power supply. The cold spare can be used as an onsite spare that gives customers the option to immediately replace the power supply themselves, but customer replacement is not required. Cold spares are covered under the library warranty and are replaced as they are used. Customer is required to open a service request before replacement and to send the replaced parts to Quantum. Lost cold spares are not replaced by Quantum.*	SYS	20x10x8 (50.8x25.4x20.3)	12 (5.44)		3090	2472	1700			30d RE
		Quantum Scalar i6000 Software Options: Vision										
CI	WSVLA-FQDA-040D	**Quantum Vision 4.x Software for Download Fulfillment with One Device License - New Install Only** *Includes online fulfillment of Vision software for either physical servers or virtual appliance installations. Vision serial number and license certificate for one supported Quantum disk or tape system will be emailed to customer to obtain software download and license. Order this part for new Vision server installations only. Do not use this model number to purchase additional licenses for a supported Quantum disk or tape system. Compatible with DXi2500-D/3500/4500/4600/4700/4800/5500/6500/6700/6900/6900-S/7500/8500/9000/V1000/V2000/V4000, Scalar i3/i6/i40/i80/i500/i2000/i6000, StorNext AEL6/500/6000, and vmPRO. Requires Server or Virtual Machine with Windows or RHEL, 4GB memory and 200GB free disk space OR VMware hypervisor for OVA install. Includes 5x9 software telephone technical support for connected Quantum devices covered under a current Quantum support plan.*	US	5x6x1 (12.7x15.2x2.5)	1 (0.45)		5500	3850	3025			3yr TS
CI	WSVLA-UQDA-040W	**Quantum Vision 4.x one Device Add-On License** *Valid only after the initial purchase and installation of Quantum Vision 4.0 or 4.0.x software. Includes license for one supported Quantum disk or tape system. Compatible with DXi2500-D/3500/4500/4600/4700/4800/5500/6500/6700/6900/6900-S/7500/8500/9000/V1000/V2000/V4000, Scalar i3/i6/i40/i80/i500/i2000/i6000, StorNext AEL6/500/6000, and vmPRO.*	US				2750	2200	1513			
CI	WSVLA-UQDE-040W	**Quantum Vision 4.x five Device Add-On License** *Valid only after the initial purchase and installation of Quantum Vision 4.0 or 4.0.x software. Includes licenses for five supported Quantum disk or tape system. Compatible with DXi2500-D/3500/4500/4600/4700/4800/5500/6500/6700/6900/6900-S/7500/8500/9000/V1000/V2000/V4000, Scalar i3/i6/i40/i80/i500/i2000/i6000, and vmPRO.*	US				13750	9625	7563			
CI	WSVLA-UQDJ-040W	**Quantum Vision 4.x 10 Device Add-On License** *Valid only after the initial purchase and installation of Quantum Vision 4.0 or 4.0.x software. Includes licenses for 10 supported Quantum disk or tape system. Compatible with DXi2500-D/3500/4500/4600/4700/4800/5500/6500/6700/6900/6900-S/7500/8500/9000/V1000/V2000/V4000, Scalar i3/i6/i40/i80/i500/i2000/i6000, and vmPRO.*	US				27500	19250	15125

Quantum Scalar i6000 Installation and Additional Services

General guidelines for installation services:

--- New Libraries ---
1. Control Module: Control Module Installation and Configuration (SSC6K-NCMN-000x) is required for each module.
2. Tape Drives (including EDLM): Tape Drive Module Installation and Configuration (SSC6K-NTDX-000x) is required for each drive.
3. Expansion Modules (DREM, SEM and HDEM): Expansion Module Installation and Configuration (SSC6K-NEXM-000x) is required for each module.
4. Encryption Key Managers: Encryption Key Management Solution Installation and Configuration (SLBBB-NEKx-000x as appropriate) is required.
5. Webcams: Web Camera Installation (SSC6K-NALK-000x) is required for each camera.
6. Dual Robot: Dual Robot installation (SSC6K-NDRU-000x) is required for each new system.
7. All other components are factory installed: Installation services do not need to be ordered.

--- Upgrades ---
1. All Upgrades: All upgrade orders must include one Base Upgrade Installation and Configuration per location (site) being upgraded.
2. All other components: Require the appropriate installation services shown below, where the installation quantity matches the product quantity being installed.

Change	Model Number	Description	COO	Package Dimensions	Package Weight	UPC	MSRP/List Price	Sug Gold/Silver VAR Price	Sug Gold/Silver VAR QDR Price	Gold/Silver VAR Price	Gold/Silver VAR QDR Price	Warranty*
		Base Upgrade Charge Per Upgrade Visit - Upgrades										
	SSC6K-NUBN-0001	**Quantum Scalar i2000/i6000 and AEL6000 Upgrades, Base, Onsite Installation and Configuration, zone 1** *Required for all upgrade orders with installation. Quantity must equal the number of locations where upgrades are needed, not the number of libraries. Installation for all hardware components must be added to the order in addition to this Base Installation. Do not use with Control Module Installation and Configuration (SSC6K-NCMN-000x). An out of area travel charge may apply.*					1563	1250	1250			
		Control Modules - New Installations										
	SSC6K-NCMN-0001	**Quantum Scalar i6000 Control Module, Onsite Installation and Configuration, zone 1** *Required for all new library installations or when an existing Control Module is being installed at a new location. Quantity must match the number of libraries being installed. Includes only the installation of the Control Module. Installation for all other library components must be ordered separately as needed. An out of area travel charge may apply.*					2813	2250	2250			
		Tape Drive Modules - New Installations and Upgrades										
	SSC6K-NTDX-0001	**Quantum Scalar i2000/i6000 and AEL6000 Tape Drive Module, Onsite Installation and Configuration, zone 1** *Required when adding any tape drive to a Scalar i2000/i6000 or StorNext AEL6000, for new libraries and upgrades. Quantity should match the total number of all tape drives ordered. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					208	166	166			
		Expansion Modules - New Installations and Upgrades										
	SSC6K-NEXM-0001	**Quantum Scalar i6000 and AEL6000 Expansion Module, Onsite Installation and Configuration, zone 1** *Required for all expansion modules, including Storage Expansion Modules, Drive Ready Expansion Modules, and High-Density Expansion Modules. Additional installation charges may apply for options within an expansion module such as redundant power. Quantity must match the quantity of all expansion modules. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					1406	1125	1125			
		Expansion Module Conversions - Upgrades										
	SSC6K-NSDN-0001	**Quantum Scalar i6000 and AEL6000 Storage Module to Drive Ready Expansion Module Conversion, Onsite Installation and Configuration, zone 1** *Installation of hardware conversion kit. Quantity must equal the number of modules being converted. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					1406	1125	1125			

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.

	SSC6K-NNTS-0001	**Quantum Scalar i2000/i6000 and AEL6000 Control Module and Drive Ready Expansion Module Upgrade, Native Fibre Channel to Storage Networking Conversion Kit, Installation and Configuration, zone 1** *Required for each Native Fibre Channel to Storage Networking Conversion Kit ordered. Quantity must match the quantity of conversion kits ordered. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					1563	1250	1250			
		HDEM Scanner - Upgrades										
	SSC6K-NCSH-0001	**Quantum Scalar i6000 and AEL6000 High-Density Expansion Module Cartridge Scanner, Installation, zone 1** *Quantity must equal the number of HDEM scanners being ordered.*					625	500	500			
		Import/Export Stations - Upgrades										
	SSC6K-NIES-0241	**Quantum Scalar i6000 and AEL6000 Import/Export (I/E) Station, Onsite Installation and Configuration, zone 1** *Installation service must be added for each I/E station IN EXCESS of the number of Expansion Module (Storage Expansion, Drive Ready Expansion or High-Density Expansion) on the order. For example, if order includes three I/E stations and one Expansion Module, two installation services must be ordered; if order includes three I/E stations and no Expansion Modules, three installation services must be ordered; if order includes two I/E stations and four Expansion Modules, installation service is not required. If I/E station installation is ordered, the order must also include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					781	625	625			
		Power - Upgrades										
	SSC6K-NRPC-0001	**Quantum Scalar i2000/i6000 and AEL6000 Control Module and Drive Ready Expansion Module Redundant (2N) Power Supply, Onsite Installation, zone 1** *Required on all orders with Redundant Power for the Control Module and/or Drive Ready Expansion Module. Quantity should equal the number of Redundant Power options ordered. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					313	250	250			
	SSC6K-NRPH-0001	**Quantum Scalar i6000 and AEL6000 High-Density Expansion Module Redundant (2N) Power Supply, Onsite Installation, zone 1** *Required for all orders with redundant power. Quantity should equal the number of High-Density Expansion Modules being upgraded. Upgrade orders must also include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					234	187	187			
		Encryption - New Installations and Upgrades										
	SLBBB-NEK1-PB00	**Quantum Scalar Key Management Solution (SKM only), Phone-Based Installation and Configuration, Single Server, Software and SKM Hardware, all zones** *Quantum Scalar Key Management Solutions are customer installable. Order this item for professional phone-based installation and configuration assistance. Order one per server. Includes software and, if SKM server, hardware installation.*					1000	800	800			
	SLBBB-NEK1-0001	**Quantum Scalar Key Manager (SKM), Single Server/Site System Installation and Configuration, zone 1** *Includes installation and configuration of SKM on a single server at a single site. If this item is ordered, the installation and configuration of the secondary server is also required and must be ordered separately. This service is optional for the SKM Appliance. Also includes library configuration steps necessary to connect to the primary SKM. If the key management installation and configuration service is related to a new system installation, system installation service must also be ordered. For configurations outside this scope, refer to the Customized System Integration Service.*					2500	2000	2000			
	SLBBB-NEK2-0001	**Quantum Scalar Key Manager (SKM), Additional Server/Same Site/Same Trip System Installation and Configuration, zone 1** *Includes installation and configuration of SKM on an additional server at the same site during the same trip. This service is optional for the SKM Appliance. Also includes library configuration steps necessary to connect to SKM or Q-EKM. Must purchase Key Management Single Server/Site Integration Service (SLBBB-NEK1-000x) as a prerequisite.*					1500	1200	1200			
	SLBBB-NEK3-0001	**Quantum Scalar Key Manager (SKM), Additional Server/Different Site System Installation and Configuration, zone 1** *Includes installation and configuration of SKM on an additional server at a different site. This service is optional for the SKM Appliance. Also includes library configuration steps necessary to connect to SKM or Q-EKM. Must purchase Key Management Single Server/Site Integration Service (SLBBB-NEK1-000x) as a prerequisite.*					2500	2000	2000			
	SSCBB-NQ2S-PB00	**Quantum Q-EKM to Scalar Key Migration Service, WebEx Installation and Configuration, all zones** *Requires a Gen2 library (robot and electronics). Includes remote, WebEx key migration service, moving encryption keys from one instance of Q-EKM to one instance of SKM. Installation of SKM, SKM library license keys and SKM installation sold separately.*					1000	800	800			
	SSCBB-NQ2S-0001	**Quantum Q-EKM to Scalar Key Migration Service, Onsite Installation and Configuration, zone 1** *Requires a Gen2 library (robot and electronics). Includes onsite key migration service, moving encryption keys from one instance of Q-EKM to one instance of SKM. Installation of SKM, SKM library license keys and SKM installation sold separately.*					2500	2000	2000			
		I/O Blades - Upgrades										
	SSC6K-NBLN-0001	**Quantum Scalar i6000 and AEL6000 Blade, Onsite Installation and Configuration, zone 1** *Required for installation of I/O Blades on all orders, Ethernet Expansion Blades (EEBs) and Management Control Blades (MCB2) in existing libraries. The installation of the MCB2 Blade will convert a Scalar i2000 to a Scalar i6000 Library. Quantity must match the number of blades ordered. Upgrade orders must also include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					938	750	750			
		Gen1 to Gen2 Conversions - Upgrades										
	SSC6K-NRHU-0141	**Quantum Scalar i6000 Module Conversion, Gen1 to Gen2 Robot Hardware, Onsite Installation and Configuration, zone 1** *Required for the Gen1 to Gen2 robot hardware conversion. Quantity must match the number of modules currently installed in the library. An out-of-area travel charge may apply. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					1250	1000	1000			
	SSC6K-NELN-0001	**Quantum Scalar i6000 Gen1 to Gen2 Electronics Upgrade, Onsite Installation and Configuration, zone 1** *Required for installation of gen2 upgrade. Quantity must match the number of libraries being upgraded. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					625	500	500			
		Dual Robot - Upgrades										
	SSC6K-NDRU-0001	**Quantum Scalar i6000 and AEL6000 Dual Robot Upgrade, Onsite Installation and Configuration, zone 1** *Required on all orders with the Dual Robot upgrade. Includes installation and configuration of the Left Parking Module with a 2nd generation robot. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					2500	2000	2000			
		Aisle Lights and Web Cameras - New Installations and Upgrades										
	SSC6K-NALK-0001	**Quantum Scalar i6000 and AEL6000 Web Camera or Field Upgrade Aisle Light, Onsite Installation, zone 1** *This installation service is required for each web camera ordered for new system and/or upgrade orders, and also required for each aisle light added for upgrade orders (aisle lights will be installed in the module(s) at no charge for new system orders). All upgrades of existing systems must also include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					156	125	125			
		HPE ESL to Scalar i6000 Conversion										
	SSC6K-NCNV-HPE1	**Quantum Scalar i6000, Conversion/Certification of HPE ESL G3 Library, Onsite Installation and Configuration, zone 1** *Required to order the field conversion and certification of an HPE ESL G3 library to make it a Quantum Scalar i6000 configured library. The service will include rebadging, the conversion to Quantum firmware and certification of the library for Quantum standard support. Also includes required removal of existing tape drives (do not have to be returned to Quantum). New tape drives must be ordered along with installation services (SSC6K-NTDX-000x) for the new drives. An out-of-area travel charge may apply. The base upgrade service (SSC6K-NUBN-000x) is not required in the order for this conversion.*					2300	1840	1840			
		Other Services										
N	SSC6K-NLHC-SL1A	**Quantum Enterprise Library Health Check, Silver (monthly remote log reviews), for Scalar i2000, Scalar i6000 or StorNext AEL 6000, annual subscription** *Monthly remote proactive detailed log review analysis. This includes detailed log review, media review, library components, configuration settings, firmware levels, and system usage. Detailed report provided to the customer upon completion.*					4600	4140	4140			
N	SSC6K-NLHC-GL1A	**Quantum Enterprise Library Health Check, Gold (two onsite per year with monthly remote log reviews), for Scalar i2000, Scalar i6000 or StorNext AEL 6000, annual subscription** *Full onsite physical health check of library with full log analysis twice a year. This also includes monthly remote detailed log review analysis. Includes media review, library components, robotics, drives, configuration settings, firmware levels and system usage. Detailed report provided to the customer upon completion.*					8500	7650	7650			

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.

	GQ456-AMNH-001C	**Quantum QXS-456M RAID with 4TB HDDs, 224TB raw capacity, non-SED** *May be sold for installation worldwide. QXS-456 RAID array including disks, StorNext Storage Manager licensing, SFPs, and cables. Includes 56 4TB 7.2K RPM NL-SAS disks, StorNext Storage Manager capacity license of 186TB, StorNext Storage Disk License, eight 16Gb Fibre Channel SFPs, two 25ft (7.6m) Ethernet cables with RJ45 connectors, eight 19.2ft (6m) optical Fibre Channel cables with LC connectors, and two 6ft (1.8m) IEC320 C19-to-C20 power cables. Includes Q-Tools. Requires two 200-240VAC power outlets. Requires 4U rack space. This system requires rack mounting for proper operation with 3.5in (80mm) of depth between front rack mount and door. Customer must provide compatible rack equipment. Can be expanded by up to three expansions and no more than 224 total drives with QXS-456M Expansions. Customer installable but optional remote phone-based installation (SQXXX-NREM-0000) or onsite installation (SQXXX-NSYS-000x) are also available.*	US	23.63x14x39 (60x35.6x99.1)	127.7 (57.92)		**96060**	76848	52833			1yr BL
	GQ456-AMNK-001C	**Quantum QXS-456M RAID with 6TB HDDs, 336TB raw capacity, non-SED** *May be sold for installation worldwide. QXS-456 RAID array including disks, StorNext Storage Manager licensing, SFPs, and cables. Includes 56 6TB 7.2K RPM NL-SAS disks, StorNext Storage Manager capacity license of 279TB, StorNext Storage Disk License, eight 16Gb Fibre Channel SFPs, two 25ft (7.6m) Ethernet cables with RJ45 connectors, eight 19.2ft (6m) optical Fibre Channel cables with LC connectors, and two 6ft (1.8m) IEC320 C19-to-C20 power cables. Quantum Artico Intelligent NAS Storage Appliances

Quantum Artico Intelligent Storage Appliance Base Systems

Single Node Systems

	BARAA-B1C4-001A	**Quantum Artico Base System, 48TB raw (12x4TB), SED, single node** *May not be sold for installation in Russia, China, Belarus or Kazakhstan. Includes one archive controller node and one QXS-312RC iSCSI storage array for archive data and metadata. Each archive controller node includes four onboard 1GbE ports for service, management, and metadata networks. For iSCSI array connectivity, requires one of the following: Quantum Artico NIC Kit for single node configurations, 10GbE, Dual-Port, Low-Profile, Optical (BARAA-AK1N-210P), or Quantum Artico NIC Kit for single node configurations, 10GbE, Dual-Port, Low-Profile, Twinax (BARAA-AK1N-210T). Each node includes 64GB RAM, redundant power and cooling, rack mount rails and hardware. Includes the following factory-installed licensing: StorNext High Availability License Option (for dual node systems), one embedded SAN client for each Xcellis Workflow Director node, a Distributed Data Mover (for dual node systems), 80 slots of LTO capacity licensing for Quantum tape libraries, 250PB of capacity licensing for Lattus object storage, and a Quantum NAS license. The QXS-312RC storage array includes 12 SED 4TB HDDs for archive data and metadata storage. QXS-312RC is a fully redundant, dual-controller, high-performance disk array. Includes six 25ft (7.6m) Ethernet cables with RJ45 connectors used as follows: four for each archive controller node and one for each QXS-312RC controller. Includes the following cables and SFPs for the disk array: four 10Gb Ethernet optical SFP+ modules and four 19.7ft (6m) LC-to-LC optical fiber cables. 3U of rack space: 1U for the archive controller node and 2U for the QXS-312RC storage array. May be customer installed via StorNext Connect, professionally installed via Artico Onsite Installation and Configuration (SARAA-N1SY-000x or SARAA-N2SY-000x), Xcellis Phone-Based Installation (SARAA-NSYC-PB00), or via a trained Quantum QSP partner. Ships in two boxes: 1) 25x25.3x44in (63.5x64.3x111.8cm), 140lbs (63.5kg); 2) 26x10.3x29in (66x26.2x73.7cm), 70lbs (31.6kg).*	US				27100	23035	18970			1yr BL
	BARAA-B1C4-001C	**Quantum Artico Base System, 48TB raw (12x4TB), non-SED, single node** *For sale in Russia, China, Belarus or Kazakhstan only. Includes one archive controller node and one QXS-312RC iSCSI storage array for archive data and metadata. Each archive controller node includes four onboard 1GbE ports for service, management, and metadata networks. For iSCSI array connectivity, requires one of the following: Quantum Artico NIC Kit for single node configurations, 10GbE, Dual-Port, Low-Profile, Optical (BARAA-AK1N-210P), or Quantum Artico NIC Kit for single node configurations, 10GbE, Dual-Port, Low-Profile, Twinax (BARAA-AK1N-210T). Each node includes 64GB RAM, redundant power and cooling, rack mount rails and hardware. Includes the following factory-installed licensing: StorNext High Availability License Option (for dual node systems), one embedded SAN client for each Xcellis Workflow Director node, a Distributed Data Mover (for dual node systems), 80 slots of LTO capacity licensing for Quantum tape libraries, 250PB of capacity licensing for Lattus object storage, and a Quantum NAS license. The QXS-312RC storage array includes 12 non-SED 4TB HDDs for archive data and metadata storage. QXS-312RC is a fully redundant, dual-controller, high-performance disk array. Includes six 25ft (7.6m) Ethernet cables with RJ45 connectors used as follows: four for each archive controller node and one for each QXS-312RC controller. Includes the following cables and SFPs for the disk array: four 10Gb Ethernet optical SFP+ modules and four 19.7ft (6m) LC-to-LC optical fiber cables. 3U of rack space: 1U for the archive controller node and 2U for the QXS-312RC storage array. Includes the following factory-installed licensing: StorNext High Availability License Option (for dual node systems), one embedded SAN client for each Xcellis Workflow Director node, a Distributed Data Mover (for dual node systems), 80 slots of LTO capacity licensing for Quantum tape libraries, 250PB of capacity licensing for Lattus object storage, and a Quantum NAS license. The QXS-312RC storage array includes 12 non-SED 6TB HDDs for archive data and metadata storage. QXS-312RC is a fully redundant, dual-controller, high-performance disk array. Includes ten 25ft (7.6m) Ethernet cables with RJ45 connectors used as follows: four for each archive controller node and one for each QXS-312RC controller. Includes the following cables and SFPs for the disk array: four 10Gb Ethernet optical SFP+ modules and four 19.7ft (6m) LC-to-LC optical fiber cables. 4U of rack space: 1U for each archive controller node and 2U for the QXS-312RC storage array. May be customer installed via StorNext Connect, professionally installed via Artico Onsite Installation and Configuration (SARAA-N1SY-000x or SARAA-N2SY-000x), Xcellis Phone-Based Installation (SARAA-NSYC-PB00), or via a trained Quantum QSP partner. Ships in two boxes: 1) 25x25.3x44in (63.5x64.3x111.8cm), 140lbs (63.5kg); 2) 26x10.3x29in (66x26.2x73.7cm), 70lbs (31.6kg).*	US				**39200**	33320	27440			1yr BL

		Software										
	BXCBB-ALDB-001A	**Quantum Artico/Xcellis Workflow Director, Dynamic Application Environment (DAE) License, single node** *For single node appliances only. Enables the use of the Dynamic Application Environment (DAE) for Xcellis Workflow Director or Artico. DAE allows the use of one virtual machine for the purposes of hosting an application directly on an Xcellis Workflow Director Artico. Maximum one Dynamic Application Environment license per system. Requires at least 128GB of memory in each Xcellis Workflow Director or Artico node.*	US	0x0x0 (0x0x0)	0 (0)		1700	1360	935			
	BXCBB-ALDA-001A	**Quantum Artico/Xcellis Workflow Director, Dynamic Application Environment (DAE) License, dual node** *For use with dual node appliances only. Enables the use of the Dynamic Application Environment (DAE) for Xcellis Workflow Director or Artico. DAE allows the use of one virtual machine for the purposes of hosting an application directly on an Xcellis Workflow Director Artico. Maximum one Dynamic Application Environment license per system. Requires at least 128GB of memory in each Xcellis Workflow Director or Artico node.*	US				3400	2720	1870			
	BARAA-ALSL-010A	**Quantum Artico, StorNext Storage Manager, 10-Slot License, for use with LTO tape drives only, Licensable Feature** *For use only with Quantum Artico Intelligent Archive Appliance. For use with tape-based archives. The Artico Intelligent Archive Appliance 10-Slot LTO License enables the use of 10 additional LTO slots of capacity with the Artico Intelligent Archive Appliance. For use with Quantum Scalar tape libraries: i40, i80, i500, and i6000. Quantum Scalar tape library slots licensed separately.*	US	0x0x0 (0x0x0)	0 (0)		550	468	385			
	BARAA-ALVL-001A	**Quantum Artico, StorNext Storage Manager, Vaulting Option, Licensable Feature** *For use only with Quantum Artico Intelligent Archive Appliance. For use with tape-based archives. Maximum one license per system. Allows the removal of tapes from a library for the purposes of long-term storage. Removed tapes do not count against Artico slot licensing. While tapes are removed from the library, Artico continues to track vaulted files. If vaulted files are retrieved from an archive, the tapes must be manually returned to the library, at which point the tapes will consume a slot license. Can be used in conjunction with the i6000 Active Vault feature that allows the tapes to remain in the library and then manually returned to an active state via the Scalar GUI. Scalar i6000 Active Vault license sold separately.*	US	0x0x0 (0x0x0)	0 (0)		5000	4250	3500

	BXCBF-CFAE-001C	**Quantum Xcellis Foundation, 48TB** *May be sold for installation worldwide. Includes one Quantum Xcellis Workflow Director with combined user data and metadata, QXS-312RC, iSCSI, 48TB raw (12x4TB), non-SED, single node. Includes two 10GbE, Dual-Port, Low-Profile, Twinax NIC kits: one for direct connection to the QXS-312RC via iSCSI, and one for connectivity to NAS clients. Each Xcellis Workflow Director node includes four onboard 1GbE ports for service, management, and metadata networks. Each node includes 64GB RAM, redundant power and cooling, rack mount rails and hardware. Includes the following factory-installed licensing: StorNext High Availability License Option, ten SAN clients available to the user for any OS type, one embedded SAN client for each Xcellis Workflow Director node, and a single node NAS license. The QXS-312RC storage array includes 12 non-SED 4TB HDDs for combined user data and metadata storage. QXS-312RC is a fully redundant, dual-controller, high-performance disk array. Includes six 25ft (7.6m) Ethernet cables with RJ45 connectors used as follows: four for each Xcellis Workflow Director node and one for each QXS-312RC controller. Includes the following cables and SFPs for the disk array: four 10Gb Ethernet optical SFP+ modules and four 19.7ft (6m) LC-to-LC optical fiber cables. 3U of rack space: 1U for each Xcellis Workflow Director node and 2U for the QXS-312RC storage array. May be customer installed via StorNext Connect, professionally installed via Xcellis Onsite Installation and Configuration (SXCBB-NSYC-000x), Xcellis Phone-Based Installation (SXCBB-NWXX-PB00), or via a trained Quantum QSP partner. Ships in two boxes: 1) 25x25.3x44in (63.5x64.3x111.8cm), 140lbs (63.5kg); 2) 26x10.3x29in (66x26.2x73.7cm), 70lbs (31.6kg). 	BXCBB-CWBE-001C	**Quantum Xcellis Workflow Director with Combined User Data and Metadata, QXS-312RC, Fibre Channel, 48TB raw (12x4TB), non-SED, single node** *May be sold for installation worldwide. Includes one Xcellis Workflow Director node and one QXS-312RC Fibre Channel storage array with combined user data and metadata. Each Xcellis Workflow Director node includes four onboard 1GbE ports for service, management, and metadata networks. Each node includes 64GB RAM, redundant power and cooling, rack mount rails and hardware. Includes the following factory-installed licensing: StorNext High Availability License Option, ten SAN clients available to the user for any OS type, one embedded SAN client for each Xcellis Workflow Director node. The QXS-312RC storage array includes 12 non-SED 4TB HDDs for combined user data and metadata storage. QXS-312RC is a fully redundant, dual-controller, high-performance disk array. Includes six 25ft (7.6m) Ethernet cables with RJ45 connectors used as follows: four for each Xcellis Workflow Director node and one for each QXS-312RC controller. Includes the following cables and SFPs for the disk array: four 16Gb Fibre Channel optical SFP+ modules and four 19.7ft (6m) LC-to-LC optical fiber cables. 3U of rack space: 1U for the Xcellis Workflow Director node and 2U for the QXS-312RC storage array. May be customer installed via StorNext Connect, professionally installed via Xcellis Onsite Installation and Configuration (SXCBB-NSYD-000x), Xcellis Phone-Based Installation (SXCBB-NWXX-PB00), or via a trained Quantum QSP partner. Ships in two boxes: 1) 25x25.3x44in (63.5x64.3x111.8cm), 140lbs (63.5kg); 2) 26x10.3x29in (66x26.2x73.7cm), 70lbs (31.6kg).*	US				36600	29280	20130			1yr BL
	BXCBB-CWAE-001C	**Quantum Xcellis Workflow Director with Combined User Data and Metadata, QXS-312RC, Fibre Channel, 48TB raw (12x4TB), non-SED, dual node** *May be sold for installation worldwide. Includes two Xcellis Workflow Director nodes and one QXS-312RC Fibre Channel storage array with combined user data and metadata. Each Xcellis Workflow Director node includes four onboard 1GbE ports for service, management, and metadata networks. Each node includes 64GB RAM, redundant power and cooling, rack mount rails and hardware. Includes the following factory-installed licensing: StorNext High Availability License Option, ten SAN clients available to the user for any OS type, one embedded SAN client for each Xcellis Workflow Director node. The QXS-312RC storage array includes 12 non-SED 4TB HDDs for combined user data and metadata storage. QXS-312RC is a fully redundant, dual-controller, high-performance disk array. Includes six 25ft (7.6m) Ethernet cables with RJ45 connectors used as follows: four for each Xcellis Workflow Director node and one for each QXS-312RC controller. Includes the following cables and SFPs for the disk array: four 16Gb Fibre Channel optical SFP+ modules and four 19.7ft (6m) LC-to-LC optical fiber cables. 4U of rack space: 1U for each Xcellis Workflow Director node and 2U for the QXS-312RC storage array. 	BXCBB-CWDH-001C	**Quantum Xcellis Workflow Director with Combined User Data and Metadata, QXS-412RC, Fibre Channel, 72TB raw (12x6TB), non-SED, single node** *May be sold for installation worldwide. Includes one Xcellis Workflow Director node and one QXS-412RC Fibre Channel storage array with combined user data and metadata. Each Xcellis Workflow Director node includes four onboard 1GbE ports for service, management, and metadata networks. Each node includes 64GB RAM, redundant power and cooling, rack mount rails and hardware. Includes the following factory-installed licensing: StorNext High Availability License Option, ten SAN clients available to the user for any OS type, one embedded SAN client for each Xcellis Workflow Director node. The QXS-412RC storage array includes 12 non-SED 6TB HDDs for combined user data and metadata storage. QXS-412RC is a fully redundant, dual-controller, high-performance disk array. Includes six 25ft (7.6m) Ethernet cables with RJ45 connectors used as follows: four for each Xcellis Workflow Director node and one for each QXS-412RC controller. Includes the following cables and SFPs for the disk array: eight 16Gb Fibre Channel optical SFP+ modules and eight 19.7ft (6m) LC-to-LC optical fiber cables. 3U of rack space: 1U for the Xcellis Workflow Director node and 2U for the QXS-412RC storage array. May be customer installed via StorNext Connect, professionally installed via Xcellis Onsite Installation and Configuration (SXCBB-NSYD-000x), Xcellis Phone-Based Installation (SXCBB-NWXX-PB00), or via a trained Quantum QSP partner. Ships in two boxes: 1) 25x25.3x44in (63.5x64.3x111.8cm), 140lbs (63.5kg); 2) 26x10.3x29in (66x26.2x73.7cm), 70lbs (31.6kg).*	US				50000	40000	27500			1yr BL

CI	BXCBB-CWDT-001C	**Quantum Xcellis Workflow Director with Combined User Data and Metadata, QXS-456RC, Fibre Channel, 448TB raw (56x8TB), non-SED, single node** *May be sold for installation worldwide. Requires 200-240VAC. Includes one Xcellis Workflow Director node and one QXS-456RC Fibre Channel storage array with combined user data and metadata. Each Xcellis Workflow Director node includes four onboard 1GbE ports for service, management, and metadata networks. Each node includes 64GB RAM, redundant power and cooling, rack mount rails and hardware. Includes the following factory-installed licensing: StorNext High Availability License Option, ten SAN clients available to the user for any OS type, one embedded SAN client for each Xcellis Workflow Director node. The QXS-456RC storage array includes 56 non-SED 8TB HDDs for combined user data and metadata storage. QXS-456RC is a fully redundant, dual-controller, high-performance disk array. Includes six 25ft (7.6m) Ethernet cables with RJ45 connectors used as follows: four for each Xcellis Workflow Director node and one for each QXS-456RC controller. Includes the following cables and SFPs for the disk array: eight 16Gb Fibre Channel optical SFP+ modules and eight 19.7ft (6m) LC-to-LC optical fiber cables. 5U of rack space: 1U for each Xcellis Workflow Director node and 4U for the QXS-456RC storage array. May be customer installed via StorNext Connect, professionally installed via Xcellis Onsite Installation and Configuration (SXCBB-NSYD-000x), Xcellis Phone-Based Installation (SXCBB-NWXX-PB00), or via a trained Quantum QSP partner. Ships in two boxes: 1) 25x25.3x44in (63.5x64.3x111.8cm), 140lbs (63.5kg); 2) 26x10.3x29in (66x26.2x73.7cm), 70lbs (31.6kg).*	US				**42000**	33600	23100			1yr BL
	BXCBB-CKFH-001C	**Quantum Xcellis Workflow Director with Dedicated HDD for Metadata, QXS-324RC, iSCSI, 10.8TB raw (12x900GB), non-SED, dual node** *May be sold for installation worldwide. Includes two Xcellis Workflow Director nodes and one QXS-324RC iSCSI storage array with dedicated HDD for metadata. Each Xcellis Workflow Director node includes four onboard 1GbE ports for service, management, and metadata networks. Each node includes 64GB RAM, redundant power and cooling, rack mount rails and hardware. Includes the following factory-installed licensing: StorNext High Availability License Option, ten SAN clients available to the user for any OS type, one embedded SAN client for each Xcellis Workflow Director node. The QXS-324RC storage array includes 24 non-SED 900GB HDDs for dedicated HDD for metadata storage. QXS-324RC is a fully redundant, dual-controller, high-performance disk array. Includes six 25ft (7.6m) Ethernet cables with RJ45 connectors used as follows: four for each Xcellis Workflow Director node and one for each QXS-324RC controller. Includes the following cables and SFPs for the disk array: four 10Gb Ethernet optical SFP+ modules and four 19.7ft (6m) LC-to-LC optical fiber cables. 4U of rack space: 1U for each Xcellis Workflow Director node and 2U for the QXS-324RC storage array. May be customer installed via StorNext Connect, professionally installed via Xcellis Onsite Installation and Configuration (SXCBB-NSYC-000x), Xcellis Phone-Based Installation (SXCBB-NWXX-PB00), or via a trained Quantum QSP partner. Ships in Ships in two boxes: 1) 25x25.3x44in (63.5x64.3x111.8cm), 140lbs (63.5kg); 2) 26x10.3x29in (66x26.2x73.7cm), 82lbs (37.2kg).*	US				**59500**	47600	32725			1yr BL
	BXCBB-CKFL-001C	**Quantum Xcellis Workflow Director with Dedicated HDD for Metadata, QXS-324RC, iSCSI, 21.6TB raw (24x900GB), non-SED, dual node** *May be sold for installation worldwide. Includes two Xcellis Workflow Director nodes and one QXS-324RC iSCSI storage array with dedicated HDD for metadata. Each Xcellis Workflow Director node includes four onboard 1GbE ports for service, management, and metadata networks. Each node includes 64GB RAM, redundant power and cooling, rack mount rails and hardware. Includes the following factory-installed licensing: StorNext High Availability License Option, ten SAN clients available to the user for any OS type, one embedded SAN client for each Xcellis Workflow Director node. The QXS-324RC storage array includes 12 non-SED 900GB HDDs for dedicated HDD for metadata storage. QXS-324RC is a fully redundant, dual-controller, high-performance disk array. Includes six 25ft (7.6m) Ethernet cables with RJ45 connectors used as follows: four for each Xcellis Workflow Director node and one for each QXS-324RC controller. Includes the following cables and SFPs for the disk array: four 10Gb Ethernet optical SFP+ modules and four 19.7ft (6m) LC-to-LC optical fiber cables. 4U of rack space: 1U for each Xcellis Workflow Director node and 2U for the QXS-324RC storage array. May be customer installed via StorNext Connect, professionally installed via Xcellis Onsite Installation and Configuration (SXCBB-NSYC-000x), Xcellis Phone-Based Installation (SXCBB-NWXX-PB00), or via a trained Quantum QSP partner. The QXS-424RC storage array includes 12 non-SED 400GB dedicated SSD for metadata storage. QXS-424RC is a fully redundant, dual-controller, high-performance disk array. Includes six 25ft (7.6m) Ethernet cables with RJ45 connectors used as follows: four for each Xcellis Workflow Director node and one for each QXS-424RC controller. Includes the following cables and SFPs for the disk array: eight 16Gb Fibre Channel optical SFP+ modules and eight 19.7ft (6m) LC-to-LC optical fiber cables. 3U of rack space: 1U for the Xcellis Workflow Director node and 2U for the QXS-424RC storage array. May be customer installed via StorNext Connect, professionally installed via Xcellis Onsite Installation and Configuration (SXCBB-NSYD-000x), Xcellis Phone-Based Installation (SXCBB-NWXX-PB00), or via a trained Quantum QSP partner. Ships in Ships in two boxes: 1) 25x25.3x44in (63.5x64.3x111.8cm), 140lbs (63.5kg); 2) 26x10.3x29in (66x26.2x73.7cm), 82lbs (37.2kg).*	US				98300	78640	54065			1yr BL
	BXCBB-CWSC-001C	**Quantum Xcellis Workflow Director with Dedicated SSD for Metadata, QXS-424RC, Fibre Channel, 4.8TB raw (12x400GB), non-SED, dual node** *May be sold for installation worldwide. Includes two Xcellis Workflow Director nodes and one QXS-424RC Fibre Channel storage array with dedicated SSD for metadata. Each Xcellis Workflow Director node includes four onboard 1GbE ports for service, management, and metadata networks. Each node includes 64GB RAM, redundant power and cooling, rack mount rails and hardware. Includes the following factory-installed licensing: StorNext High Availability License Option, ten SAN clients available to the user for any OS type, one embedded SAN client for each Xcellis Workflow Director node. The QXS-424RC storage array includes 12 non-SED 400GB SSDs for dedicated SSD for metadata storage. QXS-424RC is a fully redundant, dual-controller, high-performance disk array. Includes six 25ft (7.6m) Ethernet cables with RJ45 connectors used as follows: four for each Xcellis Workflow Director node and one for each QXS-424RC controller. Includes the following cables and SFPs for the disk array: eight 16Gb Fibre Channel optical SFP+ modules and eight 19.7ft (6m) LC-to-LC optical fiber cables. 4U of rack space: 1U for each Xcellis Workflow Director node and 2U for the QXS-424RC storage array. May be customer installed via StorNext Connect, professionally installed via Xcellis Onsite Installation and Configuration (SXCBB-NSYC-000x), Xcellis Phone-Based Installation (SXCBB-NWXX-PB00), or via a trained Quantum QSP partner. For use only with Xcellis Workflow Director. May be added to 48TB, 72TB, or 96TB Xcellis Workflow Director with Combined User Data and Metadata, or any Xcellis Workflow Director with Dedicated Metadata. Includes twelve 4TB 7.2K RPM 3.5-inch non-SED NL-SAS disks, dual RAID modules in a 2U chassis, 6GB of memory (3GB per controller), four 16Gbps Fibre Channel ports with SFPs, and 19-inch rack mount kit. Includes redundant hot-swappable RAID modules, redundant 465W hot-swappable power supplies, and mirrored data cache with super capacitor-based cache backup. Includes four 19.2ft (6m) optical fiber cables with LC connectors, two 25ft (7.6m) Ethernet cables with RJ45 connectors for management, and two 4ft (1.2m) C13/14 cables. Capacity may be expanded by adding up to three Xcellis 48TB, 72TB, or 96TB Expansions per RAID Array. A typical configuration is one Expansion per RAID Array. No limit to the number of RAID Arrays per system. Requires 2U rack space. Rack must be customer supplied or purchased separately. May be customer installed via StorNext Connect, professionally installed via Xcellis Onsite Installation and Configuration (SXCBB-NSYC-000x or SXCBB-NSYD-000x), Xcellis Phone-Based Installation (SXCBB-NWXX-PB00), or via a trained Quantum QSP partner.*	US	26x10x29 (66x25.4x73.7)	70 (31.75)		26600	21280	14630			1yr BL
CI	BXCBB-AWPH-001C	**Quantum Xcellis Workflow Director RAID Array, QXS-312RC, Fibre Channel, 72TB Raw (12x6TB), Non-SED** *May be sold for installation worldwide. DAE allows the use of one virtual machine for the purposes of hosting an application directly on an Xcellis Workflow Director or Artico. Maximum one Dynamic Application Environment license per system. Requires at least 128GB of memory in each Xcellis Workflow Director or Artico node.*	US				3400	2720	1870			
	BXCBB-ALGX-001A	**Quantum Xcellis Workflow Director/Xcellis Workflow Extender, LAN Gateway License, single node** *For use with single node appliances only. Enables the use of the StorNext LAN Gateway feature on the Xcellis Workflow Director, Xcellis Workflow Extender, G300, or M-Series Appliance. This license is either enabled or disabled, and requires no per-client licensing. Enabling the StorNext LAN Gateway allows connections to an appliance using the StorNext LAN Client. Requires at least one NIC kit for connectivity to the clients. Maximum one Quantum StorNext LAN Gateway license per appliance.*	US	0x0x0 (0x0x0)	0 (0)		3400	2720	1870			
	BXCBB-ALGW-001A	**Quantum Xcellis Workflow Director/Xcellis Workflow Extender, LAN Gateway License, dual node** *For use with dual node appliances only. Enables the use of the StorNext LAN Gateway feature on the Xcellis Workflow Director, Xcellis Workflow Extender, G300, or M-Series Appliance. This license is either enabled or disabled, and requires no per-client licensing. Enabling the StorNext LAN Gateway allows connections to an appliance using the StorNext LAN Client. Requires at least one NIC kit for connectivity to the clients. Maximum one Quantum StorNext LAN Gateway license per appliance.*	US	0x0x0 (0x0x0)	0 (0)		6800	5440	3740			
	BXCBB-ALNB-001A	**Quantum Xcellis Workflow Director/Xcellis Workflow Extender, NAS License, single node** *For use with single node appliances only. Enables the use of the NAS feature on the Xcellis Workflow Director, Xcellis Workflow Extender, G300, or M-Series Appliance. This license is either enabled or disabled, and requires no per-client licensing. Enabling NAS allows connections to an appliance using the SMB/CIFS and NFS file sharing protocols. Requires at least one NIC kit for connectivity to the clients. Maximum one Quantum NAS license per appliance.*	US	0x0x0 (0x0x0)	0 (0)		3400	2720	1870			
	BXCBB-ALNA-001A	**Quantum Xcellis Workflow Director/Xcellis Workflow Extender, NAS License, dual node** *For use with dual node appliances only. Enables the use of the NAS feature on the Xcellis Workflow Director, Xcellis Workflow Extender, G300, or M-Series Appliance. This license is either enabled or disabled, and requires no per-client licensing. Enabling NAS allows connections to an appliance using the SMB/CIFS and NFS file sharing protocols. Requires at least one NIC kit for connectivity to the clients. Maximum one Quantum NAS license per appliance.*	US	0x0x0 (0x0x0)	0 (0)		6800	5440	3740

Quantum Xcellis Workflow Extender Base Systems

Change	Model Number	Description	COO	Package Dimensions WxHxD, in (cm)	Package Weight, lbs (kg)	UPC	MSRP/ List Price	Sug Gold/ Silver VAR Price	Sug Gold/ Silver VAR QDR Price	Gold/ Silver VAR Price	Gold/ Silver VAR QDR Price	War-ranty*
	BXCBC-CWE3-001A	**Quantum Xcellis Workflow Extender, 1U** *May be sold worldwide. Includes one Xcellis Workflow Extender 1U with one included SAN client and StorNext software. Includes four onboard 1GbE ports for service, management, and metadata networks. Each node includes dual CPUs, 64GB RAM, redundant power and cooling, rack mount rails and hardware, four 25ft (7.6m) Ethernet cables with RJ45 connectors, and two NEMA C13 to C14 cables. If using Fibre Channel disk arrays, one of the following Fibre Channel HBA kits are required for each Xcellis Workflow Extender: Quantum Xcellis Workflow Extender HBA Kit, 32Gb, Dual-Port, Low Profile, Optical (BXCBC-ANBF-232B), Quantum Xcellis Workflow Extender HBA Kit, 16Gb, Dual-Port, Low Profile, Optical (BXCBC-AHBF-216B), Quantum Xcellis Workflow Extender HBA Kit, 16Gb, Quad-Port, Low Profile, Optical (BXCBC-AHBF-416B). If using iSCSI disk arrays, one of the following NIC kits are required: Quantum Xcellis Workflow Extender NIC Kit, 10GbE, Dual-Port, Low Profile, Optical (BXCBC-ANCP-210B), Quantum Xcellis Workflow Extender NIC Kit, 10GbE, Dual-Port, Low Profile, Twinax (BXCBC-ANCT-210B), Quantum Xcellis Workflow Extender NIC Kit, 10Gb, Dual-Port, Low Profile, 10GBase-T RJ45 (BXCBC-ANCE-210B), Quantum Xcellis Workflow Extender NIC Kit, 1Gb, Quad-Port, Low Profile, Copper (BXCBC-ANCC-401B), Quantum Xcellis Workflow Extender NIC Kit, 40Gb, Dual-Port, Low Profile, QSFP (BXCBC-ANCQ-240B). Requires one of the following software licenses: Quantum NAS license for single node configurations, Quantum StorNext LAN Gateway license for single node configurations, Quantum StorNext Distributed Data Mover Option, StorNext File System and StorNext Storage Manager (WSNSE-URMZ-000A). Requires 1U rack space. Onsite professional installation is required, either via Xcellis Workflow Extender Onsite Installation (SXCBC-NSYN-000x) or via a trained Quantum QSP partner.*	US	35x10.5x24 (88.9x26.7x61)	30 (13.61)		**15000**	12000	8250			1yr BL

Quantum StorNext Appliances: AEL6 Archive

Refer to the Quantum Scalar i6 Tape Drive Module and Options sections for additional compatible items. NOTE: When selecting additional options for AEL6 system orders, if there are AEL6-specific items shown below, select those instead of comparable Scalar i6 items. If there are no comparable AEL6-specific items for the desired option, Scalar i6 items should be selected.

The StorNext AEL56 Archive is EDLM ready (license is included but EDLM scanning drives must be separately ordered).

Quantum AEL6 Archive Base Libraries

Change	Model Number	Description	COO	Package Dimensions WxHxD, in (cm)	Package Weight, lbs (kg)	UPC	MSRP/List Price	Sug Gold/Silver VAR Price	Sug Gold/Silver VAR QDR Price	Gold/Silver VAR Price	Gold/Silver VAR QDR Price	War-ranty*
CI, CP	LSNDC-CSJ0-L00A	**Quantum StorNext AEL6 Archive, 6U Control Module, 50 licensed slots, no tape drives, no tape drives, equipment rack must support product depth of 36.4in (92.5cm)** *Includes one Scalar i6 6U library control module with 50 licensed AEL slots (includes library and Storage Manager slot licensing), EDLM library license, embedded Ethernet, internal module interconnect, partitioning capability, rackmount kit, one power supply, one 3ft (0.9m) C13-C14 and one 3ft (0.9m) L-5-15 power cords. Other types of power cords should be locally sourced. Includes 100 physical cartridge slots and support for up to three tape drives. Includes the capability to create 15 partitions. Does not include an expansion module, tape drives, tape media, Fibre Channel or Ethernet cables. If redundant power is required, add one power supply (LSC36-APWR-001A). Media labels are not included. Maximum seven expansion modules, 24 tape drives and 700 licensed slots per AEL6 library. SNAPI is not required and not provided. Requires standard 19in (48.2cm) four-post rack that supports a minimum product depth of 36.4in (925mm) or has an external rack depth at least 42.13in (107.0cm) deep, such as APC AR3100. Quantum onsite installation (SSNDC-NSYS-000x) is required. A Bronze, NBD Gold or Gold Support Plan (SSNDC-RSJ0-xxxx) may also be added; this level should match the support level of StorNext.*	US	28x24x47 (71.1x61x119.4)	92 (41.73)	7-68268-04412-8	**42500**	34000	23375			1yr NBD

	SLBBB-NEK1-PB00	**Quantum Scalar Key Management Solution (SKM only), Phone-Based Installation and Configuration, Single Server, Software and SKM Hardware, all zones** *Quantum Scalar Key Management Solutions are customer installable. Order this item for professional phone-based installation and configuration assistance. Order one per server. Includes software and, if SKM server, hardware installation.*					1000	800	800			
	SLBBB-NEK1-0001	**Quantum Scalar Key Manager (SKM), Single Server/Site System Installation and Configuration, zone 1** *Includes installation and configuration of SKM on a single server at a single site. If this item is ordered, the installation and configuration of the secondary server is also required and must be ordered separately. This service is optional for the SKM Appliance. Also includes library configuration steps necessary to connect to the primary SKM. If the key management installation and configuration service is related to a new system installation, system installation service must also be ordered. For configurations outside this scope, refer to the Customized System Integration Service.*					2500	2000	2000			
	SLBBB-NEK2-0001	**Quantum Scalar Key Manager (SKM), Additional Server/Same Site/Same Trip System Installation and Configuration, zone 1** *Includes installation and configuration of SKM on an additional server at the same site during the same trip. This service is optional for the SKM Appliance. Also includes library configuration steps necessary to connect to SKM or Q-EKM. Must purchase Key Management Single Server/Site Integration Service (SLBBB-NEK1-000x) as a prerequisite.*					1500	1200	1200			
	SLBBB-NEK3-0001	**Quantum Scalar Key Manager (SKM), Additional Server/Different Site System Installation and Configuration, zone 1** *Includes installation and configuration of SKM on an additional server at a different site. This service is optional for the SKM Appliance. Also includes library configuration steps necessary to connect to SKM or Q-EKM. Must purchase Key Management Single Server/Site Integration Service (SLBBB-NEK1-000x) as a prerequisite.*					2500	2000	2000			

Upgrade Installation

Change	Model Number	Description	COO	Package Dimensions	Pack-age Weight	UPC	MSRP/ List Price	Sug Gold/ Silver VAR Price	Sug Gold/ Silver VAR QDR Price	Gold/ Silver VAR Price	Gold/ Silver VAR QDR Price	War-ranty*
	SSC36-NUPN-0001	**Quantum Scalar i6 and AEL6 Upgrades, Onsite Installation and Configuration, zone 1** *Required for all upgrade orders involving onsite installation. Quantity must equal the number of locations where upgrades are needed, not the number of libraries. This item covers one visit per location. Add one of this item for each additional onsite visit. Installation for all hardware components (expansion modules, drives, and blades) must be added to the order in addition to this Base Upgrade Installation. Do not use with Scalar i6 Library Installation and Configuration (SSC36-NSYS-000x) or AEL6 Archive Installation and Configuration (SSNDC-NSYS-000x). An out of area travel charge may apply.*					1250	1000	1000			
	SSC36-NEXM-0001	**Quantum Scalar i6 and AEL6 Expansion Module, Single Location, Onsite Installation, zone 1** *Scalar i6 and AEL6 upgrade components are customer installable and customer configurable. However, upgrade installation and configuration service is available if the customer prefers Quantum professional installation and configuration. The Library Expansion Module Installation charge includes installation of one EM only and does not include tape drives. Quantity must match the quantity of expansion modules. Order one for each expansion module included in the initial installation or each upgrade of a Scalar i6 Library. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC36-NUPN-000x).*					625	500	500			
	SSC36-NTD1-0001	**Quantum Scalar i6 and AEL6 Tape Drive, Single Drive, Single Location, Onsite Installation, zone 1** *Scalar i6 and AEL6 upgrade components are customer installable and customer configurable. However, upgrade installation and configuration service is available if the customer prefers Quantum professional installation and configuration. The Library Tape Drive Installation charge includes installation of one tape drive only and does not include expansion modules. Quantity must match the quantity of all Tape Drives. Order one for each tape drive included in the initial installation or each upgrade of a Scalar i6 Library. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC36-NUPN-000x).*					225	180	180			
	SSC36-NLSD-0001	**Quantum Scalar i6 and AEL6, Onsite Slot and/or Encryption License Reduction Service; Miscellaneous Support, Fee; zone 1** *Customers may decrement their slot license count and/or the number of tape drives supported by encryption at the end of a service contract term with 90-days prior written notice. Order one of these services for onsite license adjustment of an individual library at a single site. The onsite service provided is to adjust the slot count on the library and/or to reduce the number of tape drives supported by encryption. Price is per visit. Both slot and encryption licenses may be changed on the same visit. Base Upgrade Installation and Configuration (SSC36-NUPN-000x) must be ordered every time this model number is ordered.*					225	180	180			

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.

	SSC3A-NBLD-0001	**Quantum Scalar i3, Scalar i6 and AEL6 iBlade, Single Location, Onsite Installation, zone 1** *The Scalar i3 and Scalar i6 libraries are customer installable and customer configurable. However, library installation and configuration service is available if the customer prefers Quantum professional installation and configuration. AEL6 Archives require Quantum Professional Services Installation. The Blade installation charge includes installation of one Blade only into a Scalar i3, Scalar i6 or AEL6 and does not cover installation of any other components. This part number covers installation for all versions of the iBlade. Model Number SSC33-NBLD-000x or SSC36-NUPN-000x must be ordered every time this model number is ordered if the Blade is ordered as an upgrade, installed subsequent to the initial installation. All replaced iBlades must be returned to Quantum unless Model Number (SSC3A-RCSA-NR10) is ordered and included in the service agreement.*					350	280	280

Quantum StorNext Appliances: AEL500 Archive

Refer to the Quantum Scalar i500 Library FIELD UPGRADE sections for additional compatible items. NOTE: When selecting additional options for initial AEL500 system orders, if there are AEL500-specific items shown below, select those instead of comparable Scalar i500 items. If there are no comparable AEL500-specific items for the desired option, Scalar i500 FIELD UPGRADE item should be selected, NOT FACTORY-INSTALLED items, for both initial order AEL500 systems and AEL500 field upgrades.

StorNext AEL500 5U (Mini) Archive includes 20 activated slots, and can be upgraded with additional slots, additional drives and to add EDLM support.

The StorNext AEL500 Archive is EDLM ready (license is included but EDLM scanning drives must be separately ordered).

		Capacity										
	LSC2K-AIES-001A	**Quantum Scalar i6000 and AEL6000 24-Slot Import/Export (I/E) Station for Expansion Module** *One I/E Station can be added to each Expansion Module (Storage Expansion, Drive Ready Expansion or High-Density Expansion). Cannot be installed in a Left Parking Module. Includes 24 LTO import/export slots. Reduces EM capacity by 60 LTO slots. The I/E Station is factory installed if ordered with an expansion module. If not ordered with an expansion module, requires Import/Export (I/E) Station Installation and Configuration (SSC6K-NIES-024x). Shipping weights and dimensions vary with configuration.*	US				4246	3397	2335			30d RE
	LSC6K-AIES-072A	**Quantum Scalar i6000 and AEL6000 72-Slot LTO Import/Export (I/E) Station for Expansion Module** *One I/E Station can be added to each Expansion Module (Storage Expansion, Drive Ready Expansion or High-Density Expansion). Cannot be installed in a Control Module or Parking Module. Includes 72 LTO import/export slots. Reduces EM capacity by 168 LTO slots. The I/E Station is factory installed if ordered with an expansion module. If not ordered with an expansion module, requires Import/Export (I/E) Station Installation and Configuration (SSC6K-NIES-024x).*	US	30x29x82 (76.2x73.7x208.3)	275 (124.74)		8240	6592	4532			30d RE
	LSNDA-ALSL-100K	**Quantum StorNext AEL6000 Archive: 100-Slot Capacity Upgrade, for systems up to 1,500 activated slots, no library expansion modules** *Use for StorNext AEL6000 licensed slot upgrades up to 1,500 total licensed slots. If system currently has less than 1,500 slots and is being expanded beyond 1,500 slots, order the appropriate number of LSNDA-ALSL-100Q to reach the 1,500-slot threshold, then the remaining slots should be ordered using LSNDA-ALSL-100K. Includes 100 slots of Scalar i6000 capacity on demand and 100 slots of StorNext Storage Manager. 100 slots is the equivalent of ~250TB with LTO-6 media and ~150TB with LTO-5 media. Does not include any library expansion modules; all library expansion models needed to provide additional physical slot capacity must be ordered separately. Requires StorNext Archive Enabled Library, Capacity Upgrade Per 100 Slots Gold Support Uplift (SSNDA-LU01-GL1x), which must be ordered separately.*	US	0x0x0 (0x0x0)	0 (0)		40743	32594	22409			
	LSNDA-ALSL-100Q	**Quantum StorNext AEL6000 Archive: 100-Slot Capacity Upgrade, for systems with more than 1,500 activated slots, no library expansion modules** *Use for StorNext AEL licensed slot upgrades when the total licensed slots will be greater than or equal to 1,600 slots. For slot upgrades up to 1,500 slots, order the appropriate number of LSNDA-ALSL-100K to reach the 1,500-slot threshold, then all slot upgrades beyond 1,500 slots use LSNDA-ALSL-100Q. Includes 100 slots of Scalar i6000 capacity on demand and 100 slots of StorNext Storage Manager. 100 slots is the equivalent of ~250 TB with LTO-6 media and ~150 TB with LTO-5 media. Does not include any library expansion modules; all library expansion models needed to provide additional physical slot capacity must be ordered separately. Requires StorNext Archive Enabled Library, Capacity Upgrade Per 100 Slots Gold Support Uplift (SSNDA-LU01-GL1x), which must be ordered separately. Maximum number of slots is 12,006 depending on drive and expansion module configuration.*	US	0x0x0 (0x0x0)	0 (0)		29610	23688	16286			
	LSC6K-ALAV-000A	**Quantum Scalar i6000 and AEL6000 Active Vault License** *Enables Active Vault functionality in the system. Provides the ability to create Active Vault system-managed partitions. This feature can use unlicensed slots, but Expansion Modules must be ordered to provide the necessary physical slot capacity. Support will be provided by the existing system warranty/service contract. Active Vault does not require Partitioning and a Partitioning license is not included. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		10300	8240	5665			
		Expansion Modules										
	LSC6K-AEMC-001A	**Quantum Scalar i6000 and AEL6000 Storage Expansion Module (SEM2), no tape drive support** *Adds 456 unlicensed cartridge slots to the system. Licenses to activate cartridge slots must be ordered separately. Does not support tape drives unless converted. Order a Drive Ready Expansion Module if tape drive support is needed. Configured with gen1 or gen2 robotic rails as needed. Adding an Import/Export Station reduces the available cartridge slots in the module: 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Power is not required. Requires installation (SSC6K-NEXM-000x) for each module.*	US	42.5x87x48 (108x221x121.9)	722 (327.49)		14935	11948	8214			
	LSC6K-AEMC-001C	**Quantum Scalar i6000 and AEL6000 Storage Expansion Module (SEM3), no tape drive support** *Adds 456 unlicensed cartridge slots to the system. Licenses to activate cartridge slots must be ordered separately. Does not support tape drives unless converted (LSC6K-UC2D-001C). Order a Drive Ready Expansion Module if tape drive support is needed. Configured with gen1 or gen2 robotic rails as needed. Adding an Import/Export Station reduces the available cartridge slots in the module: 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Power is not required. Requires installation (SSC6K-NEXM-000x) for each module.*	US	42.5x87x48 (108x221x121.9)	640 (290.3)	7-68268-04183-7	14935	11948	8214			30d RE
	LSC6K-AEMD-001A	**Quantum Scalar i6000 and AEL6000 Drive Ready Expansion Module (DREM2), no tape drives** *Expansion module configured to support tape drives. Also adds unlicensed slots to the system. The number of unlicensed slots varies depending on the number of drives added: 444 slots with one drive to 348 slots with 12 drives. Licenses to activate cartridge slots must be ordered separately. Configured with gen1 or gen2 robotic rails as needed. Adding an Import/Export Station reduces the available cartridge slots in the module: 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Power is included with this module, but redundant power must be ordered separately. Ships with one power cord, L6-30 for North American orders and IEC 60309 for international orders. Requires installation (SSC6K-NEXM-000x) for each module.*	US	42.5x87x48 (108x221x121.9)	722 (327.49)		17510	14008	9631			
	LSC6K-AEMD-001C	**Quantum Scalar i6000 and AEL6000 Drive Ready Expansion Module (DREM3), no tape drives** *Expansion module configured to support up to 24 tape drives with gen2 libraries (robot and electronics) or 12 tape drives for gen1 libraries. Also adds unlicensed slots to the system. The number of unlicensed slots varies depending on the number of drives added: 444 slots with one drive, 348 slots with 12 drives and. 264 slots with 24 drives. Licenses to activate cartridge slots must be ordered separately. Configured with gen1 or gen2 robotic rails as needed. Adding an Import/Export Station reduces the available cartridge slots in the module: 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Power is included with this module, but redundant power must be ordered separately. Ships with L6-20/C19 and IEC 309/C19 power cords. Requires installation (SSC6K-NEXM-000x) for each module.*	US	42.5x87x48 (108x221x121.9)	700 (317.51)	7-68268-04184-4	17510	14008	9631			30d RE
	LSC6K-AEMH-001A	**Quantum Scalar i6000 and AEL6000 High-Density Expansion Module (HDEM), no tape drive support** *Adds 780 physical slots to the system. Licenses to activate cartridge slots must be ordered separately. This module cannot support tape drives or be used as a parking module with Dual Robots. Adding an Import/Export Station reduces the available cartridge slots in the module: 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Includes power. Ships with L6-20/C19 and IEC 309/C19 power cords. Order redundant power (LSC6K-ARPH-001A) separately. The HDEM is a gen2 module requiring gen2 robots and gen2 electronics in the system. HDEM Scanner is sold separately (LSC6K-ACSH-001A). Requires Module Installation and Configuration (SSC6K-NEXM-000x). Service maintenance must match service level of the system.*	US	42.5x87x48 (108x221x121.9)	627 (284.4)		29870	23896	16429			30d RE

		Encryption Licence Keys										
	LSC6K-AKM1-L4HA	**Quantum Scalar i6000 and AEL6000, Library Managed Encryption License Key for Third-Party Key Managers, One-Drive** *Includes license key to enable library managed encryption for one (1) drive for use with third-party key management products. The Compatibility Guide on Quantum.com should be checked for specific drive manufacturer, LTO generation, and encryption key manager support. At the time of this publication SafeNet (KMIP) and Thales (KMIP) are supported with HP LTO-4 or later drives and IBM LTO-5 or later drives. TKLM (non-KMIP) is supported with IBM LTO-4 or later drives. Not for use with Scalar Key Manager or Q-EKM. This license is not needed if the backup application manages the encryption keys. Warranty/service level of key-enabled drives must match the service length and level of the library. Third-party key-enabled drives must be in a separate partition from other key-enabled or non key-enabled drives. Only one encryption key manager can be used in a library. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		2060	1648	1133			
	LSC6K-AQK1-L4HA	**Quantum Scalar i6000 and AEL6000, Library Managed Encryption License Key for Scalar Key Manager (SKM), One-Drive** *Enables system encryption key communication with one tape drive. For use only with Scalar Key Manager. Supported tape drives include HP LTO-4 or later or IBM LTO-5 or later. Not for use with libraries using Q-EKM or Third-Party license keys. Not needed if the backup application manages encryption keys. Warranty/service level of key-enabled drives must match the service length and level of the system. System managed encryption is enabled by partition but a Partition license is not required. Include enough licenses to enable the system to communicate with all drives in encryption partitions. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		2060	1648	1133			
	LSC6K-UQ2S-001A	**Quantum Scalar i6000 and AEL6000, Library Managed Encryption License Key for migration from Quantum Encryption Key Manager (Q-EKM) to Scalar Key Manager (SKM), One Drive, field upgrade** *Field upgrade only; not for use with new system purchases. Requires a Gen2 library (robot and electronics). Use only for replacing Q-EKM library licensing with Scalar Key Manager licensing for one HP LTO-4 or later drive or one IBM LTO-5 or later drive. Scalar Key Manager must be ordered separately. Not for use with IBM LTO-4. Warranty/service level of key-enabled drives must match the service length and level of the library. Q-EKM Encryption Key Migration service is mandatory. Library managed encryption is enabled by partition but a Partition license is not required. Include enough licenses to enable the system to communicate with all drives in encryption partitions. This is a library-based license, not a drive license and cannot be transferred to another library.*	US	0x0x0 (0x0x0)	0 (0)		2060	1648	1133			
		EDLM Scanning Tape Drives										
	LSC6K-AEDL-B8AA	**Quantum Scalar i6000 and AEL6000 IBM LTO-8 EDLM Scanning Tape Drive** *Includes one IBM LTO-8 EDLM scanning tape drive for use with the Scalar i6000 and AEL6000 EDLM iLayer feature. Required EDLM license sold separately for Scalar i6000, but is included with AEL6000. This drive supports EDLM scanning of LTO-8 and LTO-7 media. Required EEB blades and Ethernet cables automatically ship with this drive as needed. The EDLM license is sold separately and is required (one license per library) to use this drive. This drive can be mixed with other EDLM scanning tape drives. Tape drive installation and configuration (SSC6K-NTDX-000x) must be ordered for each drive. A Bronze, NBD Gold or Gold Support Plan (SLBBN-xTDX-xx1x) must also be added at the same service level as the system for each EDLM drive.*	US	9x9x16 (22.9x22.9x40.6)	13 (5.9)	7-68268-80445-9	9990	7992	5495			30d RE
	LSC6K-AEDL-B7AA	**Quantum Scalar i6000 and AEL6000 IBM LTO-7 EDLM Scanning Tape Drive** *Includes one IBM LTO-7 EDLM scanning tape drive for use with the Scalar i6000 and AEL6000 EDLM iLayer feature. Library must have Gen 2 robot and electronics in order to add LTO-7 drives. Required EDLM license (LSC6K-AEDL-000A) sold separately for Scalar i6000, but is included with AEL6000. This drive supports EDLM scanning of LTO-5, LTO-6 and LTO-7 media. Required EEB blades and Ethernet cables automatically ship with this drive as needed. This drive can be mixed with HP EDLM scanning tape drives and other LTO generations. Tape drive installation and configuration (SSC6K-NTDX-000x) must be ordered for each drive. A Bronze, NBD Gold or Gold Support Plan (SLBBN-xTDX-xx1x) must also be added at the same service level as the system for each EDLM drive.*	US	9x9x16 (22.9x22.9x40.6)	13 (5.9)	7-68268-04196-7	8600	6880	4730			30d RE
	LSC6K-AEDL-B6AA	**Quantum Scalar i6000 and AEL6000 IBM LTO-6 EDLM Scanning Tape Drive** *Includes one IBM LTO-6 EDLM scanning tape drive for use with the Scalar i6000 and AEL6000 EDLM iLayer feature. Required EDLM license (LSC6K-AEDL-000A) sold separately for Scalar i6000, but is included with AEL6000. This drive supports EDLM scanning of LTO-4, LTO-5 and LTO-6 media. Required EEB blades and Ethernet cables automatically ship with this drive as needed. This drive can be mixed with HP EDLM scanning tape drives and other LTO generations. Tape drive installation and configuration (SSC6K-NTDX-000x) must be ordered for each drive. A Bronze, NBD Gold or Gold Support Plan (SLBBN-xTDX-xx1x) must also be added at the same service level as the system for each EDLM drive.*	US	9x9x16 (22.9x22.9x40.6)	13 (5.9)	7-68268-04192-9	6930	5544	3812			30d RE
		Upgrade Kits										
	LSC6K-ACSH-001A	**Quantum Scalar i6000 and AEL6000 High-Density Expansion Module, Cartridge Scanner** *Optional scanner for the HDEM to conduct inventory scans of the slots and cartridges in the HDEM tower. Order one scanner per HDEM. Will be field installed for both initial system orders and field add-ons. Requires HDEM scanner installation (SSC6K-ACSH-000x).*	SG	75x14x8.5 (190.5x35.6x21.6)	18 (8.16)		5150	4120	2833			30d RE

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.

	LSC6K-AALK-0001	**Quantum Scalar i6000 and AEL6000 Aisle Light Kit, Per Module** *Supported in systems with a Control Module Serial number starting with 263 or be at least 203102253. Includes all necessary hardware to install an internal blue aisle light at the top of any Scalar i6000 or AEL6000 control or expansion module. Order quantity one per module. Cannot be installed in a Left Parking Module or in the same module as a web camera. Aisle lights will be installed in the module(s) at no charge for new system orders. Requires installation (SSC6K-NALK-000x) for each aisle light ordered for upgrade orders.*	US	7x5x1.5 (17.8x12.7x3.8)	3 (1.36)		773	618	425			30d RE
	LSC6K-ACAM-001A	**Quantum Scalar i6000 and AEL6000 Web Camera** *Requires a gen2 robot. Includes all necessary hardware to install an internal web camera at the top of a module. Web camera can pan and zoom so a web camera is not needed in every module. Maximum quantity equals number of Expansion Modules (Storage Expansion, Drive Ready Expansion or High-Density Expansion) in system. Can only be installed in the Control Module if Dual Robots are installed. Cannot be installed in a Parking Module. Requires one or more Expansion Modules and Aisle Lights (LSC6K-AALK-0001) in all modules. If system is currently Gen1, order the Gen1 to Gen2 Robot Hardware Upgrade (LSC6K-URHU-012A). Requires installation (SSC6K-NALK-000) for each web camera ordered for both new system and upgrade orders.*	US	9.25x8.5x6.5 (23.5x21.6x16.5)			3090	2472	1700			30d RE
	LSC6K-ADRU-000A	**Quantum Scalar i6000 and AEL6000 Dual Robot and Left Parking Module Upgrade** *Includes a secondary, redundant gen2 robot within a Parking Module that is installed to the left of the Control Module. Requires a Control Module and at least one Storage Expansion Module or Drive Ready Expansion Module in the configuration. Upgrades of existing Scalar i6000 libraries with a gen1 robot also require the Gen1 to Gen 2 Robot Hardware upgrade (LSC6K-URHU-012A). Active/active capability requires gen2 electronics (order LSC6K-UELU-002A if needed). Installation and configuration service (SSC6K-NDRU-000x) is required. Service level of the Dual Robot must match the service length and level of the system.*	US	85x85x81 (215.9x215.9x20 5.7)	722 (327.49)		51500	41200	28325			30d RE
	LSC2K-USNC-001A	**Quantum Scalar i6000 and AEL6000 Control Module and Drive Ready Expansion Module Upgrade, Native Fibre Channel to Storage Networking Conversion Kit, field upgrade** *Used with modules that only have native Fibre Channel drives installed where those drives will be upgraded to Storage Networking using I/O Blades. Includes network chassis fan and Control Management Blade (CMB). Maximum one kit per CM or DREM being converted to Storage Networking for the first time. Requires Native Fibre Channel to Storage Networking Conversion Kit Installation and Configuration (SSC6K-NNTS-000x). At least one I/O blade must be present in the library to support this upgrade.*	US	16.5x13x9 (41.9x33x22.9)	8 (3.63)		9962	7970	5479			30d RE
	LSC6K-UC2D-001C	**Quantum Scalar i6000 and AEL6000 Storage Expansion Module (SEM3) to Drive Ready Expansion Module (DREM3) Conversion, field upgrade** *Converts a Storage Expansion Module (SEM with no drive support) to a Drive Ready Expansion Module (DREM3). Adding drives reduces the slot capacity of the module, 444 slots with one drive to 348 slots with 12 drives. Adding an Import/Export Station reduces the available cartridge slots in the module, the 24-slot I/E Station removes 60 slots and the 72-slot I/E Station removes 168 slots. Power is included; tape drives and redundant power are not included. Ships with L6-20/C19 and IEC 309/C19 power cords. Requires installation (SSC6K-NSDN-000x) for each module converted.*	US	36x21x14 (91.4x53.3x35.6)	73 (33.11)	7-68268-04190-5	3090	2472	1700			30d RE

Quantum StorNext AEL6000 Installation and Additional Services

		Base Systems										
	SSNDA-NSYN-4041	**Quantum StorNext AEL6000 Archive, 400 licensed slots, no tape drives, no library expansion modules, Installation and Configuration, zone 1** *Onsite Installation and Configuration are required for StorNext AEL6000 Archive. The Installation and Configuration charge covers all items included with the base system. SEMs, HDEMs and SDEMs that may be included in the initial order, or added as part of an upgrade, require a separate install charge, whether installed at the same time or later. Installation includes configuration (may be remote or onsite) by Quantum Professional Services of the StorNext environment to integrate the AEL Archive. Tape drives and other optional items require a separate install charge. Installation charges for optional items, not included in the AEL6000 section of price book, are found in the Scalar i6000 section of the price book.*					12672	10138	10138

Installation charges for optional items, not included in the AEL6000 section of price book, are found in the Scalar i6000 section of the price book.*					24901	19921	19921			
		Base Upgrade Charge Per Upgrade Visit - Upgrades										
	SSC6K-NUBN-0001	**Quantum Scalar i2000/i6000 and AEL6000 Upgrades, Base, Onsite Installation and Configuration, zone 1** *Required for all upgrade orders with installation. Quantity must equal the number of locations where upgrades are needed, not the number of libraries. Installation for all hardware components must be added to the order in addition to this Base Installation. Do not use with Control Module Installation and Configuration (SSC6K-NCMN-000x). An out of area travel charge may apply.*					1563	1250	1250			
		Tape Drive Modules - New Installations and Upgrades										
	SSC6K-NTDX-0001	**Quantum Scalar i2000/i6000 and AEL6000 Tape Drive Module, Onsite Installation and Configuration, zone 1** *Required when adding any tape drive to a Scalar i2000/i6000 or StorNext AEL6000, for new libraries and upgrades. Quantity should match the total number of all tape drives ordered. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					208	166	166			
		Expansion Modules - New Installations and Upgrades										
	SSC6K-NEXM-0001	**Quantum Scalar i6000 and AEL6000 Expansion Module, Onsite Installation and Configuration, zone 1** *Required for all expansion modules, including Storage Expansion Modules, Drive Ready Expansion Modules, and High-Density Expansion Modules. Additional installation charges may apply for options within an expansion module such as redundant power. Quantity must match the quantity of all expansion modules. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					1406	1125	1125			
		Expansion Module Conversions - Upgrades										
	SSC6K-NSDN-0001	**Quantum Scalar i6000 and AEL6000 Storage Module to Drive Ready Expansion Module Conversion, Onsite Installation and Configuration, zone 1** *Installation of hardware conversion kit. Quantity must equal the number of modules being converted. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					1406	1125	1125			
	SSC6K-NNTS-0001	**Quantum Scalar i2000/i6000 and AEL6000 Control Module and Drive Ready Expansion Module Upgrade, Native Fibre Channel to Storage Networking Conversion Kit, Installation and Configuration, zone 1** *Required for each Native Fibre Channel to Storage Networking Conversion Kit ordered. Quantity must match the quantity of conversion kits ordered. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					1563	1250	1250

		Import/Export Stations - Upgrades										
	SSC6K-NIES-0241	**Quantum Scalar i6000 and AEL6000 Import/Export (I/E) Station, Onsite Installation and Configuration, zone 1** *Installation service must be added for each I/E station IN EXCESS of the number of Expansion Module (Storage Expansion, Drive Ready Expansion or High-Density Expansion) on the order. For example, if order includes three I/E stations and one Expansion Module, two installation services must be ordered; if order includes three I/E stations and no Expansion Modules, three installation services must be ordered; if order includes two I/E stations and four Expansion Modules, installation service is not required. If I/E station installation is ordered, the order must also include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					781	625	625			
		Power - Upgrades										
	SSC6K-NRPC-0001	**Quantum Scalar i2000/i6000 and AEL6000 Control Module and Drive Ready Expansion Module Redundant (2N) Power Supply, Onsite Installation, zone 1** *Required on all orders with Redundant Power for the Control Module and/or Drive Ready Expansion Module. Quantity should equal the number of Redundant Power options ordered. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					313	250	250			
	SSC6K-NRPH-0001	**Quantum Scalar i6000 and AEL6000 High-Density Expansion Module Redundant (2N) Power Supply, Onsite Installation, zone 1** *Required for all orders with redundant power. Quantity should equal the number of High-Density Expansion Modules being upgraded. Upgrade orders must also include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					234	187	187			
		Encryption - New Installations and Upgrades										
	SLBBB-NEK1-0001	**Quantum Scalar Key Manager (SKM), Single Server/Site System Installation and Configuration, zone 1** *Includes installation and configuration of SKM on a single server at a single site. If this item is ordered, the installation and configuration of the secondary server is also required and must be ordered separately. This service is optional for the SKM Appliance. Also includes library configuration steps necessary to connect to the primary SKM. If the key management installation and configuration service is related to a new system installation, system installation service must also be ordered. For configurations outside this scope, refer to the Customized System Integration Service.*					2500	2000	2000			
	SLBBB-NEK2-0001	**Quantum Scalar Key Manager (SKM), Additional Server/Same Site/Same Trip System Installation and Configuration, zone 1** *Includes installation and configuration of SKM on an additional server at the same site during the same trip. This service is optional for the SKM Appliance. Also includes library configuration steps necessary to connect to SKM or Q-EKM. Must purchase Key Management Single Server/Site Integration Service (SLBBB-NEK1-000x) as a prerequisite.*					1500	1200	1200			
	SLBBB-NEK3-0001	**Quantum Scalar Key Manager (SKM), Additional Server/Different Site System Installation and Configuration, zone 1** *Includes installation and configuration of SKM on an additional server at a different site. This service is optional for the SKM Appliance. Also includes library configuration steps necessary to connect to SKM or Q-EKM. Must purchase Key Management Single Server/Site Integration Service (SLBBB-NEK1-000x) as a prerequisite.*					2500	2000	2000			
	SSCBB-NQ2S-PB00	**Quantum Q-EKM to Scalar Key Migration Service, WebEx Installation and Configuration, all zones** *Requires a Gen2 library (robot and electronics). Includes remote, WebEx key migration service, moving encryption keys from one instance of Q-EKM to one instance of SKM. Installation of SKM, SKM library license keys and SKM installation sold separately.*					1000	800	800			
	SSCBB-NQ2S-0001	**Quantum Q-EKM to Scalar Key Migration Service, Onsite Installation and Configuration, zone 1** *Requires a Gen2 library (robot and electronics). Includes onsite key migration service, moving encryption keys from one instance of Q-EKM to one instance of SKM. Installation of SKM, SKM library license keys and SKM installation sold separately.*					2500	2000	2000			
		I/O Blades - Upgrades										
	SSC6K-NBLN-0001	**Quantum Scalar i6000 and AEL6000 Blade, Onsite Installation and Configuration, zone 1** *Required for installation of I/O Blades on all orders, Ethernet Expansion Blades (EEBs) and Management Control Blades (MCB2) in existing libraries. The installation of the MCB2 Blade will convert a Scalar i2000 to a Scalar i6000 Library. Quantity must match the number of blades ordered. Upgrade orders must also include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					938	750	750			
		Dual Robot - Upgrades										
	SSC6K-NDRU-0001	**Quantum Scalar i6000 and AEL6000 Dual Robot Upgrade, Onsite Installation and Configuration, zone 1** *Required on all orders with the Dual Robot upgrade. Includes installation and configuration of the Left Parking Module with a 2nd generation robot. Upgrade orders must include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					2500	2000	2000			
		Aisle Lights and Web Cameras - New Installations and Upgrades										
	SSC6K-NALK-0001	**Quantum Scalar i6000 and AEL6000 Web Camera or Field Upgrade Aisle Light, Onsite Installation, zone 1** *This installation service is required for each web camera ordered for new system and/or upgrade orders, and also required for each aisle light added for upgrade orders (aisle lights will be installed in the module(s) at no charge for new system orders). All upgrades of existing systems must also include one Base Upgrade Installation and Configuration (SSC6K-NUBN-000x).*					156	125	125			
		Other Services										
N	SSC6K-NLHC-SL1A	**Quantum Enterprise Library Health Check, Silver (monthly remote log reviews), for Scalar i2000, Scalar i6000 or StorNext AEL 6000, annual subscription** *Monthly remote proactive detailed log review analysis. This includes detailed log review, media review, library components, configuration settings, firmware levels, and system usage. Detailed report provided to the customer upon completion.*					4600	4140	4140			
N	SSC6K-NLHC-GL1A	**Quantum Enterprise Library Health Check, Gold (two onsite per year with monthly remote log reviews), for Scalar i2000, Scalar i6000 or StorNext AEL 6000, annual subscription** *Full onsite physical health check of library with full log analysis twice a year. This also includes monthly remote detailed log review analysis. Includes media review, library components, robotics, drives, configuration settings, firmware levels and system usage. Detailed report provided to the customer upon completion.*					8500	7650	7650			
N	SSC6K-NLHC-001A	**Quantum Enterprise Library Health Check, one-time event, for Scalar i2000, Scalar i6000 or StorNext AEL 6000** *Full onsite physical health check of library with full log analysis. This also includes detailed log review, media review, library components, robotics, drives, configuration settings, firmware levels and system usage. Detailed report provided to the customer upon completion.*					2200	1980	1980			
	SSC6K-RTSA-NR10	**Quantum Scalar i6000/i2000 and AEL6000, Non-Returnable Tape Drive Charge, per drive; Support Plan, Fee; annual, all zones** *Add this surcharge as another line item per Drive Installed in a Scalar i6000/i2000 or AEL6000 at a secure site. capacity. This option is available if applicable device is under warranty or covered by a valid Quantum service agreement.*					1249			1187	1124	
	SLBBB-ADSS-0001	**Quantum Dark Site Support Charge; Miscellaneous Support, Fee; annual, zone 1** *Add this surcharge as another line item for customers who have unattended "dark" sites that require additional non-mission critical support visits. Service Contracts is required to add this item.*					5000	4500	4500			
		Quantum StorNext AEL6000 Archive Service Uplifts										
		Base Systems										
	SSNDA-L004-CB11	**Quantum StorNext AEL6000 Archive, 400 licensed slots, no tape drives, no library expansion modules; Support Plan, Bronze (5x9xNBD CRU); Uplift, annual, zone 1** *AEL6000 support must be purchased at an equivalent service level and co-terminated with other StorNext products. Support covers all items included with the base system. Support for any add-on options must also be purchased at an equivalent service level and co-terminated with the StorNext products. Bronze support requires self installation of Customer Replaceable Units (CRUs). If customer would like Quantum to provide installation of CRUs, order Onsite Installation of CRUs service option (SSNDA-VS00-CB1x) and SSNDA-VS12-CB1x for each set of 12 drives in excess of 12.*					31680	28512	28512			
	SSNDA-L004-CD11	**Quantum StorNext AEL6000 Archive, 400 licensed slots, no tape drives, no library expansion modules; Support Plan, NBD Gold (7x24xNBD CRU); Uplift, annual, zone 1** *AEL6000 support must be purchased at an equivalent service level and co-terminated with other StorNext products. Support covers all items included with the base system. Support for any add-on options must also be purchased at an equivalent service level and co-terminated with the StorNext products. NBD Gold support requires self installation of Customer Replaceable Units (CRUs). If customer would like Quantum to provide installation of CRUs, order Onsite Installation of CRUs service option (SSNDA-VS00-CD1x) and SSNDA-VS12-CD1x for each set of 12 drives in excess of 12.*					34560	31104	31104			

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.

Quantum StorNext Q-Series Storage: StorNext QS2400 Storage

StorNext Q-Series appliances are a scalable disk-based storage system optimized for StorNext to manage high-performance concurrent workflows. StorNext's integrated archiving and tiering capabilities provide users with a cost-effective solution to archive and protect their data, while still ensuring access when they need it. Available in different models, the StorNext Q-Series is designed to deliver a blend of performance, scalability, and density.

Quantum StorNext Data Management Software

Scale out storage solutions powered by StorNext software are available two ways: as an integrated appliance from Quantum, or, for select reseller partners or markets that have unique requirements, as software only. StorNext powered appliances, such as Xcellis Workflow Directors, are the ideal way to experience the benefits appliances deliver.

StorNext software has two basic parts: the StorNext file system (required for any configuration) and Storage Manager.

Whether appliance-based or software only, all StorNext file system solutions are a combination of standard and optionally licensed features. Standard features include StorNext clients, which are the end-user systems that connect to the StorNext file system. Clients can be connected via Storage Area Network (SAN) for performance-sensitive workflows. Local Area Network (LAN) clients connect to a file system using StorNext Distributed LAN Client (DLC) software over Ethernet to a gateway. Supported clients range from Red Hat EL, CentOS, SUSE and other Linux distributions to several versions of Microsoft Windows. Clients are priced per client depending on the client type.

StorNext Storage Manager provides automated, policy-driven space optimization and protection for the contents of StorNext file systems. Storage Manager is licensed based on capacity. Licenses are available in two types: perpetual and subscription. Perpetual licenses never expire and are available in two forms: one for Quantum LTO "slots" and another for use with third-party libraries from IBM, SpectraLogic and other vendors. Subscription licenses permit customers to purchase Storage Manager capacity for a period. Unless renewed or expanded, subscription license will expire. To determine the proper amount of Storage Manager capacity required, sum the amount of capacity consumed by all copies of archived data on ALL archive tiers. Once the amount of archival storage is known, you can then determine whether to purchase perpetual or subscription licenses. StorNext Storage Manager and StorNext AEL Archives are options for use with a StorNext file system that stores a copy of data to an archive. A StorNext AEL Archive is a unified solution that combines the archive target and the archive software, as well as data protection features; StorNext Storage Manager is archiving software for use with Quantum Scalar libraries or third party targets. StorNext AEL Archive customers do not need to buy StorNext Storage Manager slot-based licenses for the StorNext AEL Archive.

StorNext has an array of optionally licensed features. Some features require StorNext 6, while some are available for any supported version of StorNext software.

StorNext FX permit the use of Linux and Windows clients when attached to an Apple Xsan server. FX is licensed and priced per client.

All licensed components of an environment must be at the same support level and support termination date.

Quantum StorNext 6 Software Only Environments

Quantum StorNext Optional Features

StorNext optional features can be added to a StorNext environment. All are licensed components.

Advanced Integrity Module Data Movement Integrity Check Option: Confirms the quality of data being retrieved from secondary storage. One license is needed to activate the Data Movement Integrity Check option.

Storage Disk Option: A target for Secondary Storage. One license is needed to activate Storage Disk and use this as a target for Storage Manager policies.

Vaulting Option: Applies to data moved to a Secondary Storage target, but data not resident in the tape library. Once license is needed to activate Vaulting.

Change	Model Number	Description	COO	Package Dimensions WxHxD, in (cm)	Package Weight, lbs (kg)	UPC	MSRP/List Price	Sug Gold/Silver VAR Price	Sug Gold/Silver VAR QDR Price	Gold/Silver VAR Price	Gold/Silver VAR QDR Price	Warranty*
	WSNSE-URAA-001A	**Quantum, StorNext, Archive Conversion Utility (ACU), Licensable Feature** *This option is only available as part of a Quantum Professional Services engagement. Contact Professional Services for a statement of work and quote a SAM-QFS to StorNext Storage Manager migration project. The Archive Conversion Utility (ACU) option is licensed per each metadata controller that will read non-Storage Manager tape media. Requires StorNext 6.0.5 and later. Also requires the purchase of a Storage Manager capacity license and related support.*	US				**20000**	19000	12000			
	WSNSE-ALAS-001A	**Quantum StorNext Alternate Store Location License** *Enables the use of StorNext Alternate Store Location option. License required for StorNext 5.3.1 and later releases. Price is per metadata controller whose files will be copied to a remote StorNext target system. Requires Storage Manager managed file system for sending and target sites. Each license requires the purchase of StorNext Alternate Store Location, Initial On-site Installation, same time as File System and Storage Manager, Professional Services (SSNSE-NLAS-000x) and StorNext Alternate Store Location Software Support Plan (SSNSE-SLAS-xx10) which are priced separately.*	US	0x0x0 (0x0x0)	0 (0)		**7500**	7125	4500			
	WSNSE-URMZ-000A	**Quantum StorNext Distributed Data Mover Option, StorNext File System and StorNext Storage Manager** *Available only for StorNext 4.0 or later. Distributed Data Mover Option is licensed for each Remote Server where the Distributed Data Mover client is installed. It is recommended for best performance that each Distributed Data Mover be configured for four tape/disk devices. Requires StorNext File System and StorNext Storage Manager.*	US	0x0x0 (0x0x0)	0 (0)		**15000**	14250	9000			
D	~~WSNSE-ALFB-001A~~	~~**Quantum StorNext 6, FlexSpace Data Management Service, Annual Subscription, per TB per year**~~	~~US~~	~~0x0x0 (0x0x0)~~	~~0 (0)~~		~~**50**~~	~~48~~	~~30~~

	WSNSE-ALFN-001A	**Quantum StorNext FlexSync, Licensable Feature** *May not be sold for installation in Belarus, Kazakhstan or Russia. Use this model number to create a new StorNext FlexSync data protection solution. For use with StorNext 6 and later releases. The FlexSync license allows the configuration, use and monitoring of a FlexSync solution. Order one FlexSync license for protecting a locally mounted file system(s) mounted to a supported appliance. FlexSync configurations that replicate data to a remote system destination require the purchase of a FlexSync license for the source and destination systems. At least one FlexSync is required. To determine the number of FlexSync licenses to order, add one to the total number of remote (WAN or LAN connected) destination systems. For example, a FlexSync solution for replicating data to two remote, network-connected destination targets requires the purchase of three FlexSync licenses (one for the source and one for each of the two remote destination targets). License price is per Xcellis Workflow Director, Xcellis Workflow Extender, or M-series appliance. FlexSync cannot be used with managed source or destination file systems. Requires the purchase of Quantum StorNext FlexSync software support (SSNSE-SFSB-xL10), which is priced separately.*	US	0x0x0 (0x0x0)	0 (0)		**15000**	14250	9000			
	WSNSE-URHA-000A	**Quantum StorNext High Availability License Option** *Available only for StorNext 4.0 or later. High Availability Option is licensed for each StorNext environment that will operate in failover mode. One license is needed for each Metadata Controller pair that operates in a high availability configuration. Re.*	US	0x0x0 (0x0x0)	0 (0)		**7500**	7125	4500			
	WSNSE-UMDC-001A	**Quantum StorNext Metadata Controller Multi-Mount Option** *Optional configuration license fee for mounting an additional StorNext Metadata Controller (MDC) from a single SAN client. Fee is per additional StorNext MDC (serial number) that is mounted. Customer must reference in the order the existing serial number(s) and client count. All environments multi-mounted together must be on the equivalent support service level and have the same support contract termination date.*	US	0x0x0 (0x0x0)	0 (0)		**1500**	1500	1500

		Quantum StorNext StorageCare Learning										
CI	ESNSE-AFSA-C03A	**StorNext File System Administration (1-3567 Instructor-Led Training) (Physical Classroom or Virtual Classroom)** *This course (1-3567) is three days long and is intended for end-users, Quantum Service Partners (QSPs), and Quantum team members who need training on StorNext File System only. If training is needed for both StorNext File System and StorNext Storage Manager, register for the "StorNext File System and Storage Manager Administration (1-3587 Instructor-Led Training)" course instead of this course. Students can register for either the physical classroom training option that is taught at a Quantum Training Facility or for the remote option that is taught through a virtual classroom session. Both are live and instructor-led. This course provides students hands-on practice performing key configuration, administration, and support tasks in the StorNext graphical user interface (GUI) and command line interface (CLI) while being guided by an instructor. The tasks include: configuring StorNext; using tools and commands; installing and configuring clients; identifying allocation behaviors; detecting and resolving fragmentation issues; using buffering to enhance performance; interpreting performance trace logging; configuring Quality of Service (QoS); managing a high availability (HA) environment; and performing diagnostics. Suggested Prerequisite training: It is recommended to have experience with the Linux operating system, storage area networks (SANs), and disk systems. It is also recommended to complete the "The Basics of StorNext Concepts and Architecture (1-4564 Online Self-Paced)" course prior to the first day of class. Quantum Service Partners (QSPs) and Quantum team members can access this course in StorageCare Learning. End-user customers can access this free online course by going to the StorNext 6 Documentation Center (www.quantum.com/snsdocs) and selecting the Learn menu. Depending on their environment, end-user customers may also be interested in additional Quantum product documentation and free online training available from our product documentation centers (www.quantum.com/documentation).*	US	0x0x0 (0x0x0)	0 (0)		2100	1890	1890			
CI	ESNSE-ASSM-C05A	**StorNext File System and Storage Manager Administration (1-3587 Instructor-Led Training) (Physical Classroom or Virtual Classroom)** *This course (1-3587) is four days long and is intended for end-users, Quantum Service Partners (QSPs), and Quantum team members who need training on both StorNext File System and StorNext Storage Manager. Students can register for either the physical classroom training option that is taught at a Quantum Training Facility or for the remote option that is taught through a virtual classroom session. Both are live and instructor-led. This course provides students with hands-on practice performing key configuration, administration, and support tasks in the StorNext graphical user interface (GUI) and command line interface (CLI) while being guided by an instructor. The tasks include: configuring StorNext; defining storage policies; using tools and commands; managing files; performing library and media operations; installing and configuring clients; managing a high availability (HA) environment; and performing diagnostics. Suggested Prerequisite training: It is recommended to have experience with the Linux operating system, storage area networks (SANs), and disk systems. It is also recommended to complete the "The Basics of StorNext Concepts and Architecture (1-4564 Online Self-Paced)" course prior to the first day of class. Quantum Service Partners (QSPs) and Quantum team members can access this course in StorageCare Learning. End-user customers can access this free online course by going to the StorNext 6 Documentation Center (www.quantum.com/snsdocs) and selecting the Learn menu. Quantum Software Support Plans: Overview

A Quantum software support plan is recommended. Software updates are included when covered by a software support plan.

SILVER SOFTWARE SUPPORT PLAN: 5x9 Telephone Response - Provides telephone support Monday through Friday (5 days a week), during local business hours (8:00AM – 5:00PM). Customers may log a support request any time, but troubleshooting activities will take place during this time frame.

GOLD SOFTWARE SUPPORT PLAN: 7x24 Telephone Response - Provides telephone support Monday through Sunday (7 days a week) and 24 hours per day. Customers may call and receive assistance at any time.

PLATINUM SOFTWARE SUPPORT PLAN: A customized support plan with response times tailored to customers' requirements. Please contact your Quantum Sales Representative for further details.

	SLAXA-SS30-CB11	**Quantum Lattus S30 Storage Node with Twelve 6TB Raw Drives; Support Plan, Bronze (5x9xNBD CRU); annual, zone 1** *Bronze support requires self installation of Customer Replaceable Units (CRUs). If customer would like Quantum to provide installation of CRUs, order Quarterly Onsite Installation of CRUs service option (SLAXA-QB06-CB1x).*					1035			983	932	
	SLAXA-SS30-CD11	**Quantum Lattus S30 Storage Node with Twelve 6TB Raw Drives; Support Plan, NBD Gold (7x24xNBD CRU); annual, zone 1** *NBD Gold support requires self installation of Customer Replaceable Units (CRUs). If customer would like Quantum to provide installation of CRUs, order Quarterly Onsite Installation of CRUs service option ((SLAXA-QB06-CD1x).*					1150			1093	1035	
	SLAXA-SS30-CG11	**Quantum Lattus S30 Storage Node with Twelve 6TB Raw Drives; Support Plan, Gold (7x24x4 CRU); annual, zone 1** *Gold support provides onsite installation of Customer Replaceable Units (CRUs) by Quantum at no additional charge.*					1495			1420	1346	
	SLAXA-SS50-CB11	**Quantum Lattus S50 Storage Node with Twelve 10TB Raw Drives; Support Plan, Bronze (5x9xNBD CRU); annual, zone 1** *Bronze support requires self installation of Customer Replaceable Units (CRUs). If customer would like Quantum to provide installation of CRUs, order Quarterly Onsite Installation of CRUs service option (SLAXA-QB06-CB1x).*					1755			1667	1580	
	SLAXA-SS50-CD11	**Quantum Lattus S50 Storage Node with Twelve 10TB Raw Drives; Support Plan, NBD Gold (7x24xNBD CRU); annual, zone 1** *NBD Gold support requires self installation of Customer Replaceable Units (CRUs). If customer would like Quantum to provide installation of CRUs, order Quarterly Onsite Installation of CRUs service option ((SLAXA-QB06-CD1x).*					1950			1853	1755	
	SLAXA-SS50-CG11	**Quantum Lattus S50 Storage Node with Twelve 10TB Raw Drives; Support Plan, Gold (7x24x4 CRU); annual, zone 1** *Gold support provides onsite installation of Customer Replaceable Units (CRUs) by Quantum at no additional charge.*					2145			2038	1931	
		Lattus Switch Support Plans										
	SLAXA-SSRX-CB11	**Quantum Lattus S60 Rack Switch, Add-On; Support Plan, Bronze (5x9xNBD); annual, zone 1** *Includes 5x9xNBD onsite repair/replacement of S60 Rack Switch. Order one for each S60 Rack Switch in Lattus base systems covered by a Bronze Support Plan.*					2520			2394	2268	
	SLAXA-SSRX-CD11	**Quantum Lattus S60 Rack Switch, Add-On; Support Plan, NBD Gold (7x24xNBD); annual, zone 1** *Includes 7x24xNBD onsite repair/replacement of S60 Rack Switch. Order one for each S60 Rack Switch in Lattus base systems covered by a Next Business Day Gold Support Plan.*					2800			2660	2520	
	SLAXA-SSRX-CG11	**Quantum Lattus S60 Rack Switch, Add-On; Support Plan, Gold (7x24x4); annual, zone 1** *Includes 7x24x4 onsite repair/replacement of S60 Rack Switch. Order one for each S60 Rack Switch in Lattus base systems covered by a Gold Support Plan.*					3640			3458	3276	
	SLAXA-SSR5-CB11	**Quantum Lattus S55 Rack Switch, Add-On; Support Plan, Bronze (5x9xNBD); annual, zone 1** *Includes 5x9xNBD onsite repair/replacement of S55 Rack Switch. Order one for each S55 Rack Switch in Lattus base systems covered by a Bronze Support Plan.*					1260			1197	1134	
	SLAXA-SSR5-CD11	**Quantum Lattus S55 Rack Switch, Add-On; Support Plan, NBD Gold (7x24xNBD); annual, zone 1** *Includes 7x24xNBD onsite repair/replacement of S55 Rack Switch. Order one for each S55 Rack Switch in Lattus base systems covered by a Next Business Day Gold Support Plan.*					1400			1330	1260	
	SLAXA-SSR5-CG11	**Quantum Lattus S55 Rack Switch, Add-On; Support Plan, Gold (7x24x4); annual, zone 1** *Includes 7x24x4 onsite repair/replacement of S55 Rack Switch. Order one for each S55 Rack Switch in Lattus base systems covered by a Gold Support Plan.*					1820			1729	1638	
	SLAXA-SSSY-CB11	**Quantum Lattus System Switch with four 10GbE SFPs, Add-On; Support Plan, Bronze (5x9xNBD); annual, zone 1** *Includes 5x9xNBD onsite repair/replacement of System Switch. Order one for each System Switch in Lattus base systems covered by a Bronze Support Plan.*					6300			5985	5670	
	SLAXA-SSSY-CD11	**Quantum Lattus System Switch with four 10GbE SFPs, Add-On; Support Plan, NBD Gold (7x24xNBD); annual, zone 1** *Includes 7x24xNBD onsite repair/replacement of System Switch. Order one for each System Switch in Lattus base systems covered by a Next Business Day Gold Support Plan.*					7000			6650	6300	
	SLAXA-SSSY-CG11	**Quantum Lattus System Switch with four 10GbE SFPs, Add-On; Support Plan, Gold (7x24x4); annual, zone 1** *Includes 7x24x4 onsite repair/replacement of System Switch. Order one for each System Switch in Lattus base systems covered by a Gold Support Plan.*					9100			8645	8190	
	SLAXA-SSFP-CB11	**Quantum Lattus 10GbE SFP for System or Interconnect Switch, Add-On; Support Plan, Bronze (5x9xNBD); annual, zone 1** *Includes 5x9xNBD onsite repair/replacement of 10GbE SFP for System or Interconnect Switch. Order one for each SFP in Lattus base systems covered by a Bronze Support Plan.*					50			48	45

Express SAS Host Adapters

| CI | HAABB-AATE-H12A | **ATTO Technology Express SAS H1244 12Gb/s SAS/SATA to PCIe 3.0, 4-Port External 4-Port Internal, SAS Host Bus Adapter** *The ExpressSAS H1244 leverages next-generation storage technologies - PCIe 3.0 host interconnect and 12Gb/s SAS/SATA interface to storage. Ideal for server storage with JBOD expansion while still providing low latency and high-bandwidth transfers. Includes four external and four internal ports using the latest mini-SAS HD connector. Although the HBA supports four devices, THERE IS ONLY A SINGLE EXTERNAL SFF-8644 MINI-SAS CONNECTOR. Therefore, a multipoint SAS cable (e.g., 9-05577-01, 9-05523-01 or 9-05576-01 may be required to connect multiple devices).* | US | 10x7x2 (25.4x17.8x5.1) | 1 (0.45) | | 500 | 450 | 400 | | | MFG |

Thunderbolt Desktop Devices

| | HAABB-AATT-082A | **ATTO Technology TLFC-2082-D00 20 Gb/s Thunderbolt 2 8Gb FC Desklink Device** *Enables storage connectivity for Fibre Channel devices for Thunderbolt enabled hosts. ThunderLink products are focused on professional audio and video markets where performance and latency management are key. DataFrameworks ClarityNow

DataFrameworks ClarityNow Software

	CN-SERVER-SUB	**DataFrameworks ClarityNow, software subscription, per year** *A single year software subscription license and maintenance for installation on a single server. To purchase multiple years of service, purchase multiple quantities of this item. Requires purchase of DataFrameworks Capacity for ClarityNow (CN-TIB-SUB). Requires the use of a customer provided server and customer provided server hostname. Not compatible with DataFrameworks Capacity for ClarityNow with Data Mover (CN-TIBDM-SUB). Optional DataFrameworks Duplicate Finder Plug-in (CN-P-DUPFIND-SUB) and DataFrameworks Audited Delete (CN-P-AUDITDEL-SUB) Plug-in are available. Optional training (PS-Train) and professional installation services (PS-DFX) are available. DataFrameworks provides all support. Use this part number for yearly renewals. Renewal will extend the existing expiration date. When installing in an environment requiring multiple DataFrameworks ClarityNow servers, order multiple line items of this part or create separate POs with a matching capacity licenses of DataFrameworks Capacity License for ClarityNow. The capacity covered on all server instances must match.*	US	0x0x0 (0x0x0)	0 (0)		7500	6375	5250			
	CN-TIB-SUB	**DataFrameworks Capacity License for ClarityNow, per TiB, for one year** *Required for functionality of DataFrameworks ClarityNow, software subscription (CN-SUB). Purchase quantity is based on the number of TiB of files being monitored by ClarityNow. Cannot be mixed with DataFrameworks ClarityNow with Data Mover (CN-TIBDM-SUB). The license duration will match the subscription end date of the DataFrameworks ClarityNow subscription. Renewals will coincide with a renewal the renewal of the DataFrameworks ClarityNow subscription. Additional capacity can be added at any time without a subscription renewal. Capacity licensing is calculated using TiB not TB.*	US	0x0x0 (0x0x0)	0 (0)		24	20	17			
	CN-SERVERDM-SUB	**DataFrameworks ClarityNow with Data Mover, software subscription, per year** *A single year software subscription license and maintenance for installation on a single server. Media

NOTE: For NAM/APAC/LAM, the QDR Price is the "Media Breakthrough" bundled price that applies when media is ordered at the same time as a library system. Please refer to the latest "Media Breakthrough" Marketing Announcement for more information.

For EMEA, when pricing is displayed in EUR or GBP, media prices use the media currency exchange rate in effect during the month the price book was published. Refer to separately published EMEA media pricing in subsequent months for updated EUR and GBP pricing.

N	EDY47-AGTK-C01A	**Getting to Know Your DXi4700 (1-8200 ILT Virtual)** *Order one per student. This course (1-8200) is a half day long. Learn about your DXi4700, including an overview of the installation and initial configuration process and a discussion about the top FAQs that we hear from customers. DXi-Series Introduction and Walkthrough Learn about the DXi deduplication appliances. You will learn some key core concepts and best practices, and how to use the DXi GUI. DXi4700 Installation and Initial Configuration video Learn about the DXi4700 installation by being guided through the installation process. The major topics are pre-installation setup, hardware installation, and initial configuration. DXi Advanced Reporting Essential Training Learn about the DXi Advanced Reporting features and how it can be used to monitor the operation and performance of DXi deduplication appliances.*	US				500	450	450			
N	EDYBB-AGTK-C01A	**Getting to Know Your DXi-Series Deduplication Appliances (1-8201 ILT Virtual)** *Order one per student. This course (1-8201) is a half day long. Learn about your DXi deduplication appliance, whether that's a DXi6900 or another DXi system. The training also includes a discussion about the top FAQs that we hear from customers. DXi-Series Introduction and Walkthrough Learn about the DXi deduplication appliances. You will learn some key core concepts and best practices, and how to use the DXi GUI. DXi Advanced Reporting Essential Training Learn about the DXi Advanced Reporting features and how it can be used to monitor the operation and performance of DXi deduplication appliances.*	US				500	450	450			
N	EQABB-AGTK-C01A	**Getting to Know Your QXS-3/4/6 Storage (1-8300 ILT Virtual)** *Order one per student. This course (1-8300) is a half day long. Learn about your QXS storage, including a discussion about the top FAQs that we hear from customers. QXS-3/4/6 Hardware Overview Learn about Quantum's QXS-3/4/6 storage by getting an overview of Quantum's QXS-3/4/6 systems and the various QXS models, including the hardware and cabling. You will also learn about the various features and licenses. QXS-3/4/6 Installation and Configuration Learn about the installation by being guided through the QXS installation process, from hardware installation through configuration, and including basic troubleshooting steps. QXS Storage Concepts and Management Learn about the linear and virtual storage architectures offered by QXS Hybrid Storage, features enabled by QXS virtual storage, and the management of storage using the GUI and CLI. QXS Licenses and Features of Virtual Storage Learn about the license acquisition and installation process, as well as brief descriptions of the following QXS licenses: Q-Tier, Q-Snap, Q-Replicate, and Q-Copy. Also learn about Q-Tools, which is a collection of standard features made available by virtual storage. These features include SSD read cache, thin provisioning, automatic pooling, and RAID rapid rebuilds. QXS Licensed Features: Q-Replicate Learn about Q-Replicate with a step-by-step overview of the replication process, including an examination the procedures performed on the host, on the local QXS, and on the remote QXS.*	US				500	450	450

N	ESC3A-AGTK-C01A	**Getting to Know Your Scalar i3 and Scalar i6 (1-8100 ILT Virtual)** *Order one per student. This course (1-8100) is a half day long. Learn about the Scalar i3 and Scalar i6 by getting a virtual tour of the library, reviewing the stackability configurations, and locating and discussing the components and their features. You will learn about the installation options, how to use the WebGUI to configure and manage your library, and how coordinates work so you can easily locate drives, slots and media in your library. You will learn about CRUs and how to locate the instructions if needed. You will also discuss the top FAQs that we hear from customers.*	US				500	450	450			
N	ESC5H-AEST-C01A	**Scalar i500 Essential Training (1-8102 ILT Virtual)** *Order one per student. This course (1-8102) is a half day long. Learn about the Scalar i500 by getting an overview of the library components, installation, basic connectivity, maintenance, and basic operations. You will learn how to use the WebGUI to operate, configure, and manage your library. You will also discuss the top FAQs that we hear from customers.*	US				500	450	450			
N	ESC6K-AEST-C01A	**Scalar i6000 Essential Training (1-8101 ILT Virtual)** *Order one per student. This course (1-8101) is a half day long. Learn about the Scalar i6000 by getting an overview of the Scalar i6000 and its components. You will learn how to use the WebGUI and Library Management Console to operate, configure, and manage your library. You will learn about cell locations and element addressing for identifying slots and drives. You will learn how to perform some key administrative tasks such as creating/modifying partitions, setting up control paths/LUN mapping, mapping I/O blades, and setting up access groups. You will also discuss the top FAQs that we hear from customers.*	US				500	450	450			
CI	ESNSE-AFSA-C03A	**StorNext File System Administration (1-3567 Instructor-Led Training) (Physical Classroom or Virtual Classroom)** *This course (1-3567) is three days long and is intended for end-users, Quantum Service Partners (QSPs), and Quantum team members who need training on StorNext File System only. If training is needed for both StorNext File System and StorNext Storage Manager, register for the "StorNext File System and Storage Manager Administration (1-3587 Instructor-Led Training)" course instead of this course. Students can register for either the physical classroom training option that is taught at a Quantum Training Facility or for the remote option that is taught through a virtual classroom session. Both are live and instructor-led. This course provides students hands-on practice performing key configuration, administration, and support tasks in the StorNext graphical user interface (GUI) and command line interface (CLI) while being guided by an instructor. The tasks include: configuring StorNext; using tools and commands; installing and configuring clients; identifying allocation behaviors; detecting and resolving fragmentation issues; using buffering to enhance performance; interpreting performance trace logging; configuring Quality of Service (QoS); managing a high availability (HA) environment; and performing diagnostics. Suggested Prerequisite training: It is recommended to have experience with the Linux operating system, storage area networks (SANs), and disk systems. It is also recommended to complete the "The Basics of StorNext Concepts and Architecture (1-4564 Online Self-Paced)" course prior to the first day of class. Quantum Service Partners (QSPs) and Quantum team members can access this course in StorageCare Learning. End-user customers can access this free online course by going to the StorNext 6 Documentation Center (www.quantum.com/snsdocs) and selecting the Learn menu. Depending on their environment, end-user customers may also be interested in additional Quantum product documentation and free online training available from our product documentation centers (www.quantum.com/documentation).*	US	0x0x0 (0x0x0)	0 (0)		2100	1890	1890			
CI	ESNSE-AFSP-C01A	**StorNext File System Performance Tuning for Storage Manager (1-3568 Instructor-Led Training) (Virtual Classroom)** *This course is one day long and is intended for end-users, Quantum Service Partners (QSPs), and Quantum team members who have completed the StorNext File System and Storage Manager Administration (1-3587 Instructor-Led Training) course and who need additional StorNext performance tuning training. This course is available only as a virtual classroom course. It gives students hands-on practice with key allocation and performance tuning tasks while being guided by an instructor. The tasks include: identifying file allocation behaviors; detecting and resolving fragmentation issues; using buffering to enhance performance; interpreting performance trace logging; and configuring Quality of Service (QoS). Required Prerequisite: "StorNext File System and Storage Manager Administration (1-3587 Instructor-Led Training)". Suggested Prerequisite training: It is recommended to have experience with the Linux operating system, storage area networks (SANs), and disk systems. Depending on their environment, end-user customers may also be interested in additional Quantum product documentation and free online training available from our product documentation centers (www.quantum.com/documentation).*	US				700	630	630			
CI	ESNSE-ASSM-C05A	**StorNext File System and Storage Manager Administration (1-3587 Instructor-Led Training) (Physical Classroom or Virtual Classroom)** *This course (1-3587) is four days long and is intended for end-users, Quantum Service Partners (QSPs), and Quantum team members who need training on both StorNext File System and StorNext Storage Manager. Students can register for either the physical classroom training option that is taught at a Quantum Training Facility or for the remote option that is taught through a virtual classroom session. Both are live and instructor-led. This course provides students with hands-on practice performing key configuration, administration, and support tasks in the StorNext graphical user interface (GUI) and command line interface (CLI) while being guided by an instructor. The tasks include: configuring StorNext; defining storage policies; using tools and commands; managing files; performing library and media operations; installing and configuring clients; managing a high availability (HA) environment; and performing diagnostics. Suggested Prerequisite training: It is recommended to have experience with the Linux operating system, storage area networks (SANs), and disk systems. It is also recommended to complete the "The Basics of StorNext Concepts and Architecture (1-4564 Online Self-Paced)" course prior to the first day of class. Quantum Service Partners (QSPs) and Quantum team members can access this course in StorageCare Learning. End-user customers can access this free online course by going to the StorNext 6 Documentation Center (www.quantum.com/snsdocs) and selecting the Learn menu. Depending on their environment, end-user customers may also be interested in additional Quantum product documentation and free online training available from our product documentation centers (www.quantum.com/documentation).*	US	0x0x0 (0x0x0)	0 (0)		2800	2520	2520			
N	EXCBB-AGTK-C01A	**Getting to Know Your Xcellis Workflow Director, Xcellis Workflow Extender, Xcellis Foundation, and Artico Archive Gateway (1-8400 ILT Virtual)** *Order one per student. This course (1-8400) is one day long. Learn about your Xcellis or Artico, including a discussion about the top FAQs that we hear from customers. The Basics of StorNext Concepts and Architecture Learn about Quantum StorNext and the fundamental concepts behind it. You will also be guided through several customer deployment scenarios to learn how StorNext, along with other Quantum scale-out storage products, can improve business workflows. Basics of Quantum Appliances (R630) Xcellis Workflow Director, Xcellis Foundation, Xcellis Workflow Extender, and Artico Archive Gateway Learn about the appliances by getting an overview of the Xcellis Workflow Director, Xcellis Foundation, Xcellis Workflow Extender, and Artico Archive Gateway appliances. All of these appliances use the same server hardware, the R630. However, they are configured differently and serve different purposes as you will learn. The Basics of StorNext Connect Learn about StorNext Connect by getting an overview of the StorNext Connect software and how it's used to simplify the monitoring, and management of StorNext environments.*	US				700	630	630			
N	EXCBB-ANCT-C01A	**Advanced Xcellis Workflow Director, Xcellis Foundation, and Artico Archive Gateway (R630) Installation and Configuration Training (1-8401 ILT Virtual)** *Order one per student. This course (1-8401) is one day long. Learn about your Xcellis or Artico, including a discussion about the top FAQs that we hear from customers. Xcellis Workflow Director, Xcellis Foundation, and Artico Archive Gateway (R630) Installation and Configuration Learn about the installation by getting an overview of the key tasks you will perform when installing the Xcellis Workflow Director, Xcellis Foundation, and the Artico Archive Gateway. StorNext Connect Deployment Learn about that tasks required to deploy StorNext Connect on new and previously installed and configured Quantum appliances. StorNext NAS Configuration and Management Learn about the key features of StorNext NAS and the tasks required to configure and manage NAS clusters with the StorNext Connect NAS app and Appliance Controller Console.*	US				700	630	630			

Custom Training

Quantum offers customized training at customer locations. This training can be configured to address specific customer needs for any product or set of products. Such training is provided as described below based on the duration and the number of students. A charge for instructor travel is additional to the cost of the student days. The model number for the travel is indicated below.

PK094NG.xlsm   Page 182 of 186

Warranty and Service Information

Prices for installation; integration; warranty uplifts and extensions; and post-warranty service renewals are listed at the end of each product section.

Maintenance services may be purchased subject to regional availability and subject to a price uplift for some remote locations, which may not be reflected in this price book. Availability and pricing details are available through a Quantum sales representative

For a list of countries and Service Zones, please refer to the Service Zones table on the Intro worksheet or at the front of a printed price book.

For North America only, the Platinum VAR QDR price for service RENEWALS only applies to approved QDR deals for US Federal end-user customers registered and sold by the Platinum VAR who originally sold the product.

Warranty uplifts, extensions or service renewals sold for Quantum products installed in the United Kingdom will be billed with a Value-Added Tax of 17.5% (or then current rate). Taxes may be applicable in other areas as well. Please consult with your Quantum representative regarding tax charges and include taxes in all quotes where applicable.

A 15% Reactivation Fee may be charged for lapsed warranties and contracts on Quantum products not requiring recertification.

Product Support Plan Definitions

STORAGECARE BRONZE SUPPORT PLAN: Delivers support essentials during business hours, including access to skilled technical support, next business day delivery of replacement parts, and installation of non-customer replaceable components to ensure trouble-free problem resolution.

STORAGECARE NEXT BUSINESS DAY GOLD: Offers around the clock support for busy operations, includes 24x7 technical assistance, proactive remote monitoring, next business day parts delivery, installation of non-customer replaceable components and provisional loaner systems in times of disaster.

STORAGECARE GOLD SUPPORT PLAN: Critical IT environments are always on: nights, weekends and holidays. This support plan provides mission-critical support for fastest resolution, including 24x7 technical assistance, proactive remote monitoring and resolution, priority onsite critical issue response, 24x7 delivery and installation of all replacement parts.

Software Support Plan Definitions

SILVER SOFTWARE SUPPORT PLAN: Designed for customers who want to complement their in house technical capabilities with business hour responsive telephone support. Includes 5x9 Telephone Response – Monday through Friday (5 days a week), during local business hours (8:00M-5:00PM), 24x7 Web support and issue logging, access to all software releases, maintenance releases, and upgrades.

GOLD SOFTWARE SUPPORT PLAN: Delivers around-the-clock support for a business critical or complex IT environment. Includes 24/7 Web and Telephone support and access to all software releases, maintenance releases, and upgrades.

Installations

Unless otherwise noted, installation charges apply on a per-unit basis. Installation/configuration prices are for installations performed during normal business hours, local time, Monday-Friday, except Quantum or local holidays. Unless the item is described as customer installable, installations must be performed by Quantum or a Quantum-authorized service provider. Consult the item note and footnotes for more information about installation requirements.

Installation services may only be purchased for systems that are currently under warranty or service agreement.

Installations/configurations scheduled in advance for times other than normal business hours, local time, Monday-Friday, excluding Quantum or local holidays will be charged at a rate 1.5 times the standard price. Installations/configurations scheduled in advance to occur during Quantum or local holidays will be charged at a rate 2.0 times the standard price.

Service Extensions and Uplifts

Some products offer a service extension option that extends the included support provided with most products (for example, extending a one-year Bronze Level warranty to a three-year period). Customers may also enhance ("uplift") the included support coverage on most products to a higher level of service support (and optionally a longer time period too). An uplift replaces the standard included support with a service contract. Service uplifts and extensions are offered at a discount from the standard renewal pricing and **must be purchased within 60 days of the product purchase date (PO date).** Extended or uplifted service purchased after this point will be priced at the standard renewal rate. Service extension and uplift pricing is listed at the end of each product section.

Field Add-ons and Upgrades

Field add-ons/upgrades added to a system under warranty or a maintenance agreement do not affect the price or duration of the system's coverage. Add-on/upgrade items purchased at the same time as the system <u>must</u> be covered for the duration of and at the same service level as the standard included or uplifted system support. All add-on/upgrade items added to a system after its initial installation must be covered at the same service level as the system they are installed in.

When one or more field add-on/upgrade items (e.g., tape drives, slots, capacity) are added to a configuration under a maintenance agreement, the customer will be charged a pro-rated maintenance charge for the added item(s). The price for the maintenance agreement will be determined by the status of the whole unit (may be renewal pricing). Since price calculations related to existing contracts and expiration dates can be complex, please contact your Quantum Service Sales representative for assistance in determining the correct incremental service charges.

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.
Contact your Quantum sales support representative for details.

Revision 94, Effective: 29OCT18
PK094NG.xlsm   Page 183 of 186

Quantum Professional Onsite Installation and Configuration may be required for adding field add-on/upgrades. Please refer to the relevant product section for guidance.

Warranty and Included Support - Warranty Codes

For information on Quantum's Sales and Support Terms and Conditions governing the purchase, licensing, and provision of Quantum Products, Support Services, and Cloud Services from Quantum, and the limited warranty provided thereon, please refer to **www.Quantum.com/warranty** - Worldwide Sales, Support and Limited Warranty Terms and Conditions.

The warranty period shown for field add-on/upgrade items applies to the item itself only if the system is no longer covered by a warranty or service agreement. If the system is under warranty and service agreement, then the terms and coverage provided by the system warranty and service agreement apply to the field add-on/upgrade item as well. Add-ons/upgrades added to a system under warranty and a service agreement do not affect the price or duration of the system's coverage. Add-on/upgrade items purchased at the same time as the system will be covered for the duration of and at the same service level as the standard or uplifted system warranty. All add-on/upgrade items added to a system after its initial installation must be covered at the same service level as the system they are installed in. If the standard warranty for the add-on/upgrade item to be added to a system after its initial installation is at a lower service level than the system, a service uplift must be purchased for the add-on/upgrade item to cover it at the same service level as the system.

Unless stated otherwise, all warranty programs include telephone support during normal business hours (M-F, 8AM-5PM, local time, except holidays) for the duration of the warranty period.

1yr BL	One-Year Warranty that includes Bronze Level Service delivered on a 5x9xNBD basis. Service Requests (SRs) can be submitted via Quantum's Online Service Request Form or telephone 24x7x365. SRs will receive a response no later than the next business day. Telephone support will include diagnosis of equipment issues, parts replacement, consultative discussion on operation and performance analysis and other matters that might help the customer obtain optimal results using Quantum product in their environment. Replacement Parts will be shipped within one business day of Quantum's determination that a replacement part is required. Customer will perform the replacement and return of all identified CRU components. Identified FRU components will be replaced onsite by a Quantum Field Engineer or Authorized Service Provider, with a next business day onsite response. Onsite support is provided on a Next Business Day (excluding weekends, evenings and holidays) response following determination, by Quantum, that an onsite response is the right action to resolve the equipment or operational problem that led to the creation of the Service Request. Support includes the rights for the customer to receive new software releases applicable to registered equipment under this warranty.
1yr NBD	One-Year Warranty. Service Requests (SRs) can be submitted via Quantum's Online Service Request Form or telephone 24x7x365. SRs will receive a response no later than the next business day. Telephone support will include diagnosis of covered warranty issues and parts replacement. Replacement Parts will be shipped within one business day of Quantum's determination that a replacement part is required. Customer will perform the replacement and return of all identified CRU components. Identified FRU components will be replaced onsite by a Quantum Field Engineer or Authorized Service Provider, with a next business day onsite response.
1yr NBD Gold	One-Year Warranty that includes Next Business Day Gold Level Service delivered on a 24x7xNBD basis. Service Requests (SRs) can be submitted via Quantum's Online Service Request Form or telephone 24x7x365. SRs will receive a response no later than the next business day. Telephone support will include diagnosis of equipment issues, parts replacement, consultative discussion on operation and performance analysis and other matters that might help the customer obtain optimal results using Quantum product in their environment. Replacement Parts will be shipped within one business day of Quantum's determination that a replacement part is required. Customer will perform the replacement and return of all identified CRU components. Identified FRU components will be replaced onsite by a Quantum Field Engineer or Authorized Service Provider, with a next business day onsite response. Onsite support is provided on a Next Business Day (excluding weekends, evenings and holidays) response following determination, by Quantum, that an onsite response is the right action to resolve the equipment or operational problem that led to the creation of the Service Request. Support includes the rights for the customer to receive new software releases applicable to registered equipment under this warranty.
1yr NBD PR	One-year next business day parts replacement. Replacement items will be shipped next business day. Customer will perform the replacement and return of the failed item. All identified FRU components will be replaced onsite by a Quantum Field Engineer or Authorized Service Provider, with a next business day onsite response.
1yr RE	Once a product or Field Replaceable Unit (FRU) has been diagnosed as defective by the Quantum Customer Support Center, Quantum will arrange for shipment of a replacement Product or Part at Quantum's discretion two (2) business days after receipt of the call. Quantum reserves the right to choose, at its sole discretion, Rapid Exchange of the whole unit or failing part. Rapid Exchange shipments REQUIRE a Return Authorization (RA) number from Quantum Customer Support clearly indicated on the outside of the shipping package and shipped to a Quantum-specified receiving location. The customer Must also provide Quantum with a credit card HOLD or another form of Quantum-specified collateral for security purposes. Once the defective Product or Part is received by Quantum, the hold/deposit will be RELEASED.

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas. Contact your Quantum sales support representative for details.

Revision 94, Effective: 29OCT18
PK094NG.xlsm   Page 184 of 186

If a credit card or another form of Quantum-specified collateral is not provided, then the replacement product cannot be sent until defective product has been received by Quantum. In the event the defective Product or Part is not received by Quantum within fourteen (14) business days after the customer has received a replacement Product or Part, Quantum will convert the hold/deposit to a charge. The requestor is responsible for the full retail value of the missing Product or Part. Additionally, the warranty will be void on the Product or Part that Quantum shipped out as part of the Rapid Exchange Program AND the Product or Part that was not returned. Replacement Products or Parts shall be furnished on an exchange basis and may be either new or reconditioned as new.

Removal, shipment to Quantum shipping insurance and loss or damage of the failed Product or Part, as well as the installation and configuration of the replacement Product or Part is the responsibility of the End User. The customer may choose an on-site field call at the then-current price for removal and installation of the replacement Product or Part. Products, Parts and Repairs shipped to the End User by Quantum, shall be freight prepaid by Quantum. Responsibility for loss or damage shall be on Quantum. Quantum shall not be responsible for any handling fees, import duties or tariffs, or delays as a result of customs.

2yr RE	Two-year Rapid Exchange (see "1yr RE" above) with two-year 5x9 hardware telephone technical support.
30d LW	Thirty-day Limited Warranty - please refer to **www.Quantum.com/warranty** - Worldwide Sales, Support and Limited Warranty Terms and Conditions.
30d RE	Thirty-day Rapid Exchange (see "1yr RE" above) with thirty-day 5x9 hardware telephone technical support.
3yr Gold	Three-Year Warranty that includes Gold Level Service delivered on a 24x7x4 basis. Service Requests (SRs) can be submitted via Quantum's Online Service Request Form or telephone 24x7x365. SRs will receive a response within four hours. Telephone support will include diagnosis of equipment issues, parts replacement, consultative discussion on operation and performance analysis and other matters that might help the customer obtain optimal results using Quantum product in their environment. Replacement Parts will be shipped within four hours of Quantum's determination that a replacement part is required. Customer will perform the replacement and return of all identified CRU components. Identified FRU components will be replaced onsite by a Quantum Field Engineer or Authorized Service Provider, with a four-hour onsite response following determination, by Quantum, that an onsite response is the right action to resolve the equipment or operational problem that led to the creation of the Service Request. Support includes the rights for the customer to receive new software releases applicable to registered equipment under this warranty.
3yr NBD	Three-Year Warranty. Service Requests (SRs) can be submitted via Quantum's Online Service Request Form or telephone 24x7x365. SRs will receive a response no later than the next business day. Telephone support will include diagnosis of covered warranty issues and parts replacement. Replacement Parts will be shipped within one business day of Quantum's determination that a replacement part is required. Customer will perform the replacement and return of all identified CRU components. Identified FRU components will be replaced onsite by a Quantum Field Engineer or Authorized Service Provider, with a next business day onsite response.
3yr NBD Gold	Three-Year Warranty that includes Next Business Day Gold Level Service delivered on a 24x7xNBD basis. Service Requests (SRs) can be submitted via Quantum's Online Service Request Form or telephone 24x7x365. SRs will receive a response no later than the next business day. Telephone support will include diagnosis of equipment issues, parts replacement, consultative discussion on operation and performance analysis and other matters that might help the customer obtain optimal results using Quantum product in their environment. Replacement Parts will be shipped within one business day of Quantum's determination that a replacement part is required. Customer will perform the replacement and return of all identified CRU components. Identified FRU components will be replaced onsite by a Quantum Field Engineer or Authorized Service Provider, with a next business day onsite response. Onsite support is provided on a Next Business Day (excluding weekends, evenings and holidays) response following determination, by Quantum, that an onsite response is the right action to resolve the equipment or operational problem that led to the creation of the Service Request. Support includes the rights for the customer to receive new software releases applicable to registered equipment under this warranty.
3yr NBD PR	Three-year next business day parts replacement. Replacement item shipment targeted for next business day. Customer will perform the replacement and return of the failed item. Parts replacement service available 5x9 via telephone or email. Includes 30 days of 5x9 telephone and email software support.
3yr RE	Three-year Rapid Exchange (see "1yr RE" above) with three-year 5x9 hardware telephone technical support.
3yr RE + 1yr TSS	Three-year Rapid Exchange (see "1yr RE" above) with three-year 5x9 hardware telephone technical support and one-year Telephone Software Support.
3yr TS	Three-year 5x9 software telephone technical support.
90d TS	90-day 5x9 software telephone technical support.
MFG	The product is covered by the original equipment manufacturer's warranty.
MW	Data cartridges carry a limited lifetime warranty, stating the media is free from factory defects at the time of purchase. The warranty does not cover cartridges that are abused, misused, or fail from normal wear. Cleaning cartridges do not carry a warranty and are good for 20 uses. Refer to the warranty included in the package for more information.

Multiyear Service Contract Discounts

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.
Contact your Quantum sales support representative for details.

Revision 94, Effective: 29OCT18
PK094NG.xlsm   Page 185 of 186

Customers can save money and be protected from service price increases by signing and prepaying for a multiyear agreement at the same time as their system purchase. Customers that purchase multiyear Hardware service contracts will receive a 15% discount off the single-year price. Customers that purchase multiyear StorNext service contracts will receive a 5% discount off the single-year price. This discount should manually be applied to annual model numbers. Note that the discount is already included in the pricing of two- and three-year model numbers. When one or more tape drives and/or Fibre Channel cards are added to a configuration under a maintenance agreement, the customer will be charged pro-rated maintenance charge for the added item(s).

Reseller Service Contract Sales

VARs, distributors, certified maintainers or Partner Support Program (PSP) VARs (hereafter collectively referred to as "resellers") may sell a service contract to end users. In situations where the reseller has an opportunity to sell products outside their territory, such as a global opportunity, Quantum may deal directly with the end user for the service contract and pay a commission to the reseller based on the characteristics of the sale.

The reseller will accept a Purchase Order from the customer and will issue a separate PO to Quantum reflecting the price less the appropriate reseller discount. After the discount is applied to the price of an item, the net price should be rounded to the nearest whole dollar amount (round down if the decimal amount is less than 50 cents, round up decimal amounts greater than or equal to 50 cents).

Resellers may sell the initial service contract (either as an uplift to the standard warranty or the first year post-warranty service). Quantum reserves the right to pursue service contract renewals directly as appropriate. In such cases where Quantum assumes the contract renewal, all future renewals will be handled directly by Quantum.

For North America only, the Platinum VAR QDR price for service RENEWALS only applies to approved QDR deals for US Federal end-user customers registered and sold by the Platinum VAR who originally sold the product.

Warranty, Bronze, NBD Gold and/or Gold Level services may not be available in all areas.
Contact your Quantum sales support representative for details.
